

DOMINION OF CANADA

EMIGRATION TO THE PROVINCE OF ONTARIO.

To Capitalists, Tenant Farmers, Agricultural Labourers, Mechanics, DAY LABOURERS. And all Parties desirous of Improving their Circumstances by Emigrating to a New Country.

THE attention of intending Emigrants is invited to the great advantages presented by the Province of Ontario. Persons living on the interest of their money can easily get eight per cent. on first-class security.

Tenant Farmers with Limited Capital Can buy and stock a Freehold Estate with the money needed to carry on a small farm in Britain. Good cleared land, with a dwelling and good barn and out-houses upon it, can be purchased in desirable localities at from £4 to £10 Stg. per acre. Farm hands can readily obtain work at good wages. Among the inducements offered to intending Emigrants, by the Government, is

A FREE GRANT OF LAND (WITHOUT ANY CHARGE WHATSOEVER.)

Every Head of a family can obtain, on condition of settlement, a FREE GRANT of two hundred acres of land for himself, and one hundred acres additional for each member of his family, male or female, over eighteen years of age.

All Persons over 18 years of age can obtain a FREE GRANT OF 100 ACRES.

The Free Grants are protected by a Homestead Exemption Act, and are not liable to seizure for any debt incurred before the issue of the patent, or for twenty years after its issue. They are within easy access of the front settlements, and are supplied with regular postal communication.

Registers of the Labour Market

And of Improved Farms for sale, are kept at the Immigration Agencies in the Province, and arrangements are made for directing emigrants to those points where employment can be most readily obtained. Several lines of railway and other public works are in course of construction, or about to be commenced, which will afford employment to an almost unlimited number of labourers.

FLOUR AND MEAL.

The commercial disturbances and general uncertainty consequent on the outbreak of war in Europe cannot but affect the price of breadstuffs. There will be great difficulty in saving the harvest in many places owing to the pressing necessities of war, and the withdrawal of a large body of able-bodied cultivators; and however brief and decisive the contest, the waste, as well as the consumption of breadstuffs will be immense. The only drawback to exportation from this side of the Atlantic will be the uncertainty and enhanced value of freights. Hence a rise and considerable fluctuation in prices is to be expected.
