

- The Transit Export Coordination Committee, a joint industry-government body to improve exchange of information, will co-sponsor business development activities nationally and internationally.
- DFAIT will encourage competitive financing and the formation of export consortia to procure international contacts.
- DFAIT will maintain a database on existing and future expected international markets and an up-to-date directory of Canadian exporters of rail and urban transit equipment and services.
- The government will provide timely information to Canadian exporters with respect to upcoming international trade shows, fairs and exhibitions.
- With reference to NAFTA, the government will:
 - prepare and distribute Spanish-language material describing the capabilities of the Canadian urban transit and rail sector systems
 - carry out and disseminate the results of a survey to determine opportunities in Mexico for Canadian transportation products and services, and the type of commercial arrangements most likely to be successful in exploiting these opportunities
 - focus on access to government procurement in Mexico, given Mexico's requirement to upgrade its transportation infrastructure and market identification and intelligence.
