F. 1

Eastern States, a ca tel of NEW YORK, Oct. 23-A Panama letter states that all the ports of that state are declared closed.

NEW YORK, Oct. 21-The election of Covode in Pennsylvania is still in doubt The Judges in his district are divided on the question; certificates have been sent to the Governor, one declaring Covode is elected by 825 majority; the other declares Foster is elected by 340 majority. WASHINGTON, Oct. 21-Satisfactory arrangements have been made for the transportation of the California mails ; the Pacific Mail Steamship Co. is to carry all the documents and such other matter as may be directed to be sent that route between New York and San Francisco, and Wells Fargo & Co., will carry the mail overland between the terminus of the Union and Central Pacific Rail-

roads V any L 114 of animolad sato to NEW YORK OCt. 121 Theid Central and State Democratic Committees lissued an address vesterday." Both deny that the party is pledged to the overthrow of the Reconstruction Acts by other than. peaceful measures. I tdyudid bas blendei The World states that Sermout will stump New York next week.

CHICAGO, Oct. 22-The Tribune's Washington special says, Minister Johnson telegraphs that the difference pending relative to the Alabama depredationswill be referred to the King of Prussia for settlement, and not the Emperor of Russia. place for that institution.

Next Monday the Union Pacific Rail road Company will have its cars running over 860 miles of that line, and denot de NEW ORLEANS, Oct. 22-The office of the Rapedes Tribune, Alexandria, was destroyed a few nights, ago by a mob of armed meg.ll' on vinenaus sion sears BUFFALO, Oct. 22-Horatio Seymour

made the opening speech of the campaign, fully 8000 persons assembled.

NEW YORK, Oct. 21-At a meeting of the incorperators of the Isthmus Canal Company at the Cooper Institute on Tuesday evening; the company elected Peter Cooper President. The feasibility of the proposed canal was thoroughly discussed and the highest estimated cost is one billion dollars; five directors were appointed to receive subscriptions. Seward made an elaborate speech setting forth the necessities of this formidable

Editorial Correspondence--No. 17. OTTAWA, CANADA, Aug 23, 1868. The line of railway from Prescett to the Capital of the Dominion, extends for 54 miles through a country which is fast being settled by a thrifty and prosperous people. For the first fifteen miles out from the sleepycollow influences of Prescott, little has been done to reclaim the land ; out beyond that point there are many extensive farms with good buildings, and large herds of cattle and other stock. State of Ottawa is built on the west politics. Until recently he was a great supbank of the river from which it takes its porter of George Brown, and it is now name, and is rapidly rising in importance and wealth. It contains 22,000 inhabitants. many beautiful and costly private and pubr tion of his being appointed to his present lic buildings, mostly constructed of granite position. No one doubts Mr Howland's of which extensive quarries exist in the honesty or his capability, and the only obmmediate neighborhood and two or three jection I have heard urged, is on the score of good hotels. On every side great activity is his nationality-an objection frivolous and and energetic as the Canadians. In the visible, and I should not be surprised if in unworthy the attention of intelligent men in words of one of Watts' hymne may I not be three years from date could boast of 50,000 this advanced and liberal era. The large allowed to say, referring to our admission-inhabitants. The improvements on foot are majority of Ontarians accept Mr Howland's "Fly swiftly now the wheels of time appointment with a feeling of satisfaction." sually met with in English cities. One new erection that came under my observation who has assisted them in fighting and winwould reflect bo discredit upon Broadway,

are the falls of Chaudiers. These falls are fifty feet in height, and mavigation at this point being interrupted, a slide for canal has been cut through one bank for the ancommedation of rafts floated from the great timber districts higher up the stream, Below Ottawa the river isoinavigable for light draught steamers, and boats ply regularly between Ottawa and Montreal. With fre-quent portages the stream is navigable north of the city for 170 miles. "BIRCHOD SOTIO Canadian enterprise has not been blind to the splendid water-power afforded at the falls, and hence I find here saw-mills, gristmills, paper-mills, box and tub manufac. fories and many other industries in full and prosperous operation. Ottawa has become one of the most important manufacturing centres of the Dominion, and her natural advantages will enable her to prosper, even should the seat of Government be finally removed to some other locality, a by no means improbable event. The town was first located in 1799 by an American named Wright from Massachusetts. Its site was then a dense forest. In 1812-14 during the American war which then raged, Government built the Rideau Ganal, which extends from Ottawa to Kingston, 170 miles west, the object of the work being to establish a line of inland communication that would not be so subject to interruption of the foe as the St Lawrence river. This canal is in a good state of fficiency, and steamboats run through it. The chief attraction at Ottawa' are the Government buildings. These buildings are situated on an eminence overlooking the Ottawa river. They are three in number-the cen-

in return for their outlay where the Americans have only received one dollar. ent does not meet until the 19th Parlie proximo, and the political aky is therefore comparatively cleared. You already know that Mr Howland, one of the Ministry, has been appointed Lieutenant Governor of the Province of Ontario. Mr Howland was born in the United States, came to Canada when quite a boy, became a prosperous merchant of Toronto, and finally embarked in

charged that he agreed to abandon that gentleman's standard last year, in considera-

They are delighted to have for Governor one ning the battles of constitutional liberty, and New York: About one mile above the city who, having grown up among them, enter-are the falls of Chaudiere. These falls are tains feelings of active sympathy with all their wants and desires. Mr Cartier, leader of the Quebec Conservatives, has been raised to the dignity of Baronet by Letters Patent, passed under the

> Great Seal. The title is hereditary. Mr Cartier has been an able and consistent advocate of Confederation from the first mooting of the scheme, and his friends, last year, took the action, of the Imperial Government, which at first only created him a Companion of the Bath, very much to heart, especially when it was discovered that Mr McDonald leader of the Onterio Conservatives, bad been knighted. The late gracious act of Her Majesty, however, has removed all irritation.

