And Complains of Unfair Distribution of Government Favors.

California is close. San Francisco, Nov. 4.—Returns from 187 out of 277 precincts in California give McKinley 128,795, Bryan 121,468. The same in 1892 gave Harrison 108,908, Cleveland 106,257.

Indiana Still in Doubt. Indianapolis, Nov. 4.—The best figures obtainable by counties, many of which are complete, show that the Republicans have carried the State by from 15,000 to 20,000.

Only Two Doubtful Now. New York, Nov. 4.—Returns received to-day and to-night by the United Associated Presses reduce the doubtful states to two—California and North Dakota. Washington, Wyoming, Kansas and Nebraska, of the states which were in doubt last night, are transferred to the Bryan column, and Delaware, Oregon, South Dakota, Indiana and Kentucky are placed in the McKinley column. The vote in Kentucky is close, but advices indicate that the state is Republican by a small plurality. Delaware and Oregon are also close states, but are apparently carried by McKinley.

Both Claim Kentucky. Louisville, Nov. 4.—Republican figures give McKinley to McKinley by 5249, while Democratic estimates give it to Bryan by 2725.

States. McKinley, Bryan. Alabama 11 11 Arkansas 9 9 California 9 9 Colorado 9 9 Delaware 9 9 Florida 13 13 Georgia 13 13 Idaho 24 24 Illinois 15 15 Indiana 15 15 Iowa 15 15 Kansas 15 15 Kentucky 8 8 Louisiana 8 8 Maine 8 8 Massachusetts 15 15 Michigan 14 14 Minnesota 9 9 Mississippi 21 21 Missouri 9 9 Montana 9 9 Nevada 4 4 New Hampshire 10 10 New Jersey 10 10 New York 11 11 North Carolina 23 23 North Dakota 23 23 Oregon 23 23 Rhode Island 4 4 South Carolina 4 4 Tennessee 27 27 Utah 4 4 Virginia 4 4 Washington 16 16 West Virginia 16 16 Wisconsin 16 16 Wyoming 16 16 Total 277 170

Without California and North Dakota, McKinley apparently has 265 votes, or 41 more than necessary to elect. The losses of Delaware, Oregon, Kentucky, South Carolina and New York will leave McKinley eight votes over the 224.

WAY UP.

MR. LAURIER (humbly approaching, hat in hand): I'm really afraid it's going to be hard to get there than ever.

BIG PROFITS MADE ON TEA

Hamilton Men Charged the City High Rates.

FORTY-FIVE CENTS A POUND

Was the Snug Figure Made on Two Thousand Pounds of It.

The investigation into the House of Refuge contracts for groceries concluded. Competing Contractors Paid by the High as to Shut Them Out—Appeals Before the Court of Revision.

Hamilton, Nov. 4.—(Special.)—As big a crowd as has ever gathered in the House of Refuge investigation, which was concluded at a late hour.

Prof. Coleman Wants to Keep in Line With the Alleged Geologists, Also Mr. A. Rice.

Queen's Own Inspection. It was a bad night for the Queen's Own bands last night, but 264 of all make turns out on the parade ground.

Prof. Pike's Opinion. Prof. William H. Pike, M.A., of Toronto University, was not over-enthusiastic when interviewed by a reporter last evening about the reported finding of coal near Sudbury.

Presidents of Notal Academy. Edward John Poynter Ilected to Succeed the Late Mr. John Hilliard.

THE DAIRY INDUSTRY.

Nearly 60,000 Lbs. of Butter Made in the Northwest.

NEW SCHEME FOR PACKING.

Professor Robertson Has Substituted Square Packages for Round.

The Dairy Commissioner Has Great Hopes of the Northwest as a Dairying Country.—The Murders of Blood Indian Again Kludes the Mounted Police.—Mr. Sifton Expected on Friday.—Personal and General News From the Capital.

Ottawa, Nov. 4.—(Special.)—Mr. W. F. King, Chief Astronomer of the Interior Department, has left for Port Stanley to continue astronomical work, at which Mr. Otto Klotz of the same department has been engaged all summer. It has been felt necessary to again determine the international boundary running through Lake Erie, and Mr. Klotz has been engaged all summer on the lake taking astronomical observations and carrying out a survey. Mr. King was at the same time engaged in astronomical observations at Ottawa, and with a view to checking each other's work there has been a change of places between the two astronomers.

DAIRYING MATTERS. According to advices received by the Dairy Commissioner, the last shipments of butter for this season from the Government dairy stations at Indian Head and Prince Albert are now on their way to Montreal. The quantity made at Indian Head during the season was 52,322 pounds, and at Prince Albert 27,168 pounds. It is expected that the output at both places next year will double the season just passed.

THE BLOOD INDIAN. Advice was received at the Indian Department to-day to the effect that the Blood Indian who killed another Indian two or three weeks ago had fled to the Northwest. The mounted police got on his track, but his friends concealed him, and he has not yet been captured. The squaw and children of the murderer have returned to the reserve.

THE HYDROGRAPHERS. Mr. W. J. Stewart of the Marine Department, with his two assistant engineers, who were engaged all summer on the hydrographic survey of Lake Erie, returned to the city last night. He takes the Northwest should be able to export large quantities of butter to eastern countries.

EXHIBITS IN ENGLAND. S. R. Cossey of Halifax writes to the Minister of Trade and Commerce urging a permanent exhibit of minerals and products of Canada in England.

Conservative Meetings. At the meeting of No. 4 Ward Conservative Association on Tuesday night it was claimed that improper notice of the meeting had been given to members, and ultimates were given to the members of the other Ward Association to be held, and a better representation would like to know when their meetings were to be held, and the probability is that they will be held at the election of officers if no notification of the meeting is given a day or two before it takes place.

Back From Seine River. Mr. Wallace Maclean of The World editorial staff returned from the Seine River District yesterday. He has brought with him a vast amount of reliable information concerning this wonderful gold-producing country. A special edition of The World, with a full account of Mr. Maclean's trip to the celebrated mines in that district, will be issued in a few days. The edition will be of unusual interest to the people of Canada, and we anticipate that we will have a wide circulation.
