## WHAT IS SAID <sup>AND</sup> WHO SAY IT

"In a number of cases of surgical tuberculosis, I have seen much improvement follow the use of bromide of gold and arsenic (arsenauro). This remedy brought about steady improvement when other remedies failed."

"By abundant experience I am settled in my conviction as to its (ARSENAURO's) value, and more particularly so, when the iodides are not tolerated."

"There are many indications for the gold preparations (ARSENAURO and MERCAURO,) which seem to me to be quite clear, but I have limited my remarks to certain conditions in which I have acquired, by abundant experience, settled convictions as to their value."

"In these combinations (ARSENAURO and MERCAURO,) we have a new therapeutic agent, whose action is different from the action of either gold or arsenic in any form administered separately. It is a reconstructive, changes the quality of the blood corpuscles and seems to arrest degenerative processes."

"In the later manifestations of syphilis, mercauro has proved itself almost a specific, so much so that its administration was always attended by marked improvement."

"As a tonic alterative and anti-syphilitic remedy, MERCAURO certainly approaches nearer than anything I have yet tried to the specific we all desire to find."
