Steamboat Inspection.

The important question of steamboat inspection is one which will be directly pondent at Fort Garry, will amuse the affected by Confederation, falling, as it reader, while it will, at the same time, serve inspection is one which will be directly does, within the scope of Federal functions. A little information upon the subject may, therefore, be useful to our local readers. Under the Act 31 Vic., Chap. 65. entituled, 'An Act respecting the of the News Letter, a satellite of the Globe, Inspection of Steamboats and for the greater safety of passengers by them,' provision is made for the annual inspection by Government inspectors of steamboats which may be owned or registered in the Dominion of Canada, navigating the waters of Canada, and departing from or arriving you know who wrote them ?' The Printer-'Yes sir: I know who wrote at any port or place in Canada. The inspectors are appointed by the Gover- else. The printer should never reveal what nor-General in Council and are required to be skilled persons, competent to in-

Any regulations made by the Board cannot come into operation until approved by the Governor-General in Council. Any person claiming to perform the duties of en engineer in such steamboats must be examined by the Board and, it found qualified, will receive a certificate according to his grade, and it any person employs an engineer, or any person serves as an engineer on board such steamboats without the necessary certificate, he shall incur a penalty of \$200. A fee of \$5, is charged engineers who have been examined for the first time on receiving their certificate of capability, and for an annual renewal of such certificates a fee of \$1 is exacted. A fee is charged by the Government of \$5. for vessels of one hundred tons burthen, and under, and \$8, for vessels over that size, and a tonnage duty of 10 cents per ton on all steamers is charged in addition to the fees alluded to. These obarges are not intended for revenue purposes, but merely to meet the expenses of inspection. The Chairman of the Board receives a salary of \$1,400,

and the inspectors of Divisions receive \$800 each. British Columbia will doubtless be created a Division under the Act, with an inspector over it, who will, however, need to be paid something more than \$800 a year. The extension of this very efficient and complete system of steamboat isspection to British Columbia will be regard- Grove. Taken ali in all, there is likely to ed with no little satisfaction, as it is to be a lively and interesting time on the occa be feared that such matters have been loosely dealt with in the past. Wy could wish to see the system extended so as to embrace steam fire engines, from | the reckless and unskilled management of which the most serious consequences might be apprehended.

The Weekly British Culamist toba correspondent gives one of the most maliciously unfair descriptions of the state of affairs in that Province that could well be conceived. Lieut. Governor Archibald, in reality a most excellent man and successful administrator, is, of course, a very bad man because a Nazarene, and the Globe goes for him accordingly. The following, taken from a letter written by the Globe's corresto illustrate the length to which the para sites of the paper in question carry their abominable spirit of misrepresentacion. Lieutenaat Governor Archibald is represented as commanding the presence of one of the bands employed in the printing office and the following dialogue is said to have taken place :--

"The Lieut. Governor-'I sent for you to know ,who wrote those blackguardly articles against me which appeared in the News Letter ?' The Printer-4I am merely a printer in the offic, and cannot say anything about them.'

The Lieut-Governor, insinuatingly-'But them, but I could not tell you nor any one

goes on in the office.' Lieut-Governor (in a bullying shape.)-Then you refuse to tell me sir ?'

Printer-'Yes ; I refuse to tell. Lieut-Governor-I will tell you why I sent for you. It was quite understood be-tween Dr. Schultz and myself before he

appear against me in the News Letter and I have word from Ottawa that Dr Schultz has come to the same understanding with the Government there. I am confident that the blackguardly articles to which I now refer would not have 'appeared were the Doctor here, now I want you to promise that nothing more will appear against me until the Doctor's return.'

Printer-I cannot promise anything, as I have nothing to do with writing articles for the paper. I have to print them when they are handed to me."

Saturday, July 15.

THE fatal and mysterious horse disease. te which frequent reference has been made in our Exclusive Dispatches, has so far baffled veterinary talent in the country and was yesterday reported to be extending. It originally made its appearance among the borses owned by the Third Avenue Rail-road Company, of New York, and to say the least is very peculiar. The affection takes the poor beasts in the legs and hinder parts. The legs first grow stiff and unmanageable. In a few minutes they become completely paralyzed and the horse falls down and evidently suffers the most acute agony. Unless immediately attended to it lingers in great agony and then dies Some have recovered, but they only had a milder form of the disease-a mere weakness of the bind legs, which passed off in a few hours.

