RING OILING AND RESERVOIR OIL BEARINGS. STANDS FOR BEARINGS. WALL BOXES. SPECIALLY HEAVY PATTERNS FOR ELECTRIC WORK. OUR SPECIAL FACILITIES SECURE YOU LOW PRICES AND PROMPT SHIPMENT.

(BRANTFORD, CANADA)

WATEROUS

The "Safety" Door and Transom Lock and Ventilator Combined.

This is an invention that takes the place of the Bolt and Chain for Doors, and supersedes and is safer than any device ever invented for a Transom Lift, as it is impossible for anyone to effect an entrance from the outside in the case of either door or transom. It permits a door to be opened a few inches, thus enabling the person inside to see who is outside before admitting them. The person inside has full control of the door, either to open or lock it, as they may see fit. There is no swinging chain to deface the door or jam. It is positive in its action, neat in appearance, and easily attached to the door or transom. It is the only fastener ever invented that will hold a door both open and shut. It must be seen to be appreciated. It is made of the best malleable iron, and is strong, durable, reliable and cheap. It is finished both in Japan and Nickel.

Retail Price of Japanned, 30c.

Retail Price of Nickeled, 50c.
