Widow Kept Light Burning

The top of the lighthouse can only be reached by means of a hoist, to which a basket is attached, into which one passenger at a time can go.

Marconi of Sympathy

Hon. J. D. Hazen, minister of marine and fisheries, has sent a Marconi of sympathy to the widow, with a request that she keep charge of the lighthouse until further arrangements can be made.

Not for Personal Use

Asked for shares, notes were given to Travers to raise money for his personal use, the doctor stated that they were given to Travers with the

one object of obtaining money for the bank. According to A. Fraser Dr. Ferguson had got 7500 in a director, 11500 in a director, 11500 in a director.

Legal advice had been obtained by the provincial directors and Travers by which the latter was to get \$5000 a year as manager and was authorized to sell the bank stock when unsold.

Fraser received a cheque for \$2000 and this, he said, had been equally divided between Ferguson and Fraser. Mr. Hodgins wanted to know why the payment had not been made separately.

WHAT MR. ROWELL WOULD DO IF HE WERE CHOSEN PREMIER

Leader of Opposition Was Cruelly Jostled When He Waded Knee-Deep Into Bilingual Problem and Then Floundered—Premier Scored Him Severely for Continually Finding Fault Without Cause.

N. W. Rowell realized yesterday afternoon in the legislature as he never did before the seriousness of the English-French school problem in this province.

Mr. Rowell then intimated that larger grants were needed for education, for public health for agriculture and for good roads. For the latter he was not given an estimate before he said:

As to the provincial subsidy from the Dominion government, the opposition leader maintained the present amount received by this province should be substantially increased if Ontario is to get justice.

TORPED BY DILIGENT AND TERRIBLE SICK HEADACHES

Both Completely Cured by "Fruit-a-tives."

Dresden, Ont., July 17, 1910. "I was a dreadful sufferer for many years from Sick Headaches and Biliousness, or Torpid Liver. I tried many remedies and physicians, but nothing seemed to do me any good. I finally used 'Fruit-a-tives' and after the first box, I do so much better that I continued using these fruit tablets and presently entirely cured of my ailment."

"I certainly can recommend 'Fruit-a-tives' to anyone who suffers from Headaches, Biliousness or Stomach Trouble." Mrs. I. S. C. YARCKLE.

"Thousands of people have had the same experience as Mrs. Vanekle. They have tried doctors and taken all sorts of medicine, only to find that 'Fruit-a-tives' is the one and only remedy that actually cures these troubles."

"'Fruit-a-tives' is the only medicine in the world made of fruit juices, and the greatest Liver and Biliary remedy. It acts directly on Liver, Kidneys and Skin—sweetens the stomach and purifies the blood."

At all dealers or from Fruit-a-tives, Limited, Ottawa.

of corruption and graft and received \$200 for his services. Here Mr. Rowell interrupted the premier. "The statement made by the hon. Mr. Mackenzie and Mr. Rowell," said Mr. Rowell, "I cannot point to any occasion on which I ever defended the present, without any justification whatever."

"Well, I repeat my statement," retorted Mr. Mackenzie.

When Mr. Rowell appealed to the speaker regarding the rules of procedure, on which, he said, the premier had laid stress on the day.

"I will take back anything I have said that was improper," said the premier. "But I do not think anything I have said improper. I accuse the leader of the opposition of supporting the late government, and the hon. Mr. Mackenzie of the government side pounded the desks vigorously."

The Boundary Question. The harping of the Liberals on the Manitoba boundary question was a result of ignorance, Sir James thought that Hon. Mr. Mackenzie and Mr. Rowell should know more regarding the finances of the province than they did. Hon. Mr. Mackenzie then gave up until after the hon. leader of the opposition made his plea for Ontario, which was a mistake of his political friend and learned a lot, said he. "All the fuss and fury is really absurd, without any justification whatever."

