

LETTERS FROM THE PEOPLE.

A Word from "Fireman."

To the Editor of the Farmer:
Sir—I hope the public will not be deceived by the fact that the "Fireman" has been put up for sale. The "Fireman" is a paper that has been published for many years, and it is a paper that is well known and respected. It is a paper that is well known and respected. It is a paper that is well known and respected.

We don't buy any paper, and we can only thank our friends for the "Fireman". We always try to do the good will of them and the public generally, and hope to have a large attendance to-morrow. Please give us a visit to this paper and office.

Yours truly,

The press excursion, arranged by Secretary Lagin, will give a large number of New Brunswick journalists a chance of seeing many sections of the Province heretofore practically unknown to many of them. Should the scribbles write up the trip after the fashion of Western journalists, there is no reason why a large number of them should not have a genuine immigration boom, at an early date.

A motion to enforce the Scott Act and indirectly the officers, made at a previous meeting of the Montreal Town Council, provoked a warm discussion at the meeting of the Board on Monday. The majority of the members thought it would be unwise to proceed with the enforcement of the act, and especially to indemnify, in view of the fact that the year's term is about expiring, and money has been voted by the city fathers as required by the act of incorporation. An amendment was finally passed to the effect that if the officers in public meeting authorize the indemnification the Council would proceed. It is thought unlikely the election will take place.

EXTRAORDINARY SCENES.

At the meeting of Shareholders of the Nova Scotia Cotton Factory.

The Repeal Issue Again.

Some extraordinary scenes took place at the meeting of shareholders of the Nova Scotia Cotton Factory last Thursday. The report showed a profit for the year of \$11,000, notwithstanding the low price of cotton, and looked hopefully upon the future.

Three hundred shares are running, with 250 shares at work on full time, and the production is three per cent of the production of the Upper Province, and only 30 per cent is sold in the Lower Province.

It was stated that the Nova Scotia Cotton Factory, the action of the Windsor and Moncton mills, but strong hopes are entertained of a new expansion of the stock, and the P. P. made a violent attack on the directors. He charged them with concealing information from the shareholders, and insisted that the stock of Nova Scotia's cash, Mr. Fyche, did not want the details of the accounts, and he insisted upon the fact, and asserted the wholesale dry goods men got cotton at lower rates than outside purchasers could.

These charges were heartily sustained by Senator Power and indignantly denied by the directors, who explained that it would be highly injudicious to publish the details of their business for the benefit of rival mills in the Lower and Upper Provinces. The manager, Mr. Stevenson, who took a very lively interest in the meeting, showed how the mill would cut off seventy per cent of the production of the Nova Scotia Cotton Factory, and he insisted that the directors, who explained that it would be highly injudicious to publish the details of their business for the benefit of rival mills in the Lower and Upper Provinces.
