LiverPOOL Jan 22.—The market opened steady, unchanged and then con-tinued dull, unchanged and then con-tinued dull, unchanged . The firmness in America and the strength in Winnipeg offset the closing weakhess in Buenos Ayres and the talk of larger Argentine bipments this week. Paris showed pro-mounced weakness at the opening with free realizing, but the continent generally is bidding freely for cargoes to arrive and these are more firmly held. Corn opened unchanged to ¼d higher on the strength in America. Later Plate grade declined ¼d with the easier closing in Buenos Ayres. The American grade advanced after opening on firmer Ameri-can offerings and reported good export takings. wired: Wheat—It looks as if a treaty of peace would shortly be signed. The past thirty-eight years. "Several years ago when my horse took colic, I us d to give him Cayenne Peppar in hot milk, but in in few cases only did 1 help, and because I had no proper means at hand I lost several valuable animals. Some one told me of the success Mr. Wendling of Brock-with 'Nerviline,' so'I laid in a supply. It wasn't very long before Nerviline saved the life of a valuable stallion of mine, which was worth at least \$1000. This horse was taken with colic, and would have died had it not been for Nerviline. I have used Nerviline for reducing swellings, for taking out dis-temper lumps, and easing a bad cough norse so r cattle to keep Nerviline on horse so re cattle to keep Nerviline on hand." Pacific Live Stock Market, the receipts for the week enued Jan. 18 were 1400 cat-tle, 1500 sheep and lambs, 1295 hogs and 375 calves. Offerings on the market to-day were 1600 cattle, 500 sheep and lambs, 1300 hogs and 300 calves. A weak feeling prevaied in the mar-ket for cattle and prices generally ruled lower, owing to the fact that the supply was far in excess of the requirements of the trade and especially so as the buik of the offerings consisted of common and medium stock for which there is only limited demand at this period of the year, and particularly so for the former. At the reduction in prices the trade was slow thrubut the day and a number were left over unsoid. A few of the best steers mough as high as \$6.25 to \$6.50, but the buik of the trading was done at \$6, while cows sold at from \$3 to \$6, and buils at from \$5 to \$4.50 per cwt. as to quality. There was no change in the condition of the market for sheep or lambs, prices being firm on account of the small sup-pies available and the continued 'good demand for the same. Sales of choice ewe sneep were made at \$5.25 to \$6.50, while lamos brought \$7 to \$7.25 and \$7.50 per cwt. as to quality. The demand for calves was fair at prices ranging from \$3 to \$10 each. A weaker feeling developed in the mar-ket for hogs in sympathy with Toronto. Sales of selected lots were made at \$8.75 to \$3.25 per cwt. weighed on cars. Grand Trunk System News Items. Grand Trunk System News Items. Something of the difficulties which are being overcome by science in the construction of the Grand Trunk Pacific terminals at Prince Rupert can be understood from the following graphic description by an eye-witness of what is probably one of the most sensa-Cha

tional blasting feats ever attempted in Canada. "The big blast that was fired Janu-ary 19, at the foot of Centre street, alongside the G.T.P. main line, was a revelation to those who had never before seen anything of the kind, and to those with experience it was an exemplification of what enginering skill, combined with modern explosives, can

"Where yesterday stood a solid ridge of rock longer than an ordinary city block, twice as wide as a city street, and more than 45 feet in height, today there is to be seen a crumbled mass of mode city and the strength of the strengt of the str of rock all ready for the steam shovel

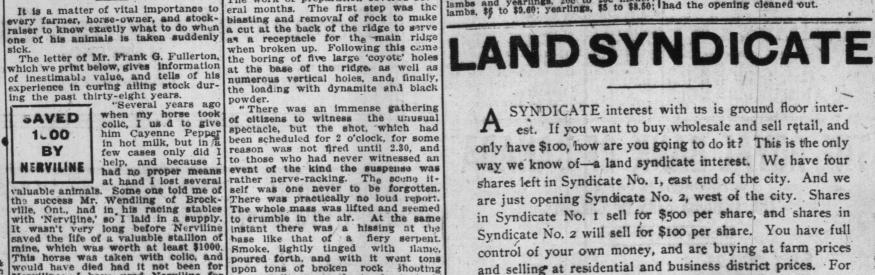

To Know How to Cure Colic, Dis-to load into cass. Approximately 50,000 cubic feet of solid rock was thus prepared, to remove which over 4,000 large-sized dump cars will be necessary. Roughly speaking, the actual cost of the shot was \$5000, this including wages for boring the 'coyote' and vertical holes and the cost of powder, ten tons of which were used.
