HIS COURSE IS NEARLY RUN.

ALARMING NEWS ABOUT THE CONDITION OF THE PONTIFF.

It Was Thought He Was Dead After His Exertions at the Recent Consistory—Despite the Protestations of His Physicians, He Insists on Doing an Enormous Amount of Work.

LONDON, Dec. 25.—The Lancet's correspondent at Rome, who has on a number of former occasions given information regarding the Pope's health, which subsequently proved to be absolutely correct, telegraphs to-day confirming a rumor which has heretofore been treated as doubtful, that His Holiness was seized with a fainting fit after presiding at the last Consistory.

It was thought for a time, the correspondent states, that death had come, but the efforts of the physicians attached to the Vatican, who were hastily summoned, sufficed to restore animation and the sufferer rallied, though his condition remained critical for several hours. The fact that the Pope had fainted was kept a profound secret at the time, in compliance with a standing order, strictly imposed upon the personnel of the Vatican, according to which, even in the event of the Pope's death, the fact is not to be divulged until the Cardinals present in Rome at the time have completed certain acts preliminary to the conclave which is to choose the new Pontiff. These acts are prescribed by a secret bulletin lately issued by the Pope, and their exact nature is not known. Outside of the Pope having collapsed on the occasion referred to, it was impossible to obtain any confirmation of the story at the Vatican, and for the same reason the world will not learn authoritatively of the Pope's death until some time after the event. Few believe that His Holiness can survive much longer. The chronic intestinal catarrh, from which he has long suffered, is prone to take an acute turn during such severely cold weather as that which is now prevalent, while the senile anæmia, which causes the doctors greater anxiety than any other symptom, is always more pronounced after the aged Pontiff has undergone unusual exertion, as in the case of the Consistory.

This being the case, Saturday next is looked forward to with great apprehension in view of the fact that His Holiness will again on that day be subjected to a strain which, in his enfeebled condition, he is not fit to bear. Despite the protests of his physicians and confidential associates, he has promised to assist actively at the ceremonies attendant upon the unveiling of the monument to Innocent III., and to receive the numerous bishops who will visit Rome on that occasion. Fifty of these guests have already arrived. The monument, which stands in the basilica of St. Kohl Lateran, has been erected at the Pope's personal expense, the outlay being a half million francs. In reply to the appeals which are made to him to abandon his intention the Pope simply says: "I am in the hands of the Lord."

The doctors complain that His Holiness is always enlarging his field of work instead of confining his labors to absolutely routine matters as he ought to do in order to conserve his strength. One instance of his tendency was furnished by his undertaking personally the arduous correspondence and series of interviews involved in organizing the foreign hierarchy for the purpose of holding a council of bishops of all countries every year, at which the temporal and spiritual welfare of the various peoples may be considered from the view point of the church universal. The only way to account for the Pope's consistent disregard of medical advice on these subjects is to assume that he regards his course as nearly run and is resolved to literally die in the harness, occupied to the last moment in zealous exercise of such faculties as are vouchsafed him.

In Bed—Out of Bed.

If there is any pain more excruciating than sciatica, it is yet to be found, and such must have been the experience of Mr. D. C. Simons, who writes from Lowville, N. Y., U. S. A., February 2, 1889, and says: "I suffered six months with sciatica in the hip; was confined to bed three months, used crutches six weeks. I used three bottles of St. Jacobs Oil and was cured. Have had no return of pain in four years."

Monument to the Gin Inventor.

AUGUSTA, Ga., Dec. 25.—At a meeting of the Eli Whitney Monument Association a resolution was adopted to erect a monument costing $50,000 to Eli Whitney, the inventor of the cotton-gin. All cotton exchanges, cotton mills, and manufacturers of cotton machinery will be appealed to for contributions to the monument fund.

What the Country Has Escaped.

No one need fear cholera or any summer complaint, if they have a bottle of Dr. J. D. Kellogg's Dysentery Cordial ready for use. It corrects all looseness of the bowels promptly and causes a healthy and natural action. This is a medicine adapted for the young and old, rich and poor, and is rapidly becoming the most popular medicine for cholera, dysentery, etc., in the market.

Sued for Divorce at 91.

