QUEEN AND COUNTRY

It Is to Foster Sentiments of Fatriotism for These That the League of Daugh ters of the Empire Is Formed-Branch to Be Established in London

Steps are being taken to form in London a branch of the new organization known as "The Daughters of the British Empire," which had its inception in Montreal in February of this year, and is making rapid progress. The society has for its object the stimulation of and giving expression to the sentiments of patriotism which bind the women of the whole empire around the throne and person of Queen Victoria. to provide an efficient organization by which prompt and united action may be taken by the women of the empire when such action may be desired, and to use all other means for fostering patriotism. All women of Great Britain or her colonies, either by birth, adoption or residence, are eligible for membership. A branch for young people of both sexes will be formed in connection with the league, to be known as "Children of the Empire." As soon as the league is established on a firm foothold in Canada, the women of the other colonies and the motherland will be organized, and the headquarters of the lengue will be established in London, the capital of the empire. The Queen will be the patroness of the league, and the Princess of Wales will be president-general for the empire. The Countess of Minto will be honorary president for Canada, and the wives of the lieutenant-governors of the provinces will be honorary vice-presidents. The secretary for Canada is Mrs. Clark Murray, 340 Wood avenue, Montreal. To this lady full credit should be given, as she was the originator of the idea of the league's formation, and she has worked indefatigably for its formation and suc-

IN THE MINING FIELD

Annual Meeting of the Scottish-Can adian Company-The Newly Elected Officers.

Mr. A. E. Welch, of the Scottish-Canadian Mining Company, is in the city for the purpose of conferring with Mr. Chestnut and the other western kett took place at 2:30 this afternoon officials of the company. He left last evening for the purpose of visiting the properties of the company, which are located at Galena Creek, a branch of the north fork of the Lardeau. The properties consist of the Rob Roy and Highland Chief and two fractions all in one group. The Rob Roy is being developed by one main tunnel and two drifts. Two veins have been crosscut and drifted on and the tunnel is being driven toward the third lead. The first vein is thirteen feet wide with a wide pay streak and the balance concentrating ore. The third is twenty feet wide. The intention is to push the work during the summer. The annual meeting of the Scottish-Canadian Company was held yesterday and the following officers were elected: Dr. J. W. Teasdall, of London, Ont., president; Judge J. M. Miller, of Rossland, vice-president; A. E. Welch, London, Ont., managing director and treasurer; Dr. Solon Woolverton, of London, Ont.; William H. Poole, of Niagara Falls, Ont.; George H. Westlake, London, Ont.,; C. M. R. Graham, London, Ont.; J. H. Courtenay, C. E., Port Stanley, Ont., W. E. McKeough, Chatham, Ont.; and T. P. McCormick, London, Ont., directors; T. H. Luscombe, London, Ont., secretary and solicitor. The treasurer's report showed that the company is absolutely free of debt and has money enough in the treasury to carry on the work on the mine for some time, with an increasing demand for the shares. A letter was read from Superintendent Westfall, and he reported that

there was a probability of shipping at an early date.

Mr. Welch left last night for the Lardeau and after a thorough examination of the properties will return to Rossland in about two weeks. He will have the advice of a competent engineer in the examination of the mine and the letting of new contracts. Contracts for considerable work will be

let before he returns. Mr. Welch has with him some very fine specimens of the ore. The ore carries galena and grey copper and several assays show that it runs over to the ton.-Rossland Weekly Miner, Rossland, B. C., July 5, 1900.

AMAZING ESCAPE

Henry Garside Shot From His Wheel and It Was Crushed by an Engine.

To stand and watch the bicycle that he had just been thrown from in an almost miraculous way, crushed beneath the powerful wheels of a Grand Trunk locomotive, was the unusual experience of Henry Garside, a youth who is employed in an uptown bicycle store. At 1:30 o'clock this afternoon he was riding south on Richmond street. At the same time a yard engine was hauling an "empty" east. Gar-side could not see it for the Tecumseh street school, is spending his vacation House, and as the gates were open (according to his story and that of a number of onlookers), he started to cross the tracks.

The watchman then saw his danger, and shouted to him to turn back. He attempted to do so. The rear wheel caught in the track and shot him clear of the engine, which, almost at the same moment, ground the wheel into a tangled mass of splinters and spokes and rubber.
The saddle was wedged between the

planking and rail so tightly that it took nearly ten minutes to work it out. The front wheel and a portion of the frame were unharmed. frame were unharmed. Those who witnessed the accident said that if the watchman had not shouted to turn back, the boy would have crossed safely.

COOKING IS **EASILY DONE**

By Using the Cannom Summer Stove. Which Dispenses With All Heat and Annoyance - It's Absolutely

Those families now leaving home to spend a few weeks in recreation naturally seek all the comfort possible and provide themselves with every necessity for having an enjoyable outing. Those engaging cottages find a lack of cooking apparatus a great drawback a fact which causes many a good wife's smooth temper to become ruffled, even though she is supposed to be enjoying

Those cottagers or campers desiring an ideal cook stove, one that does the work in a clean, perfect manner, at a minimum cost, should examine the merits of the Cannom Summer Stove, which is on exhibition at the warerooms of the company, 344 Richmond street and 197 King street, where a full range of various sizes will shown by obliging attendants. These stoves have created a very favorable impression in all the families where they are used for the work done by them is simply perfect, and the application of a new principle of heating makes them absolutely safe. The dinner for a whole family can easily be prepared and cooked at the one time in the Combination Cooker, which can be used on any style of coal, wood, gas or oil stove, and has proved a valuable addition to the utensils in many a

woman's kitchen.
The Cannom Summer Stove, with its many labor-saving attachments, is a labor and temper saver, and should be examined by all desiring to cook meals with pleasure during the hot weather. Ask to be shown the Austin Frying Oven and Roaster, which perfectly does its work without smoke or odor filling the room in which it is used. New York, came near being successful The Enameled Stove Pipe is also an attraction for all householders, who complain of the short life of the average pipe-length. The enameling process lengthens the life of the pipe ten times, does not rust and always looks

William Waldorf Astor Loses Caste in London Society.

THE PASSING OF ASTOR.

New York, July 11.-A London cable to the Journal and Advertiser says William Waldorf Astor's sudden de-parture for Germany at the very height of the season, the canceling of all his engagements here, and the recall the invitations which he had issued for house parties on next Sunday and on Sunday week at Cliveden, are universally regarded as signaling the close of his social career in London. It is openly declared here that the Prince of Wales, who is supreme arbiter of English society, has cut him in consequence of his insulting treatment of Capt. Sir

Archibald Milne last week. FRENCH SINEWS OF WAR. Paris, July 11.-The Chamber of Deputies and the Senate have voted an additional 14,500,000 frames for the purpose of carrying on France's operations in

SORE FEET .- Mrs. E. J. Neill, New Armagh, P. Q., writes: "For nearly six months I was troubled with burning aches and pains in my feet to such an extent that I could not sleep at night, and as my feet were badly swollen I could not wear my boots for weeks. At last I got a bottle of Dr. Thomas' Eclectric Oil, and resolved to try it, and to my astonishment I got almost instant relief, and the one bottle ac-complished a perfect cure."

The Kingston locomotive works were offered for sale, but the highest bid, \$50,000, did not reach the reserve price. It is reported that Mr. Richard Croker is trying to have ex-Governor Hill nominated for governor of New York.
