Movement in Right-of-Way on Early Opening of the Property.

Mining shares were extremely dull yesterday on the Standard Exchange, and there were few fluctuations of importance. Crown Reserve sold at 72. The market showed no inclination to become wildly excited or enthused over the report that the company have taken an option on a property in Risaragua. It is felt that the present is no time for Canadian money to seek investment outside Canadia. There are plenty of opportunities still open in the local field. Peterson Lake was weaker at 22, Timiskamins firmer at 17½. Hight-of-Way was a feature on the revived report that the company is about to reopen.

In the Porcupine group, Big Dome continued to hold firm around \$6.15. Holinger sold at \$22.50. Mointyre fluctuated between 30 and 30%, while Vipond eased from 41 to 39. Apex was strong at 3.

BREAK IN WHEAT ATTRACTS BUYERS

MONTREAL, Feb. 15.—In sympathy with the break in prices in the Winnipes market on Saturday early cables today were weak, with bids is per quarter lower, but on the renewed strength today late cables came stronger at an advance of 6d to 9d per quarter, and the prices bid for No. 2 northern for May shipment were flat on the market.
