

ROUTE OF CANADIAN NORTHERN RAILWAY'S NIAGARA - OTTAWA LINE THRU SCARBORO

Amended Plan Filed in Registry Office Places the Line From One to Two Miles North of the Route Originally Located—Joins Old Survey North of Pickering Village.

Revised plans of the Canadian Northern Railway thru the townships of York and Scarborough, which have been filed at the registry office, show a considerable deviation from the originally located route between the city and the western limit of Ontario County. The route chosen was surveyed in September of this year. It leaves the C. N. R. Sudbury line in the Don Valley, about a quarter of a mile north of the Don Mills road, where it crosses the valley and crossing the road follows the valley of Massey Creek thru the J. H. Taylor property, and then commences to set into the southern slope of the bluff, pressing further into the hill and gradually rising until Dentonia or Massey farm is reached, where it attains the summit of the hill. The line crosses the Dawes-road about half-way up the hill, between the pond and Midland-avenue, cutting into the hill about 30 feet on each side of the road, and about a quarter of a mile north of Danforth-avenue.

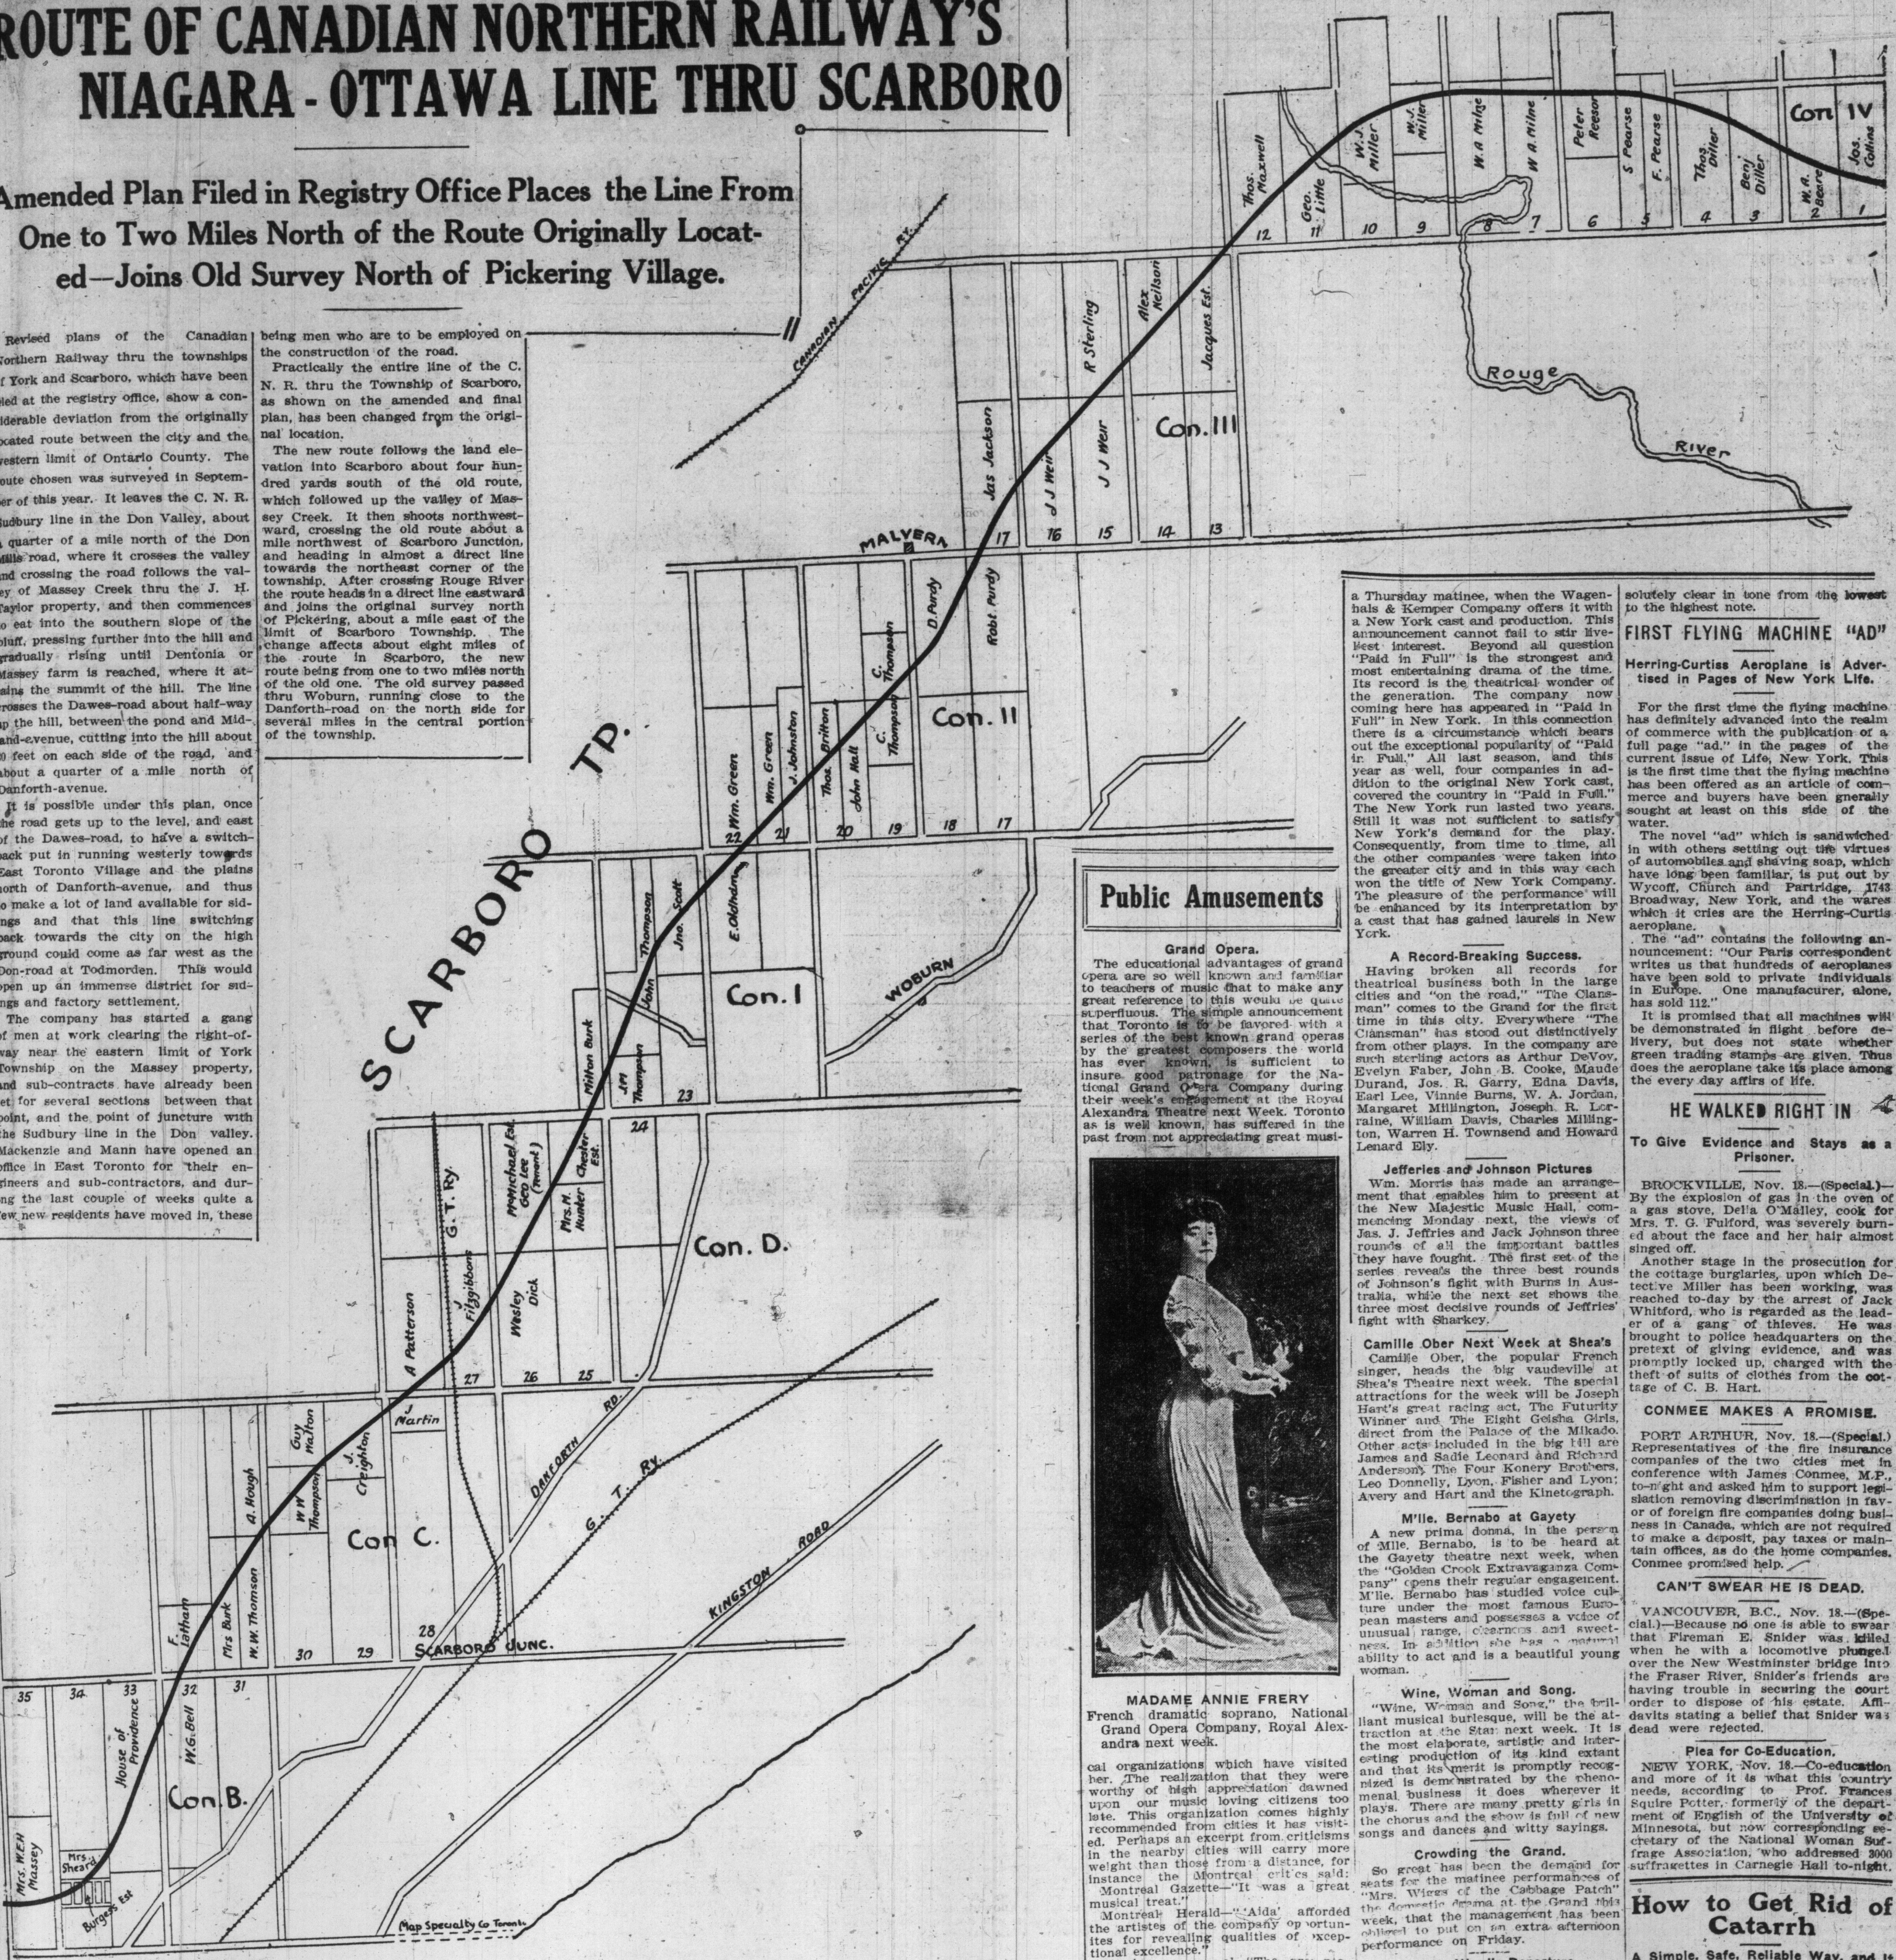

