DISSOLUTION OF PARLIAMENT.—The Globe

Executive Government do not intend to call Parliament together before the month of May." The present intending not to convene Parliament before that time, is quite reconcileable with the assertion, that "no decision has yet been come to, as to the assembling of the Legislature."

That the Executive have not as yet determined the decision has the decision of the Legislature. Executive have not as yet determined the day on which Parliament will assemble, we are not disposed of dispute, but that they do not intend to call the Legislahe together before May, we assert on good authority. In regard to the contemplated dissolution, we feel no ess on that score;" but we have not the shadow a doubt, that the Executive Government, feel the greattaneasiness, on the subject, and that they have good reason to feel equally uncomfortable, should they think roper to ahandon their intention of appealing to the Intry, and meet the present house again.
We made the announcement of the intention of the

nment, as to the postponement of the meeting, of egislature, and the dissolution of the House of Asy, rather too soon for their purposes, and we are not tized that it has caused them some uneasiness, and they "authorised" their slavish organ, the Globealy paper at their command, and under their control to give it " the most positive and formal contradiction. That contradiction may go for what it is worth, for the paper which was "authorised" to make it, and those who uthorised" it are on a par.

It is said the old Horse is beginning to show signs of old age and infirmity,—he has got the spavin in his hind legs—besides, on his last trip from "old Norfolk," he got a little touched in his wind. He is at present on the commons, recruiting himself, to be ready against the next General Election; but it is thought by some of the old Jockes, that he will not again be able to carry more than half a dozen at a time (of lawvers.) besides the green bags and red at a time (of lawyers,) besides the green bags and red tapes. missioners. A vacancy having occurred, I could not, without compromising my pledge to the people, be a party to filling it up; and on this subject I shall give the following details. I came to Toronto fully prepared to remain in the government till next session, and with the understanding in a shall give the following of the control o my mind that a particular individual was to succeed Mr. viger; which was to me entirely satisfactory. I heard no Western District. other proposal; I was informed of no change in the arrangements till I met my colleagues here, and in a conversation in Mr. Baldwin's library I was informed that Mr. Tache was to be Receiver General. A new programme was submitted, from which I dissented, for public reasons then clearly stated; and I positively refused to concur in the arrangement. I stated distinctly that I thought the Presidency of the Council should be abolished, and likewise the office of Assistant Commissioner of Public Works, and I thought Mr. Merrit should be in that Department. All this, how-Mr. Lafontaine, who intimated that he was authorised to offer me the office of Chief Commissioner of Public Works. I replied that I was sorry for that, as he was aware that I could not accept it, as I would not remain with another Commissioner, that I was very willing to manage the Department with my present salary, but objected either to accept the office of Chief Commissioner or remain if another was appointed. He replied that I had better think it over till to-morrow. I wrote to him immediately, that under the circumstances I could not accept. We met in Council on Friday, when I was asked if I had hought of the mutter—there was only one matter. I said I had no thinking to do, Friday, when I was asked if I had thought of the matter—there was only one matter. I said I had no thinking to do, having thought it over months ago. I again repeated that I would not accept the Chief Commissionership, nor remain if another were appointed, but that I would cheerfully do the business alone. I was told there must be another Commissioner—that the law required it, and that another member must be added to the Cabinet. Mr. Hincks enquired how I could arrange it otherwise? I told him the difficulty was not of my making, and that if Mr. —— had been put in not of my making, and that if Mr. —— had been put in not of my making, and that if Mr. —— had been put in not of my making, and that if Mr. —— had been put in not of my making, and that if Mr. —— had been put in late. I had never been consulted on the appointment—never that I h one take theirs." I replied that Mr. Lafontaine might take his course, but could not carry it out, and I would not delay five minutes in taking mine. I immediately left the Council and sent in my resignation, as I felt there was a desire to have

MOVEMENTS OF THE GREAT !- " W. L. Mackenzie; Esq., who has been in this Province about a month visiting his old friends in various places, left for New York on Monday morning. He was every where received with the greatest kindness."—Examiner.

A Meeting of the School teachers of the Gore District, was held on the 18th inst., to consider upon the New School Bill, shortly to come into force; and it was resolved "to draw up a strong remonstrance against the iniquitous measure," as not only a measure grievous to teachers but prejudicial to the cause of education generally, and to lay the same before the executive.

