LOCAL MARKET.

London, Friday, Nov. 8.

There were 24 loads of hay offered for sale at the market this morning; sales were brisk, as the supply all week was Lot sufficient for the demand; prices were steady, at \$18 and \$18 50 per ton for the best loads, and \$17 50 for second quality.

There were a couple of loads of straw on the stand, which sold at \$8 to \$8 50 per ton. Oats were in fair demand, at \$1 60 to

\$1 65 per cwt.

There is likely to be a big market tomorrow, if the weather is at all fine, and butter and egg= should be in good demand.

PRICE OF HOGS.

The price of hogs, delivered at the packing house on Monday next, will be \$5.75 to the farmer.

Selling Power.

"The whole subject of selling power as a public utility simply resolves itself to this: A price per annum per horse power cannot be arrived at, and should not be attempted. It has got to be sold as all other utilities are, at a price per unit, measured through meters for actual quantity consumed. And there actual quantity consumed. And there of money under pain of death and destruc is not the slightest reason why any distinction should be made between the current as used for lighting or used for power as a public utility design of money under pain of death and destruction of property. The money was to be left last night in certain places, and in order to catch the representatives of the Black Hand, a watch was kept on Letcher's used for power as a public utility, developed with public money and by public servants. It has no right to make one taxpayer pay more for what make one taxpayer pay more for what he gets than another. And in my humble opinion the people not only of London, but all over Ontario should London, but all over Ontario should result the "Soo" is greatly excited.
