

- Syphilis, tertiary, as intrinsic cause of tracheal stenosis, 740
 diagnosis of glanders from, 499, 500
 of malignant disease of pharynx from, 365
 treatment, 163
 treatment by inunction of mercury ointment, 160
 by mercury, intramuscular injections, 161
 oral administration, 159, 160
- Syphilitic and tuberculous perichondritis, diagnosis between, 584
 ankylosis of crico arytenoid joints, 589, 591
 disease of nose complicated by abscess of septum, 117
 growth, cause of unilateral abductor paralysis, 722
 origin of anosmia, 62
 osteoma of antrum, 230
 paralysis of vocal cords, 654
 perforation of septum, 118, 120
 perichondritis of larynx, 583, 654
 stenosis of larynx, 666
 ulcers, location of, 19
- Syphilitics, chronic laryngitis in, 559
- Syringe and needle for induction of local anæsthesia, 106
 antral, 217
 Brünings', for injection of paraffin, 165
 laryngeal, 564
 Syringing in chronic atrophic rhinitis, 50
- Tabes dorsalis causing abductor paralysis, 720
 complicated with laryngeal symptoms, morbid anatomy and pathology, 734
 diagnosis from laryngeal vertigo, 714
 laryngeal manifestations of, 734
 producing glottic spasm, 707
 unilateral abductor paralysis sometimes first symptom of, 722
- Tampon (Cooper Rose's), use of, in checking intractable nasal hæmorrhage, 183
- Tannin, glycerine of, in chronic pharyngitis, 347
- Teeth, caries of, and nasal obstruction, 95
 common cause of inflammation of accessory sinuses, 194
 cleansing of, in secondary syphilis of pharynx, 378
 extraction of, followed by inflammation of accessory sinuses, 195
- Temperature, sudden change of, factor in causation of acute rhinitis, 26
- Tensor muscles of vocal cords, spasm of, 711. See also *Aphonia spastica*
 spasm of, producing aphonia spastica, 704
- Tetany, glottic spasm symptom of, 708
- Thomson, Sir StClair, causes of tracheal stenosis, 739
- cerebro-spinal rhinorrhœa, 90
 long-bladed nasal speculum, 111
- Thorax, compression in, causing stenosis of trachea, 739
 tumours of, causing glottic spasm in adults, 708
- Thorner, fatal case of intubation in chronic laryngeal stenosis, 679
- Throat and larynx, digital examination, 518
 diphtheritic incision dangerous, 494
 examination in acute tonsillitis, 466
 foreign bodies in, symptoms, 688
 manifestations of myxœdema, 506
 of pemphigus, 508
 of rheumatism, 506
 phlegmon of, 451
 reflex irritability of, cause of difficulty in examination of larynx, 514
 syringing in diphtheria, 493, 494
- Thrombosis, septic, of cavernous sinus, 294
- Thrush, 385
 age incidence, 385
 forms of, 385
 symptoms, 386
 treatment, 386
- Thudichum's nasal speculum, 12, 13
- Thyro-arytenoid muscles, paralysis of, 727
 causes, 727
 symptoms, 728
 treatment, 728
- Thyro-chondrotomy. See *Laryngofissure*
- Thyro-hyoid dislocation of, 684
 treatment of, by movements, 685
- Thyroid and cricoid cartilage, fracture of, diagnosis, 682
 prognosis, 682
 serious nature of, 681
 symptoms, 681
 treatment, 682
- cartilage, upper cornua of, fracture of, common occurrence, 681
- gland, isthmus of, position in relation to trachea, 773
 tumours, 595
- perichondritis of, 582
- Thyrotomy for localised laryngeal tuberculoma, 646
 in perichondritis, 586