INDIANAPOLIS, Ind., Dec. 25.—In the Circuit Court yesterday, a suit for divorce against John Lawhun, aged 91, for non-support, brought by his wife, aged 50, was dismissed by the prosecution, a settlement having been reached by the January and June couple. They left the court arm in arm and apparently happy. John married her 30 years ago, when he was 61 and she 20, and two children were born to them.

Ease by day and repose by night are enjoyed by those who are wise enough to apply Dr. Thomas' Eclectric Oil to their aching muscles and joints. A quantity easily held in the palm of the hand is often enough to relieve the most exquisite pain.

AN OCEAN SONATA.

The Piano of the Steamer Celebes Roughly Pounded by the Waves.

HALIFAX, N.S., Dec. 25.—The steamer Celebes, from London, reports that she sailed Dec. 5, and that on the evening of the following day, just after passing the Lizard, she encountered a strong southwest gale and continued gales until yesterday. Three days ago the gale was accompanied by snow and sleet, the vessel being badly iced up.

During the voyage she lost her fore and main stay sails and had one of her boats damaged, and her saloon was flooded with water. The piano was fastened with iron bolts to the floor of the saloon, but these bolts were torn from their fastenings and the piano was thrown against a table and its front smashed in.

In coming in at the wharf her telegraph connecting with the engine room got out of order and signals could not be given. The result was that the steamer was not checked quickly enough and she stove in part of the shed and spile posts.

OUTPUT OF LOCOMOTIVES.

Over Two Thousand Were Built in the United States During 1891.

NEW YORK, Dec. 25.—The Railroad Gazette in its issue of Dec. 25 says:

"From the returns of locomotive building by the private shops—that is, all other than railroad shops—that we have received up to this date, the output is less than it was last year. We can compare the product of but thirteen works in the two years, but these include all of the large works. These show 2123 engines built in 1891 against 2240 in 1890, a falling off of little less than 2 per cent. This is better than we had anticipated from the current reports, which have generally been that the shops were slack.

"The fact seemed to be that within the last two or three years the capacity of the private shops has increased so greatly that what is now but a very moderate business for them would have kept them running nights a short time ago. All but three of the shops from which we have comparative figures fell off this year, and there were special reasons why these three should have increased their output. The total output of 15 works this year (two of which did not report last year) is 2300."

A Challenge.

Everybody who uses the goods of the York Soap Company, limited, now admits their superiority.

We leave the issue to the public and challenge any unprejudiced person who tries our Leader bar, Wonder or Magnetic laundry soaps to deny that they are purer and will last longer than any other soap in the market.

Our Lily White Washing Compound has been declared superior to all others and it is only half the price. Try it and see what it will do. 246

A Petrified Tree.

LAKE CITY, Minn., Dec. 25.—A. C. McMillin of this city brought with him on his return from a visit to Ellendale, S.D., a section from a petrified tree which was found under the soil at a depth of 18 inches near that town. The stone tree, devoid of branches, was 65 feet in length, and the end section obtained by Mr. McMillin has the appearance of having been nicely chopped off with an ax. Wonder is aroused as to when and by whom the chopping was done.

Enjoying a Blessing.

DEAR SIRS,—Last summer my younger sisters were taken very badly with croup, indeed we were almost in despair, having little hope of curing them. Finally we applied Hagyard's Yellow Oil, and to our great joy it cured them perfectly and they are now enjoying the blessing of perfect health. ANNIE JOHNSTON, Dalhousie, N.B.

A Montrealer's Sudden Death.

NEW YORK, Dec. 23.—August Robert, 55 years old, real estate merchant of Montreal, died suddenly last night from grippe at the Colonnade Hotel. He came here several weeks ago to attend to some extensive business. He was accompanied by his wife. The deceased's wife, nee Miss Labelle, is widely known as a singer. The interment will take place in Montreal.

Good Advice.

DEAR SIRS,—I have been troubled with headache for over 40 years, and had it so bad about once a week that I was sometimes not expected to live. I was advised to use B.B.B., and have used three bottles. I now have an attack only once in four or five months, and feel that if I continue using it I will be entirely cured. Therefore I recommend it highly. MRS. E. A. STOREY, Shetland, Ont.

It Seldom Fails.