An unfortunate coloured man of the name of Williams was found murdered on the banks of the Grand River, adjoining this town, on the morning of Monday, the 17th inst. It appears he was in McSherry's grocery, near Wilkes mill, on the previous Sunday evening, partially intoxicated, and while there displayed what money he had in his possession. On his going home he was waylaid and murdered. The parties dragged the body to the edge of the river, where he was found on the morning above mentioned. There was some money found scattered by his side. The unfortunate man must have struggled hard as his clothes were almost torn off him. A Coroners inquest was held on the body, by Richard Catton, Esq., and a verdict of wilful murder was returned against some person or persons unknown. Strange to say, although a verdict of wilful murder was returned in the case, our town authorities, have taken no active steps to discover the perperators of this foul deed.—Brantford Courier.

More Ruin and Decay. - The Gore Bank has declared a dividend of three-and-a half per cent for the half year ending the first January next. The Bank of Upper Canada has notified their stockholders of a dividend of two-and-a-half per cent. for the half year to 31st inst. We also before mentioned that the Commercial Bank had declared a dividend of three per cent. for the half year, and the Bank of Quebec had divided two per cent. What a pleasing contrast do these institutions in Canada exhibit, transacting a safe and sound business, to the inflated business establishments of any neighbours which are flated business establishments of our neighbours which are daily bursting either through the mismanagement of the directors or defalcations of the officers.—Hamilton Gazette.

NEW ELECTION FOR LONDON .- Mr. John Wilson, M. P., having cut connexion with the Conservative party, on whose interest he was returned to Parliament for the Town of London, has resigned his seat, and will again present himself before his Constituents for an approval or ondemnation of the course he has adopted. The Reform party in the town have taken Mr. Wilson up, and we believe there is no doubt of his return.—H. C. R. Becher, Esq., Barrister, London, it is said, will offer on the Conservative side.—[Toronto Globe.]

We have just learned, by private advices from London that a requisition to Mr. Dixon, the high-spirited and honest-hearted mayor of that town, has been signed by no less than 250 electors, out of a constituency of about 480. Mr. Wilson has not the shadow of a chance.—

The Hon. M. Cameron has addressed a letter to the Examiner, stating his reasons for resigning his seat in the Executive Council. The following are extracts:—
There was but one question connected with my immediate resignation, and that was the question of having two Commissioners. A vacancy having occurred, I could not, without consulting the head of the Department, or any other person; and hold myself subject to any direction of the Deputy Postmaster General respecting the matter. I have the honour to be your obedient servant.

The Chatham Chronicle having been suspendded for a short time re-appeared on the 18th inst. The editor says the suspension was owing to circumstances over which we had no controul, and also to a partial change in the ownership the present delay has occurred, but we venture to pledge ourselves that, nothing of the kind shall again take place, and therefore feel less hesitation in claiming the kind indulgence of the public.

IMPROVEMENTS IN CHATHAM.—The first ever, was opposed. I also stated at this meeting that if Mr. Price was to resign I would take the Crown Lands Department with several clerks less. This occurred when a party was named as his successor, against whom I protested. Toronto, August 29th, 1849. HALSEY'S FOREST WINE AND PHLS. THIRTY LIVES SAVED!

No example on record furnishes a greater proof of the efficacy of any medicine in Cholera than the following from Capt. John Wilson, commander of the Steamboat Swifstare, while on her passage up the Mississippi river. Capt Wilson is well known by many in the Western Country as a highly respectable and humane man.

Lewisville, July 1st, 1849

DR. G. W HALSEY that he has removed his Establishment from TORONTO to PICTON, with the view of receiving into his Family a few Boarders, of not more than sixteen years of age, to be Educated with his own ions.

In order to render his system of Education as complete and perfect as possible, he will devote his time solely to the Care and Instruction

In order to render his system of Education as complete and perfect as possible, he will devote his time solely to the Care and instruction of his Pupils.

A prominent feature in his plans is, that those placed under his roof, be not allowed, even during the hours of relaxation, to be without proper surveillance, thus preventing those fatal practices which but too often have their origin when boys ought to be engaged in such healthy recreations as will refit them for study; and thus, too, uniting, what indeed can never be separated without inflicting incalculable injury on youth—moral and intellectual training.

The advantages offered at Picton, beautifully situated as it is amid the picturesque scenery of the Bay of Quinte, easy of access both by Land and Water, and remote from the frequent excitement of more populous Towns, appear, in every respect favourable to this design.

Besides half pearly public examinations, there will be weekly recitations, and frequent lectures on scientific subjects, illustrated by diagrams and suitable apparatus.