THE TWENTIETH. - The U S S Sarabac flagship of Admiral Winslow, is expected at Esquimalt on the 18th from Sitks, and with H M S Zealous will, on the 20th, fire a salute in honor of the nuptials of Cauada and British Columbia. The Mechanics' Literary Institute, we understand, will obarter the Enterprise to take excursionists to both flagships in the morning, returning early in the afternoon for a hop at Medana's

THE TWENTIETH AT NANAMIO .- We are glad to learn that it is the intention of the loyal people ot Nanimo to observe the Tweetieth as a general holiday. Arrangements have been made for holding a grand pionic on that day under the auspices of the Episcopal Sabbath School. The people of Na-naimo are going to shame the Capital.

NEWCASTLE QUARRY .- Probably few of our readers have even an approximate idea of the superior character of the stone taken out of the Newcastle Quarry, at Nanaimo. One of the front pillars for the San Francisco Mint, was quarried last week. The stone is 4 feet square, 27 feet long and weighe 25 tons.

THE COWICHIANS intend to enjoy themselves on the 20th and set an example of patriot. ism to guide Victorians on succeeding anniversaries. There will be horse races and athletic sports in the day time and a ball in the evening.

THE Board of Health had the savine from Gowen's brewery down washed out with clean water the other evening, and yesterday a person could manage to get by without feeling as if he were going to turn inside out. COAL SEAM DISCOVERED. -- We learn that Mr Uloak, North Saanich, recently discovered a coal seam on his farm which presents a very favorable appearance. As soon as the snmmer work is over he intends prospecting

HARVEST .- The farmers in the Districts around Victoria are all busy with their haycutting, most of which is being done by machinery, thus indicating the progress of the country. The crops everywhere look well.

SUDDEN ILLNESS .- Dr Nicholles, an old and respected citizen, was yesterday seized with a fit at his residence and lay dangerously ill last evening. The Doctor is upwarus of 80 years of age.

EN ROUTE .- Hon J W Trutch, accompanied by Mrs Trutch and Assistant Colonial Secretary Good, left Ottawa for British Columbia on Wednesday.

VOTERS .- There are 26 voters on the North Saanich list, and 30 on the list for South Saanich. In neither case has a single objection been entered.

Pic Nic .- Readers must not forget the Craigflower Pio Nie to-day. The object is a worthy one-to advance which everybody ought to assist.

THE Prince Alfred arrived at an early hour yesterday morning at Esquimalt, baving 755 tons of coal on board, and sailed last evening at 6 o'cl r San Francisco.

clique would be willing that they should draw hid just come back from hunting, and got off their salaries, and would scarcely go the length of advocating repudiation of the colony's obligations, and once an officer is discharged then there is nothing more to be paid to bim-Civil List Bill or no Civil List Bill. There are, however, we believe, some parties who have suffered by the Bill-and who are they? Why, certain pepula ity-bunting members of the late Legislative Council, who would stand a much better chance of reselection if they could promise offices to a host of hungry supportors and raise at the hustings their battle-cry. 'To the victors belong the spoils !' The Standard fights shy of discussion ; it still plays upon its "harp of a thousand strings' to the old tune. abuses the Civil List Bill, and asserts that we supported it.