Mr Cartier is of French descent and a most

able and reliable man. Upon conversing with public men here l find that the visits of Hou Mr DeCosmos and Mr Waddington to this city have been productive of much good. These gentlemen did not tail to impress upon the minds of the Government as well as the people, the vast mportance of the British Columbian Territory to the Confederacy ; its resources and the almost unanimous tone of the popular voice in favor of Union. Mr Waddington's lecture upon the subject of Overland Road Communication is spoken of as one of the most lucid and eloquent ever delivered at Ottawa. And here let me say that the story published at New Westminster to the effect that Mr Waddington was publicly insulted. contradicted and confounded while delivering his discourse, by a British Columbian, was a slander. Mr Waddington was interrupted but once, and the interruption came from a gentleman who had traveled over the entire tre or main building being devoted to the line of route, and who rose to endorse the uses of the two Houses of Parliament, while rer's statement as to its practicability and the inefficient character of our Government. I earnestly wish more of our public men would imitate the examples, so worthily set them by the gentlemen I have named, and pay a visit to the country, by which, in a very brief space of time we shall form a political part. Their narrow views as to the fature of the Dominion would, I venture to predict, speedily undergo a. very radical change, were they to come here and witness the great progress the country is making since Confederation. The Ministry are fully alive to the import. ance of extending their jurisdiction to the Pacific, and the people are similarly impressed. Everywhere in Ontario and Quebec I find the sentiment unanimous in favor of uniting us. Even the opposition journals denounce Government for being too slow in the matter; and so strong does the current of popular feeling tend Pacific ward, that it is not improbable, were a dissolution to occur to-morrow, one of the chief planks upon standing next the wall and looking towards which the Reform party would seek to float the door. The larniture is of oak and iron, into power, would be one having for its object the immediate purchase of the Northwest Territory and the Union of British Columbia. There is no fear of a dissolution. however, this session. Sir John A. McDonald looking men they must have been. The and his Ministry are too strong to be moved, general" effect of the Ottawa buildings is and I am glad they are firmly fixed, because good ; but to assert that in point of beauty I am certain, from what I see and bear, that or elegance of finish and design, they ap- they are moving as fast as possible in our proach the Capitol at Washington would interest. The fact is, the only stumblingseem a very rediculous assertion to anyon block, are the Hudson Bay Company's claims, who has inspected both establishments. The which will all be arranged between this date latter in my judgment is the most grand and spring, and the two sections-British and elegant structure on the continent. The Columbia and the Northwest Territory-War and Treasury Department buildings will wheel into line at the same time. The rank next next to the Capitol, and perhaps the Houses of Parliament at Ottawa stand fourth on the list. But the reader must having expired, it is thought, he will not return to Ottaws. Lord Naas some time ago mentioned, as Lord Monck's successor has it is understood, declined the position. The salary of Governor General having been reduced from \$50,000 to \$32,000 per annum, renders the office less attractive to Englishmen than formerly, [Refused the Royal Assent.] Some hope has been expressed of \$3,000,000, and equally astonished to that one of the young Princes should bear that between \$50,000,000 and \$60,000, be sent out ; but suppose the Prince went, astray, how would a rap over his knuckles from the Colonial Office be administered, and iest burgh I have yet seen ? modw yd eseigen bunger burgh I have yet seen ? modw yd eseigen burgh I have yet seen ?

IMPORTS. it in keeping with the plans. On the whole, Prices of living are moderate here and Per star J L STEPHENS from San Francisco-120 tons wages low. Good farm servants can be had I think the Canadians have got at least \$5 for \$12@16 per month and board ; first-class cooks) \$5 ; housemaids \$4. These wages are equal to those prevailing in the States,

where the rates are higher in paper, but sink to the Canadian level when reduced to silver currency. Taken altogether I am vastly pleased my visit to this Province and Ottawa. The city has a healthy, 'live' appearance." The people are active, intelligent, and business

like. The officials, from the Premier down. are working men who carry in their faces the impress of ability and sterling

worth. We have nothing to fear through entrusting our destinies into the keeping of men whose wisdom and patriotism have raised them to their present positions nor have we everything to fear by allying ourselves to a people so eminently practical

The trial of Whelan and thirteen others for participation in the murder of Thos D'Arcy Mc Gee, will take place next week. The Government has no doubt of a conviction being obtained. The spot where Mc Gee was killed is marked by a tablet set in the brickwork at the side of the door which he was in the act of openin", when the assassin's bullet crashed through his brain. The tablet bears this inscription- Here fell by the assassin's band, April 8th, 1868. Those D'Aroy McGee, The mark of the bullet which passed through his head and out at his mouth is still visible on the door There are three daily papers printed at Ottawa, of which the Times, published by James Cotton, Esq., is the acknowledged eader. All the papers are Conservative in tone.

I shall go bence to Montreal, Cornwall, Toronto and Hamilton.