At this point I read some extracts from a letter which I received from a gentleman on the matter. And he showed that a province would have jurisdiction over one of its railways which was in another province. Premier Borden said that Ontario would extend its railway to Hudson Bay, which would necessarily mean cutting thru Manitoba territory. The hon. Mr. Mackenzie said that the federal government, and as soon as the grant is passed Ontario will own it.

Timber Sales. In reference to the lament of the Liberals about the depletion of forest lands, Sir James thought that Hon. Mr. Mackenzie and Mr. Rowell should know more regarding the finances of the province than they did. Hon. well as the men, and he supposed they would go to camp too. The minister of militia declared that the men who degraded the militia camps, did not want to be there.

Travers and I never had any angry words," volunteered Mr. Watson, "and the more I saw of him, the more favorably impressed I was. Because C. Smith had the last word, and he was on the inside of the bank's affairs, the others thought that I would get him to spy for me, but I was not such an intention," concluded Mr. Watson.

For 27 years a resident of Toronto, Dr. J. Ferguson was the father-in-law of the late J. D. Hazen, who was one of the original directors, owned no stock, nor was in any way financially interested in the bank. It was intended that he should buy some of the shares, but the matter was put off until Travers told him that it was better to get business men on the stock, and he had consented, telling Travers to do anything that would help them in organizing the bank. Mr. Lew was the only director who had taken stock in the bank. A considerable quantity of shares were disposed of by Mr. Stok, but he had no hold of the bank. As far as he knew, they were paying Mr. Smith 10 per cent commission, but he was not certain, and any notes for stock, and it was not until Travers came that this was done. Smith was looking after the whole matter, and it was not until Travers came that this was done.

Could Not Put It Thru. The board of provincial directors had come to the conclusion that they could not make the bank go, and Dr. Ferguson moved a resolution that the money be returned to the shareholders, but this was not carried. Travers then offered to give the board \$20,000 for the work the members had done to organize the bank.

Was It not a generous offer of Travers to give you \$20,000 for the work you have done?" queried Mr. Hodgins. "No, I don't think that it was," was the reply.

But it was not a generous offer for the work in which you had failed? The financial result of your efforts did not produce any subscriptions," reminded Mr. Hodgins.

Travers to Pay \$20,000. Travers, said the doctor, had undertaken in July to pay the directors \$20,000, prospective shareholders' notes and the directors were to share this amount between them.

You all seemed to take the same view—that you would take a few hundred and get out," Mr. Hodgins interjected when Dr. Ferguson was explaining their readiness to accept the sum offered by Travers, which was much less than what was originally promised to the directors. Dr. Ferguson held that this was not so, and that they were not anxious to see the bank running right than get returns from it.

Not for Personal Use. Asked for shares, notes were given to Travers to raise money for his personal use, the doctor stated that they were given to Travers with the

object of obtaining money for the bank. According to A. Fraser Dr. Ferguson had got 7500 in a director, 11500 in a director, 11500 in a director.

Legal advice had been obtained by the provincial directors and Travers by which the latter was to get \$5000 a year as manager and was authorized to sell the bank stock when unsold.

Fraser received a cheque for \$2000 and this, he said, had been equally divided between Ferguson and Fraser. Mr. Hodgins wanted to know why the payment had not been made separately.

BOARD FOR ALL LABOR DISPUTES

OTTAWA, March 19.—(Special.)—Two important changes in the Industrial Disputes Act are being considered by Hon. T. W. Crothers, minister of labor.

One is to broaden the act so as to take in all industrial disputes. At present the act only applies to industries which are regarded as public utilities, such as railroads, street railways, coal mines, etc. Mr. Crothers' plan is to make the act apply to all industrial disputes between employers and employees.

Mr. Crothers is also considering the appointment of a permanent chairman of the arbitration board. At present one member is appointed by the men and one by the corporation. They appoint between them a chairman, and if they fail to agree, the department selects a chairman. There has been difficulty in securing a competent chairman, and a number of conciliation boards have failed from this cause.

It is felt that a permanent chairman, who made a study of Canadian labor problems, would greatly assist in solving disputes. It is too late in the session to take any action.
