PROVAN'S REVERSIBLE CARS, FORK AND SLINGS

Have now become a Standard of Excellence with the Farmers of Canada and the United States. At the World's Fair, Chicago, 1893, the only Medal and Diploma given on Hay Carriers, Forks and Slings was awarded to us on these implements.

Following is a copy of the Judge's award:

AWARD: "For open tip hook to receive the sling; automatic clutch, adjustable for size of road desired; ingenious design of stop block, which enables perfect control of carriage; no springs required for locking car, which has motion in all directions; compact form of fork, which can be tripped in any position; the car is reversible and of double action; for novelty, ingenuity and usefulness. Excellence of material and construction."

Dairy Machinery Suppliers,
13 ST. MAURICE ST., MONTREAL.

Why? Because

in these hard times is there such a great demand for this All Steel Flexible Harrow

Parties wishing a first-class Harrow will do well to write us direct, or apply to the local agent.

The flexibility of the Harrow enables it to adapt itself as readily to rough and uneven ground as to smooth, and the oscillating motion produced by its flexibility pulverizes the ground, and leaves it in a loose and more porous condition than any other Harrow, and it is made of the very best material money can buy for the purpose. The bars are made of

HARD SPRING STEEL

very stiff and strong, the binder and teeth being of solid steel, all of which are of a higher grade than is possible to come in any other make of Harrow. We can guarantee more than double the strength and wear in any other make.

Our Motto, "Not how Cheap, but how Good."

TOLTON BROS., GUELPH, ONT.