The comfort and health of Boarders will receive from MRS. PHILLIPPS peculiar and unremitted maternal care. DR. G. W HALSEY,-Dear Sir,-The ravages of the Cholera in every part of Dear Sir,—The ravages of the Cholera in every part of our country impels me as a duty I owe to humanity, to make known what your Forest Pills and Wine have done in this dreadful disorder on board of my vessel. On the 10th of June while our my way from new Orleans to Lewisville, as master of the Stesmer Swifture, the Cholera broke out on board with great severity. On the first appearance of it three per sons were attacked; being no physician present I gave them such medicines from my medicine chest as I thought best. Two out of the three, however, died. On the following day even more was taken, and great alarm prevaled among the passengers. I was then informed that a quantity of your medicines were on board the Steamer, belonging to one of the passengers, Mr. J. M. Prime of New Orleans. With a determination to do all in my power to save the lives of my fellow For Board and Tultion, in all the ordinary branches of a sound English Education, with the Greek and Latin Languages, and the Ma'hematical sciences—£50 per annum, payable quarterly in advance. The terms for Day Scholars may be known by personal application. Picton, October 16th, 1849. mination to do all in my power to save the lives of my fellow beings, I lost no time in procuring of Mr. Prime two dozent boxes of the Pills, and as many bottles of the Forest Wine. To each of those who had the disorder, I gave five of the Pills and as soon as they began to operate well, two table spoonsful of the Wine, repeating the dose of Wine five or six times duon the Willey-four hours. This, to the surprise and joy of all on board, proved effectual, and they all recovered. More new cases continued to occur daily, until the whole number reach ed to thirty-three. I followed up the same course, giving the DEGS to intimate that his usual choice assortment of FALL AND WINTER GOODS, have arrived: comprising the most fashionable shades in BEAVERS and DOE-SKINS, together with a good variety of Seasonable Vestings, &c.

The Subscriber, considering that the distinguished patronage with which his Establishment has for several years heen favoured, is the most satisfactory assurance that the Quality and Style of his Goods, as well as the conducting of the Tailoring Department, have met with the approbation of a discerning public, would merely state, that no effort shall be wanting on his part to secure a continuance of the same. Pills and Wine always in the first stages, of the disease, and in every case they proved completely successful. Out of the thirty three cases which occurred during the passage, but two were lost, and those two died before your medicinese were known to be on board the boat. Thirty cases were treated with

Address (if by letter, post-paid), to the Rev. P., at the Office of this standing in society, sent to us by her own brother: residing in Rutgers Street. NEW YORK, JULY 7TH, 1849.

DR. G. W. HALSEY,—

As you have kindly requested me to state the result proceeding from the use of your Forest Wine and Pills, in the case of my sister, Mary T. Maxwell, I cheerfully couply, believing it lent qualities of your medicines.

My sister, from her youth, had been in very delicate health, complaining frequently of weakness of the chest; attended with a cough. About the age of eighteen she began to get much worse. For six months previous to commencing with your medicines she had not been able to go out of the bouse. Her medicines she had not been able to go out of the house. Her countenance was greatly emmaciated, yellow, and sickly. Her face and neck was covered with disagreeable pustules, eyes very much sunken, and her cough increasing. In fine she bore every appearance of soon becoming an unhappy victim to consumption. At this time I procured for her some of your Forest Wine and Pills, which she commenced using according to the directions. She gradually improved as she followed up the use of them. Her first symptoms of recovery was an uncommonly good appetite, her face finally became smooth, and her checks rosy. Her cough left her altogether. She is now strong and vigorous, and presents the finest example of health I ever watnessed.

From the Montreal Transcript, July 22nd, 1848.

We thing it but due to Dr. Wistar that we should add our testimony to numerous others as to the extraordinary merits of his medicine in certain cures, particularly where the patient has complained of pain in the side, or in cases of an asthmatical character.

We are personally acquainted with many persons who have experienced immense relief from the use of this medicine, when labouring under the diseases above mentioned; and as in the changeable climate of Canada, these dise sees are more than usually common, any medicine calculated to counteract them must be of yalue.

We are aware that it has a large and still increasing sale, and has been very generally and beneficially used since its introduction into Canada three years ago—and the very fact as its having stood the test of three years' experience is proof of its value.

We are not in the habit of recommending patent medicines unless the benefits conferred by them have come under our own observation; but in the present instance we can recommend Wistor's Balsam of Wild Cherry, as a medicine worthy of the confidence of the public in diseases of the Chest and Side, and in many cases in this city several Coughs have yielded to its influence.
