Pampliila ottoc, Edw.-June 3oth (a $O$ ), July ist (a $q$ and a $\sigma^{\circ}$ ). The male was lying with its wings expanded (as if at rest) on a flower head in a clearing; it was dead, however, but a fair specimen. Kindly identified by Dr. Hy. Skinner.
Amblyscirtes wialis, Edw.-One. June 3oth.
Owing to a visit to England in the spring, I did no collecting here until nearly the end of June, consequently many of the early-occurring species were missed. On the 2.3 rd June very few species were flying. "Blues" were plentiful ; Siupiolus especially so, mostly $q$. Other species were: Mclissa (only males), Afra (1), Lucia (1). "Shippers," only a Cernes and a worn Pylades. Danais archippus and Canonymphax inornata complete the list.

From that date until the end of the season many visits were paid to the different favourite localities around the city, but "things," almost without exreption, were scarce, and many of the species taken in 1894 were not met with. Not a single Thecla or Papilio was seen on the wing.
Phyciodes tharos, Dru.-Pupe of this species were found on July $4^{\text {th }}$ and 14 th, attached to the palings of my back yard.
Pyramcis cardui, Linn., was very noticeable on the wing, in and around the city, at the end of.June and early in July, and later the webs of its larve were thick among the thistle heads everywhere. Very few of these, I think, reached the "imago" state.
Canonympha inornata, Edw.--Specimens of this butterfly taken June 23rd were mostly wom, but the species was met with as late as July ioth.
Lycrenar melissa, Edw. -Captured or seen June 23rd, July 23rd, August $24^{\text {th }}$ and $25^{\text {th }}$, and September $2 n d$. On August 25 th I took my first and only 8 .
Thymelicus sarita, Reak.-This species occurred in some abundance locally from June 3 oth to July 13 th, but most of the specimens netted were poor.
Pamphila manitoba, Scud.-According to Dr. Skimner, my Winmipeg specimens are the var. Assiniboia, Lyman. I captured one this season (August $4^{\text {th }}$ ), and have yet to take my first 9 here.
