KIPLING, THE IMPERIALIST

A Charming Lecture by Prof. Mackenzie of Trinity University at St. James' Square Church.

"HIS WRITINGS ARE VERY SERMONS."

Much to Bring Imperial Federation Into Politics.

FROM OUR EXCHANGES.

She Has Testimonials.

Hepworth Journal: Mrs. M. L. Hill of Toronto has been visiting at the homes of Mr. Moore and his daughter, Mrs. Rodman. Mrs. Hill has a large experience in mission and W.C.T.U work, and has the best of testimonials as an evangelistic and temperance speaker.

The C. P. R. to Berlin.

Galt Reporter: Berlin is very anxious

bonus of \$12,000.

He Knew Cobourg Rye.

North Ontario Times: A tramp was arrested in Cobourg, and while in the cell was taken with grip. He was given medical treatment. The attendant offered hin a drink of rye one morning, whereupon the tramp asked if the liquor had been purchased in town. Upon being told that it was, he arose from his bed, and, without a word, set out and walked to Port Hope. Evidently this fellow had been in Cobourg before.

Joe Martin's Failing. Aylmer Sun: Hon, Joseph Martin always keeps up a feir amount of excitement in his neighborhood.

What Hamilton Can Keep. What Hamilton Can Keep.
Peterboro Times: The Hamilton School
Board has a heavy deficit, Toronto has
been playing "Hogtown" with Hamilton
for some time, trying to take away from
her almost everything she has, We may
assure Hamilton, however, that Toronto
will let her keep the deficit.

will let her keep the deflett.

Bruce Herald Has a Scoop.

Bruce Herald, Jan. 26: The Ontario Legislature was opened yesterday with the usual pomp and ceremony. The probability is that the session will be a short one.

Wiarton Needs Hustlers.

Wiarton Needs Hustlers.

Wiarton Canadian: An Owen Sound deputation was at Ottawa last week, looking for more aid and influence for the shipping interests of that town. Owen Sound never loses an opportunity to secure any possible advantage, and if some of the town councilors and business men of Wiarton would take a leaf out of Owen Sound's book, a better state of affairs might exist here, and the best harbor on the upper lakes would not be so badly neglected.

The Union Label.

The Union Label. The Union Label.

Ottawa Citizen: The City Solicitor of Toronto agrees with City Solicitor McVelty that it is illegal for a city Council to limit the giving of city work or contracts to union men or firms exclusively. The resolution passed by Toronto Council has been repealed and every citizen will have an equal right either to work for the corporation or to tender for contracts—which is as it should be.

What is It Anyway? Vancouver Province: The Globe will insist on speaking of the British Columbia Government as a "Liberal" Government. It is about as much a "Liberal" Government as The Globe is a Tory organ. Poor Ad. for Hamilton.

Poor Ad. for Hamilton.

Hamilton Times: The Hamilton Heraid's ideas of what is moral or justifiable according to the canons of right are somewhat hazy. The city attempted to force the Canada Late Assurance Company to pay a very large sum of money in wrongful taxation. The company resisted payment, feeling strongly the injustice done—an injustice, even if the city assessors had not exceeded their duties in trying to pile on the taxes—but paid the money under protest. Now The Herald says: "While it is probable the company would have succeeded last year if its appeal against its assessment had been based on the same grounds it took this year, the city officials point out that as it escaped its proper share of assessment for many years, the corporation is justified in retaining all the taxes, which have been paid under protest." The advocacy of such a course is a yeary poor advertisement for Hamilton.

typhoid fever at that place in the last few menths, the hospitals, accommodating about 200 patients, being always full and about 200 patients, being always full and many sick persons having to remain in their cabins, Some scurvy cases are being received in the hospitals.

Scurvy in this section, as a rule, is not brought on by the salted food eaten. It appears to come from the system being run down by typhoid. Very few persons here escape that fever. Many a strong young man, who carried with him over the trail the very best canned vegetables, fresh meats, etc., has brought on scurvy simply from overwork and exposure.

in the Dawson section, as the country is all staked. The only question now is relocation.

A rush over the ice to the Stewart River district, some 75 miles from Dawson, is expected 8000.

Some good lands have been found on Thistic Creek, and other smaller creeks in that district. The owner of Discovery Chalm, on Thistic Creek, has refused \$75,000 for it. All of Thistic Creek, 35 miles in length, was staked in two weeks. The other creeks then came in for attention. In all new staking—that is, on territory not previously staked—every alternate block of 10 claims is held for the Crown, so that only 50 per cent. Is really open for staking by miners. That law went into effect last fall.

The prices o fprovisions in this section are heing advanced. The cost of living for a miner who has to buy his food supplies averages \$6 per day. There is no reason for the prices asked. There are more food supplies there than can possibly be used, and the supply companies are making in mense fortunes. If some firm would send in a few thousand tons of supplies, and be satisfied with 200 or 300 per cent. profit, it would prove a blessing to the thousands of miners there.

Uncess the cost of living becomes more reasonable, the poor man who owns a claim cannot afford to work it, unless it should prove to be very rich.

THE WYCLIFFE COLLEGE DEBATE

College was held last night. Principal G. R. Parkin, IL.D., C.M.G., presided and acted as referee on the debate. Previous to the debate a program was rendered.

The subject under debate was: "Resolved. That the present condition of the world's affairs warrants disarmament."

The affirmative was supported by Messrs. G. H. Wilson, third year arts, and H. L. Roy, B.A., and the negative by Messrs. R. A. Hiltz, B.A., and the negative by Messrs. The affirmative cited the Czar's rescript and the welcome accorded it by the other powers as an evidence that the nations had reached that point in moral and social advancement when they were ready to lay down their arms, except when it was not easily to preserve peace within the bounds of each kingdom. They further urged that the presence of armed men was likely to foster a warfike spirit and that the economic state of affairs demanded this step.

The negative, on the other hand, urged that the balance of power of the great into towards peace, that the present policies of the nations were too unsettled to warrant the step, and that the great strength of the various armies was the cause of the cossistion of wars during the past few years.

They also pointed out that even to preserve law and order within any country here must be more than moral force to back it up.

The debate was decided in favor of the negative.

Anderson Wood is Dead as the Re sult of His Own Joke. Middleboro, Ind., Jan. 26.—Anderson Wood, a prominent Republican politician, Wood, a prominent Republican politican, is dead at Knuckles, this county, the victim of a practical joke, perpetrated by himself. Monday night, while Albert Schumate was on his way home from a dance, Wood and three companions, who thought to scare Schumate, dragged him into the bushes and took his money. Schumate shot Wood and then escaped.

Hamilton Heraid: It is hardly fair of Mr. Ramsay to say that there seems to be a disposition on the part of Hamilton's civic authorities to drive the Canada Life out of the city. The Hamilton civic authorities do not desire to collect from the Canada Life one cent-more taxes than the city is legally entitled to collect. Hamilton's treatment of the Canada Life has been no harsher than Toronto's treatment of financial institutions that have their headquarters in Boronto. If fault is to be found, it is not with the civic authorities, but with the law. Fault With the Law.