DEAR SIRS.—I took two bottles of Hagyard's Pectoral Balsam, and it cured me of hoarseness and tightness of the chest after other things had failed. I have also tried B.B.B. it works splendidly for weakness and headache. SAMUEL MADDOCK, Beamsville, Ont.

No article takes hold of Blood Diseases like Northrop & Lyman's Vegetable Discovery. It works like magic. Miss C——, Toronto, writes: I have to thank you for what Northrop & Lyman's Vegetable Discovery has done for me. I had a sore on my knee as large as the palm of my hand, and could get nothing to do any good until I used the Discovery. Four bottles completely cured it.

LIFE FOR LIFE.

Two Physicians Perform an Operation Under the Threatening Muzzle of a Gun.

NEW YORK, Dec. 25.—A singular story was first made known yesterday during the trial of a civil suit brought by Drs. Louis Hess and Arthur Smylie of Brooklyn, against Peter Reiss, a saloonkeeper, to recover $75 for professional services and costs. Dr. Hess was engaged by Reiss to attend his wife. On the night of Dec. 2 he was hurriedly summoned and on arriving found the woman's condition extremely critical. She grew worse and Dr. Hess called in Dr. Smylie for consultation. The physicians decided that the woman's life could be only saved by a difficult operation, which they immediately begun. Someone sent word to Reiss that the doctors were mutilating his wife. Reiss, who is a hot-headed German, at once procured a loaded shotgun and made for the room where the physicians were at work. He pointed the loaded gun at the physicians and said: "You are killing my wife. A life for life. I will have the lives of both of you if she dies." The physicians performed the operation, and with perspiration streaming from every pore they finally were able to announce that the wife was out of danger. Reiss then dropped the muzzle of his gun, greatly to the relief of the physicians.

THE GREATEST
CHRISTMAS SALE
OF
SLIPPERS
EVER KNOWN

On looking over our stock of Xmas Slippers we are amazed to discover that we had three times too many, and that unless we make a supreme effort we will be unable to reduce the stock to the necessary amount at the end of this month. Rather than allow this to interfere with our proposed retirement from the retail trade we are prepared to make any kind of sacrifice next to giving goods away. We have therefore resolved that from to-day the Slipper Department must suffer a slaughter, and every pair be forced out before the first day of January, regardless of any idea of price. It is well known to everybody that we have always carried the largest and best asserted stock of Xmas Slippers in the Dominion, and to-day that it is in better shape than ever. Now here is an opportunity for ladies to make a handsome useful present to their friends—one that will be more highly appreciated than all the useless gewgaws that are so frequently thrown aside after they have been received. There is not a gentleman in Toronto that does not thoroughly enjoy the ease and comfort that is to be obtained from a comfortable pair of slippers more than from any other source. No persons can have the excuse that they cannot afford to buy a pair, as we have Gents' Silk Worked Velvet Slippers as low as 80 cents per pair, and prices to suit any and every pocketbook, and we make it a particular point in business this month that everybody shall be suited in price before they leave the store, as we will thereby prove to the public that the place most deserving of a soft spot in their memory is 135

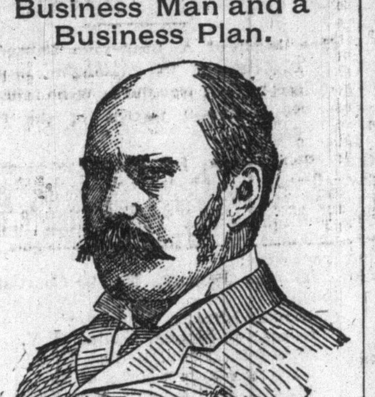
MUNICIPAL ELECTIONS.

- THE -
CITIZENS' CANDIDATE
FOR MAYOR
E. B. OSLER

Let us try for one year a Business Man and a Business Plan.



The City's yearly expenditure is greater than that of the Province; it is criminal folly to vote it into the hands of incompetent men.
Sectional issues ought to be secondary to the general welfare.
The administration of SIX MILLIONS OF DOLLARS ANNUALLY ought to be supervised by a man who has a first-rate knowledge of finance.
One or two years' experience as an alderman does not make a financial expert.
Familiarity with municipal routine has not kept down the taxes.
A capable administrator will stop the growth of taxation, sustain the City's credit and amend the system under which many taxpayers are on the road to ruin.

VOTE FOR