"I do not like thee, Doctor Fell, The reason why I cannot tell. But I do not like thee, Doctor Fell." So runs the old rhyme, and so runs the Standard's article with neither rhyme nor reason. And how does it prove that we supported the Bill ? Why, because we ridicaled the foolish meetings, and expressed our idea that ' the people of Cariboo had something else to do without troubling their heads about such nonsense.' Just so ; we adhere to all we said. There are many more important subjects to occupy the attention of the next. Legislature. Next, after the passage of the Bill, we were charged with saying that 'We were disappointed at not seeing the staff of the Assay Office, at least of this braech, in the Civil List Bill passed by the last Council. Now why does not the Standard quote a few lines more from our article on the Assay Office, when we said that we trusted ' that the administration which will have the preparation of the next estimates will have the common sense not to attempt to abolish so useful an institution from any paltry spirit of fictitious economy.' We certainly were dis-appointed at not seeing the staff of the Cari-000 Assay Office in the Civil List Bill, which had been passed some time before the date of our article, as we thought that if there was to be a Civil List at all, that office should decidedly be included. Again, the Standard accuses us of having supported Dr Carrall in violating his pledges. We have said enough on that subject already. We supported his action on the Responsible Government question because we thought it sensible, as is proved by the attainment of the object ought.

The Standard advises the Cariboo constituency to be careful of our political teachng, and to elect no members who will not oledge chemselves to vote for the repeal of the Civil List Act. We warn them to beware Victoria political intriguers and their satellites, and to elect no man who is not pledged to vote for the amendment of the Registration Act, the abolition of the Road Colls and obnoxious imposts in the mining districts, the adjustment of representation, the maintenance of the Assay office-that great boon of miners-and the support of the general interests of the colony at large and the mainland in particular.

EXCITING SUENE IN COURT.

A correspondent who was present in Court when the following thrilling scene occurred, furnishes a newspaper with the following graphic report :

Partizan Journalism.

It is astonishing, it is distressing, to observe the length to which the Toronto Globe has recently sacrificed truth and decency to mere partizanship In so far as the present administration is concerned, it appears to held the ancient doctrine that nothing good can come out of Nazareth. In its eyes every act of the Government is either intrinsically or relatively bad, and the administration never comes in for more unmeasured abuse than when carrying out the very schemes which have had the ONIST. advocacy of the Globe, Indeed, it would appear to have reached that condition of morbid egotism which can discover good in nothing beyond itself. If one might be permitted to compare extremely small things with great, the Globe would appear to have a "chick" in our midst. Falling as much below it in every attribute which goes to make up a newspaper as the most insignificant star which twinkles through space falls below the sun, the organ of the Victoria Communist would yet seem to outstrip its great archetype in the spirit of factions illnature. Happily for British Colambia, its power for mis-chief is extremely limited. Not so, however, in the case of the Globe. Conducted with great vigot, characterized by more than ordinary literary ability, enjoying an immense circulation, it wields a power which, if misdirected, is capable of accomplishing great mischiet, a power which, well directed, might accomplish untold good. It has been a matter of profound regret that the Globe should have fallen into such bad habits at a time when there is so much need of a united and patriotic press-united in the grand scheme of empire. "Like master like man." The Globe's staff of correspondents appear to imitate the spirit of their master. We

THE RIOTS OVER .- The riots at New York

are over. The mob seem to have been al. most belpless in the presence of the soldiers after the latter had opened fire upon them, and the worst of the story is that many. in nocent persons suffered with the guilty. The assassination of Mrs York and daughter equals in atrocity the worst scenes of the closing hours of the Commune of Paris. Governor Hoffman is blamed-and we think justly-for not having issued his proclamation before.

THE \$100 NOTE FOUND. - Mr Humber has found his lost \$100 bank note; at least Mr E Verdier, farmer of South Saanich. picked it up in front of Duplop's stables on Saturday, shortly after it was dropped, and took it home with him. On Wednesday he read the advertisement in THE COLONIST and yesterday came to town and delivered it to Mr Humber; who, wishing to show his ap-preciation of an honest man, presented Mr Verdier with the handsome sum of \$25. There is nothing like advertising, especially in a paper so universally read as THE Col-

PRESENTATION .- Capt E A Starr, of the stmr North Pasific, was yesterday the recipient of a handsome gold match-box, suitably inscribed, the gift of Governor Musgrave, as a token of His Excellency's appreciation of the Captain's kindness and courtesy while on the late excursion to the other side. The Captain, being a smoker, will doubtless appreciate the present as an article of real aulity as well as a souvenir of a very pleasant event.

