IN WALL STREET. Press Despatch.

New York, Dec. 30.-The transactions on the stock exchange to-day were more or less interrupted by the holiday frolics indulged in by the brokers on the floor. But there was sufficient trading in evening up accounts for the close of the year to make quite an active market. This evening up of accounts involved some taking of profits

London, Dec. 30.—American securities opened rather firmer in response to better over-night prices from New York, and were well maintained through the session. Business was slow on account of the sentiment. Three small failures were reported. The market closed firm. GOLD.

THE WEEK ON 'CHANGE.

London, Dec. 31.—The improved tone of the stock exchange continues, in spite of the stock exchange continues, in spite of the stock exchange continues, in spite of the three additional failures yesterday, making eight for the past account. It is a fact that many lame ducks would have gone under had they not been assisted. The failures, however, are of small firms, whose liabilities are not important. Investment buying now predominates in all departments, and speculative business is restricted to the narrowest limits, as will probably be the case so long as the uncertainties of the war in South Africa continues to rule the market. Prices have generally improved. Consols, after touching par, closed at 90%. Americans were very firm, with further improvements, some securities being from four to eight points up on the week. Yesterday Baltimore & Ohio rose 3 points; Louisville & Nashville, 1½: Baltimore & Ohio, pfd., 1½: Chesapeake & Ohio, 1. and Reading Gold, 1. Most other Americans rose from ¼ to ¾. Owing to the policy of the Bank of England advancing against gold shipments, the week ended with a smaller demand for money, which closed easier; until Monday, 5½ to 6 per cent.: for a week, 5¾ to 6; on three months' bills, 5%.

The stock markets here were quiet and moderately firm to-day, but prices closed under the best, except in Americans. Consols had risen to 90%, but relapsed on political rumors. Americans were buoyant. Baltimore & Ohio and Louisville being especially strong. Three more fallures have been announced, all small. There may be more on Tuesday, but the year closes on the whole satisfactorily. Money is in good demand, the usual requirements at the end of the year being increased by non-arrival of remittances from the continent. The Bank of England has lent about £3, 000,000 to the market.

LONDON AGRICULTURAL SEED

Monday, 18th December.—Messrs. John Shaw & Sons, seed merchants, of London, write that a holiday spirit has now begun to characterize the market for field seeds. So far as home business is concerned there is scarcely anything doing, but the German inquiry for English clover seed still continues. As regards alsyke, white, and trefoil tares, there is no quotable alteration. Full prices are asked for rye grasses, and in tares the tendency favors sellers. There is a somewhat improved sale for blue peas and haricot beans, whilst rye is wanted. Bird seeds, in the absence of transactions, afford no subject for remark. In linseed the tendency is upwards. Fine new scarlet runner beans are now obtainable at very reasonable rates. TRADE.

The activity which characterized the trade attending the Christmas season was very marked, and the business results from retail and whole sale trade standpoints were alike satisfactory. The cash returns were large, and the effect on wholesale trade has been far-reaching. The retallers are in a good position financially to begin the new year, and everything points to a continuance of the activity next month.

Business at Hamilton is less active after the Christmas holidays. Sales for December have been much larger than for a number of years, and the condition of business has been correspondingly improved. Wholesale trade is quiet, but prospects are bright for spring business.

Holiday trade at the Pacific Coast cities was good. A feature of the business was the greater demand for more expensive articles, not only for city trade, but from retallers in new districts, which were not expected to pay much attention to that branch of business.

Canadian contingent to South Africa, etc. In concluding his speech Mr. Wallace said that he had just returned from a trip through the west, including British Columbia; and as a result of his observation he prophesied that at the next general election the Conservative party would sweep the country westward from Lake Superior to Victoria.

FRIED ONIONS

Indirectly Caused the Death of the World's Greatest General.

It is a matter of history that Napoleon was a gourmand, an inordinate lover of the good things of the table, and history further records that his favorite dish was fried onions; his death from cancer of stomach, it is claimed also, was probably caused from his excessive indulgence of this fondness for the odorous vegetable.

The onion is undoubtedly a whole-some article of food, in fact has many medicinal qualities of value, but it would be difficult to find a more indi-gestible article than fried onions, and to many people they are simply poison, but the onion does not stand alone in this respect. Any article of food that is not thoroughly digested becomes a source of disease and discomfort whether it be fried onions or beefsteak.

The reason why any wholesome food is not promptly digested is because the stomach lacks some important element of digestion; some stomachs lack peptone, others are deficient in gastric juice, still others lack Hydro chloric

The one thing necessary to do in any case of poor digestion is to supply those elements of digestion which the stomach lacks, and nothing does this so thoroughly and safely as Stuart's
