

CONTENTS.

	PAGE
Chapter I. Measurement of Angles	1
Chapter II. Trigonometric Functions	5
Miscellaneous Examples. A.	16
Chapter III. The use of four figure tables of natural functions	18
Miscellaneous Examples. B.	33
Chapter IV. Functions of angles greater than a right angle	36
Chapter V. Relations between the sides and angles of a triangle	55
Miscellaneous Examples. C.	61
Chapter VI. Projection, and Formulae for Compound Angles	64
Miscellaneous Examples. D.	84
Chapter VII. Logarithms	86
Miscellaneous Examples. E.	100
Chapter VIII. Solution of Triangles : Circumscribed, Inscribed and Escribed Circles	103
Miscellaneous Examples. F.	119
Chapter IX. Radian, or Circular Measure of Angles .	122
Miscellaneous Examples. G.	134
Chapter X. Angles which are not in one plane : Trigonometrical Surveying	139
Miscellaneous Examples. H.	154
Appendix	157
Answers	161
