

20. No person sick with any of the diseases specified in Rule 17 shall be removed at any time except by permission and under the direction of the Board.

21. Persons affected with any of the diseases specified in Rule 17, and all articles infected by the same, shall be immediately separated from all persons liable to contract or communicate the disease, and none but physicians, nurses, and the clergyman of the family shall be allowed access to persons sick with these diseases.

22. Persons recovering from any of the diseases specified in the preceding rules, and their nurses, shall not leave the premises till they have been thoroughly bathed, and their clothing disinfected by washing in boiling water, or heating to 250° Fah.

23. All vessels used by such patients shall be disinfected by solution of carbolic acid or chloride of lime, then emptied, their contents buried in earth, and the vessel cleansed with boiling water.

24. All personal clothing, bedding, towels, etc., and all articles in contact with or used by the patient, shall be washed in boiling water, or exposed to a temperature of 250° Fah.

25. Infected feather beds, pillows, and hair mattresses shall have their contents removed and disinfected by thoroughly exposing them to the fumes of burning sulphur, and their ticks washed in boiling water; but no article shall be burned without the direction of the Board. Infected straw beds and excelsior mattresses shall have their contents removed and burned, and their ticks washed in boiling water.

QUESTIONS ON SANITARY SCIENCE.

The following are the questions on Sanitary Science given to students at the last examinations (Oct. 1875), before the College of Physicians and Surgeons of Ontario. Dr. Berryman, examiner.

1. What diseases are more particularly developed in the vicinity of slaughter-houses, and in thickly populated districts? Give the probable prognosis.

2. What are the various systems of purifying water for ordinary purposes in large cities?

3. On chemical analysis, how would you know good water from bad?

4. Given—an epidemic of Cholera in a large city—what are the duties of the Corporation and its Medical advisers?
