> STATE OF HEALTH.—We learn, from the Mercury, that at the Meeting of the Board of Health held last Monday, the following Resolution was passed:

> "That this Board having received the legal opinion of J. Duval, Esq., That everything the Board of Health does, is to be in conformity with the By-Laws of the Corporation, and that the Corporation has no Sanative By-Laws whatever,' feels itself, under these circumstances utterly unable to carry out the views intended in its formation, and that until proper powers are given to this Board it must necessarily be inoperative and inefficient, and the Corporation must bear the blame of its remissness."

> It having been reported to the Board, that several patients have been discharged as cured from the Marine Hospital whilst still labouring under fever, and, also, that a charge of sixpence a head is made to persons asking admission to their relatives, Ordered,-That the Secretary address a letter to

John B. Selley, (Signed,) Asst. House Surgeon.

At Montreal, Government have appointed a Commission to whom are to be referred all matters connected with the Immigrants. Commissioners: The Hon. Adam Ferrie, Messrs: John Dougalt, John E. Mills, Thos. Ryan, and J. M. Tobin. The number of deaths during the week ending 10th inst. exceeded by 88 the number during the corresponding week last year. Great excitement prevailed on account of the decision which has been arrived at. to erect Emigrant Sheds on Windmill Point, and a Hospital about & mile further up. A recommendation had been made, for the erection of a lazaretto on Boucherville Island; but the Commissioners have preferred the above plan.

Captain Freniere, of the steamer Canada, died of Captain Frenere, of the steamer Canada, and of fever on the 6th instant.—Mr. Crispo, son of Lieut. Crispo, R. N., died on Tuesday, also of the prevailing sickness, contracted while aiding his pastor, the Rev. M. Willoughby, in attending to the Emi-

Several of the Roman Catholic priests who have heen in attendance upon the sick Emigrants have fall-en victims to the disease; the Rev. Mr. Roy, of Char-

lesbourg, is mentioned in last evening's Gazette. Numbers of the nuns and other females who have been engaged in nursing are now down with the fever, both here and at Montreal. The same is to be said of Medical men, but we are not able to furnish all the names and number : of Doctors who are now suffering from the disease caught at the sheds in Montreal, we find five commerated, together with seven Assistants. Four Doctors with four Assistants, and one Apothecary were in attendance. Number of sick on Tuesday 1693 at the Montreal sheds. Number of deaths about 50 daily, including those who only arrive to die.

We have great pleasure in stating that Robert Symes, Esquire, had so far recovered from the attack of fever which had compelled him to leave the Quarantine Station, as to enable him to return to it last Friday.

Municipal. -At the Special Meeting of the City Council held on the 9th inst., the following Resolution was moved by Mr. Dean, and seconded by Mr. Gillespie : "That this Council having had under serious consideration the unhealthy state of a large proportion of the emigrants now arriving and of Dr. Sampson. expected from the mother country, and the danger of disease being communicated to and spreading among the citizens, resolves, that it is necessary immediately to provide additional accommodation and medical aid to meet the present and contemplated emergency;" but was lost by 6 votes against 4. It been intended, if the motion had passed, to follow it up by several others consequent upon its

The following Resolution was carried at the same

"That his Honour the Mayor be requested to communicate with the emigrant Agent to-morrow, and request him in the name of this Council to have the intention of the Government carried out, in causing more extensive accommodation to be provided for the immense number of sick who cannot be provided with accommodation in the Hospitals already in existence."

QUEBEC GAS COMPANY .- We have much pleasure in stating that the Quebec Gas Company is on the evelof operation. Mr. Peebles from Halifax, the Superintendent of the works, arrived in town on Thursday.

We have been informed that all the necessary articles procurable this fall will be, immediately, or-dered from England, and the advertisements, from the Company, in this day's paper show an earnest desire on the part of the stockholders to proceed at once to husiness. It is unnecessary for us to write in recommendation, or support, of a Company whose object has so long been a desideratum unsupplied.— Mercury.

DEATH BY DROWNING .- On Thursday evening last, a young man named Layfield, a son of a resident of Leeds of that name, and Clerk at Messes. Glover and Fry's Dry Goods establishment in this city, was drowned in the St. Charles. Accompanied by one of his co-clerks he was bathing at low water, and was taken off his legs by the current running round a wharf in the vicinity, the depth of water at the srot not being over the waist of a man. It is supposed he lost his presence of mind, and was unable to recover himself. His companion strove to save bim, and in so doing was seized by Laylield and dragged under water twice. A plank thrown to the survivor saved him. Several persons then assembled on the spot waded out and immediately recovered

What makes the occurrence the more melancholy is that the deceased's father had left him at noon of the same day, when he came to purchase mourning for the interment of his brother, the lad's uncle. He had to return the day following to bury a son, whom he had left in the full enjoyment of perfect health. Well may it be said "In the midst of life. we are in death.—Mercury. Troops by H. M. S. P. S .- We are thankful to be enabled to say that the accounts received from Montreal this morning speak of a change in the Rev. M. Willoughby's A state which greatly revives hope for the recovery of that valuable Clergyman.

With deep concern we state that the Rev. W. Chaderton expired this morning at ten o'clock.
