At the meeting of the Fire and Water Committee this week, E. S. Brennen's tender was found to be the lowest. At to-day's meeting, however, the committee reported that Mr. Brennen's sureties were not satisfactory, and recommended that the contracts be awarded Thomas Myles Sons & Rogers Coal Company. In the discussion that followed, some of the aldermen expressed the opinion that the Brennen sureties were as good as those furnished by the others.

Supported Brennen.

Ald Dunn expressed the committee's results of the police of "all there is and has been fluctuating between Buffalo and Toronto. The detectives have had a tip that a good thing is to be "pulled off."

A Cigarmaker Missing.

Ambrose Willis, cigarmaker, Ferguson-avenue, was reported to the police department this morning as missing. Mrs. Willis made the report, and she was in a state of mind bordering on hysteria when she did so. She said she had not seen or heard anything of her breadwinner since Tuesday, and she was sure he had gone away or met with foul play. She wanted the authorities to telegraph to the police of "all

furnished by the others.

Supported Brennen.

Ald. Dunn opposed the committee's recommendation. He said Mr. Brennen's tender was \$800 lower than the others. He was willing to deposit \$800 and put in \$1000 worth of coal. Ald. Dunn was of the opinion that coal dealers were trying to hold up the city, as they were offering to business men coal at lower rates than those quoted to the city. He moved that the contract be given to Mr. Brennen on the understanding that he deposit with the City Clerk a cheque for \$810 and deliver \$1000 worth of coal, not to be paid for until the close of the season. the City Clerk a cheque for \$810 and deliver \$1000 worth of coal, not to be paid to Hamilton Beach.

the foundation of it.

Drouet's first experiments in his method were made at Parls, at the Institute bearing his name (Institut Drouet), and the results that he obtained there were so remarkable that two establishments of the same kind have lately been founded, one at Brussels and the other at London. The curative power of the new treatment is really marvellous. With the exception of cases which, have been rendered completely incurable by previous surgical operations, it may be asserted that a radical cure is usually obtained, no matter what may be the nature or the duration of the affection which has caused the Deafness. Old people of 80 years have been completely cured, as well as patients who had been pronounced incurable by eminent aurists.
