At which place we beg to offer our Superior Spiral Twisted Annealed Iron Lightning Rods, with Zinc Protectors, and Electro Positive Elements combined in their Manufactory, thus rendering them equal to Copper conductors. The whole, mounted with a solid platinum Silver Point, fourteen inches long, surrounded at the base with three regular negative magnets, which possess the power to an extraordinary extent of discharging the opposite elements of the most fearful thunder storm, and embrace the entire perfection of science up to the present time; the whole constituting the most magnificent and perfect Patent conductor ever presented to the public. The public are cautioned against purchasing Rods of any person or persons unless they possess a certificate of agency, signed E. V. Wilson, L. E. Agent, and their sample Point, stamped Spirits Reproducing Patent, 1852, as we are not answerable for rods put up by any person unless they have our certificate as above.
