On the Threshold.

Standing at womanhood's door is she,
Clad in her virginal purity,
A creature fail as the lilies be,
And like the lilies, alas, how frail;
They are borne to earth when the storms prevail,
And their life goes out in the summer gale. And their life goes out in the summer gale.

When we see a frail and lovely creature, standing on the threshold between girlhood and womanhood, we shiver with a fear of what may because we have seen so many succumb at this critical period of life. What is needed at this time is a tonic and invigorant—something that will promote proper functional action of the female organs. The only remedy to be depended on is Dr. Pierce's Favorite Prescription. This unequaled medicine, which cures diseases peculiar to women, is especially valuable at the period when the girl crosses the threshold of womanhood. Used at such a time, it never falls to produce a most beneficial result, and many a

not a trifling question, and when it comes up choice locality is worth paring for. The approach to one's home is either a daily pleasure or it is something not so good. Anything that adds buoyancy and vigor to health in the daily struggle of life is worth something, and the surroundings and pathway to one's home can often be turned to account in this way. Changes are constantly taking place amidst the "ups and downs of life," here to day and away to morrow," so that first-cass homesteads often come in our way to sell or lease upon the most liberal terms.
