Business Embarrassments.

The Williamson Book Co. of 15 King-street west is to be wound up, the liquidator being Mr. E. R. C. Clarkson. This company failed in September last, but compromised with its creditors and resumed business. Maturing obligations were not met and consequently the firm are forced to liquidate. The liabilities are placed at \$12,000 to \$15,000 and nominal assets \$20,000.

Henry A. King & Co.

St. Paul's earnings for second week of May decreased \$102,010.

Henry A. King & Co. special wire from Hubbard, Price & Co., New York: The market had a rather dull spell to-day. A good many of the traders who were short of stocks took in some of their contracts and this caused a moderate rally. The grangers, on comparatively small buying for London account, recovered from ½ to 1 per cent. from the low prices of the previous day and unquestionably would have gone still higher if liquidation in Erie had not started out afresh, and this naturally caused a pall to again fall over the general speculation. Intrinsically Erie common is not worth as much as Atchison. Erie seconds are a good short sale, but for that matter Erie pfd. stock is not worth the price at which it's selling. There was excellent buying of Chicago Gas. We may seem a little persistent in advocating the purchase of this particular specialty, but then reasonably good 6 per cent. dividend paying stocks are scarce around 66. No mistake, in our judgment, can be made in buying Chicago Gas to hold the dividend period which is approachiag on or about the 18th of next March. The regular 1½ per cent. for the quarter will be declared. Gas acts as if it would go higher. The bearish feeling is pronounced upon L. & N. and there is likewise a disposition to sell N.Y.C. However, until there is better evidence of liquidation for European account short sales of N.Y.C. will be undertaken at considerable risk. Lead declared a dividend of Lper cent. on the common.

Commercial Miscellany. Oil higher, closing at 865%c bid. At Liverpool lard is 3d lower. Cash wheat at Chicago 531/40 Puts on July wheat 54%c; calls 55%c. Puts on July corn 371/4c; calls 373/4c.

Exports continue good and are likely to while prices are so low. Of course cables will be depressed, but so long as the wheat goes out that does not matter, as nobody in the trade has ever seen such a market. The demoralization is so great that nothing would create a surprise, apparently.