SAANICH MAIL SERVICE .- The people of Saanich complain, and we are disposed to think justly, of the manner in which the mail service is performed during the summer. The mail carrier, it appears, goes out to Wain's in the morning, returning the same day, thus affording no opportunity of answer-ing letters that week. If he would remain over night at Wain's, as is done in winter, the difficulty would be obviated. We trust the department will see to this matter at once.

The Standard-bearer on the Rampage.

From the Cariboo Sentinel July 1st. Some few weeks ago we took occasion to find fault with the dictatorial course pursued by the Victoria Standard in regard to certain comments passed upon the actions of this ournal. We headed our article on the occasion 'Impudence.' This word our contem-porary objects to, and in an article published since remarks that we possessed 'evidently only a pocket edition of Webster and consequently were short of words to head our articles.' Now, we generally try to be as concise as possible and call things by their proper names ; we see no use in beating round the bush for some long-winded phrase to express our thoughts when one simple word will express the purpose ; and if our contemporary, who doubtless possesses an edition of Webster unabridged instead of a pooket one, will pursue that valuable work, he will find among other meanings given for the word impudence, fassurance, accompanied with a disregard of the opinions of others '-and if that does not suit the Standard we are very much mistaken. In our article of 3d June, we asserted that we had

never advocated the Civil List Bill or opposed it, but that we could see nothing in it to warrant the terms in which it had been denounced, or to justify any journal or individual in falsely asserting that it "saddled sixty officials on the country who could only be removed when pensioned.' and we at the same time denounced the professional agita-Boscowitz, Miss Simon, Mrs E A H De-Wolfe, Mrs A E Clarke, Miss Ella H De-Wolfe, Capt A K P Glidden, J B Stewart, worth anything. Let the Civil List Bill be worth anything. Let the Civil List Bill be continued or repealed, it will make no difference to the country that we can see; so long as the officers perform their duties efficiently,

-but that the affair with the latter had been broken off.

A MOST EXCITING SCENE

Shortly afterward occurred in Court. The case had already been crowded with sensam tions and surprises, but ten words pronounced by the plaintiff in his cross-examination gave such a shock to the aristocratic crowd, which filled every inch of the Court-room, that for once they

FORGOT THEIR GOOD BREEDING.

Sir Roger Tichborne, when an officer in the army, and before he set forth on his wanderfell in love with his cousin Kate Doughty ings, Their attachment was disapproved of by the father of the young lady, and the engagement between them was broken off. Sir Roger then made up his mind to leave England ; but her fore he went he made a will, and also wrote a certain paper of " private instructions." These two papers he sealed up in an envelope and gave them to an attorney named Gotsford. When the claimant in the suit (who claims to be Sir Roger) returned to England he demanded the packet of Gotsford : the latter refused to deliver it, and the claimant then said he could tell

WHAT THE PACKET CONTAINED.

When this suit came on the claimant's connsel subpoened Gotsford to produce the packet. He again refused to do so. Little more was said about the packet in the trial until to-day The plaintiff was disinclined to say much about it, and his counsel, in his direct examination did not ask him many questions concerning it. To understand the scene, it must be remem. bered that this Miss Kate Doughty is now married and is Mrs Radcliffe ; that she was one of the strongest opponents of the plaintiff's cause, and that she was in Court with her husband. Imagine, then, the effect when the plaintiff, cross-examined by the opposing counsel, compelled to say against his own repeated and earnest protest, what were the

contents of the paper accompanying the will in the

MYSTERIOUS PACKET

At lass announced that he had seduced his cousin Kate, and that the paper contained instructions as to what was to be done in case after his departure, she should prove to be enciente ! This disclosure was like a bombshell exploding in the Court-room - it mus have been unexpected by every one except the parties most nearly concerned, and the effect was startling. He testified that he had been able to fix the date of a

There were instructions about the estates and lots of things. He was to keep a home farm on. I cannot remember anything else. I wrote down yesterday what I remembered of it. This memoranda was read. It said : " If my cousin should prove to be enciente, you are to make all necessary arrangements for her going to Scotland, and see that Upton is properly prepared until my return or she marries.