It is possible under this plan, once the road gets up to the level, and east of the Dawes-road, to have a switch-back put in running westerly towards East Toronto Village and the plains north of Danforth-avenue, and thus to make a lot of land available for sidings and factory settlement.

The company has started a gang of men at work clearing the right-of-way near the eastern limit of York Township on the Massey property, and sub-contractors have already been let for several sections between that point, and the point of juncture with the Sudbury line in the Don valley. Mackenzie and Mann have opened an office in East Toronto for their engineers and sub-contractors, and during the last couple of weeks quite a few new residents have moved in, these

being men who are to be employed on the construction of the road.

Practically the entire line of the C. N. R. thru the Township of Scarborough as shown on the amended and final plan, has been changed from the original location.

The new route follows the land elevation into Scarborough about four hundred yards south of the old route, which followed up the valley of Massey Creek. It then shoots northwestward, crossing the old route about a mile northwest of Scarborough Junction, and heading in almost a direct line towards the northeast corner of the township. After crossing Rouge River the route heads in a direct line eastward and joins the original survey north of Pickering, about a mile east of the limit of Scarborough Township. The change affects about eight miles of the route in Scarborough, the new route being from one to two miles north of the old one. The old survey passed thru Woburn, running close to the Danforth-road on the north side for several miles in the central portion of the township.

SLATE FOR EDUCATION BOARD

Crawford Street Ratepayers Endorse Three Candidates.

Trustee C. A. B. Brown, Jas. N. Todd and Blaney H. Scott were the nominees of the ratepayers' association of Crawford-street school for election to the board of education at a meeting held Wednesday night.

The following questions were put to the meeting by Chairman W. J. King who presided: "Are you in favor of granting superannuation to retiring teachers?" "Are you in favor of returning to the ward system in election of trustees?" "Are you in favor of selling public school property by public auction or by private sale?"

Trustee Brown, who was asked to give his views on the questions, defended the superannuation scheme and showed that the idea of the education board was to assist those teachers, who had worked a lifetime at their profession for inadequate salaries. He explained that the ratepayers were not out of pocket by the superannuation

scheme, for teachers taken on in the places of those retiring were put on a minimum salary basis.

Regarding the sale of property he said that the city would be out of pocket if they sold by public auction. The above questions were then put in the form of resolutions, and the meeting placed itself on record as being opposed to the present system adopted by the school board regarding superannuation, the consensus of opinion being that the teachers should follow the precedent of the police and firemen by creating their own fund. They favored the ward system of electing the trustees, and the sale of school property by tender.

Addresses were also delivered by Controller Geary, Ald. R. H. Graham, J. N. Todd and Blaney Scott.

Cal organizations which have visited her. The realization that they were worthy of high appreciation dawned late. This organization comes highly recommended from cities it has visited. Perhaps an excerpt from criticisms in the nearby cities will carry more weight than those from a distant, for instance, the Montreal critic said: "Montreal Herald—'Aida' afforded the artists of the company opportunities for revealing qualities of exceptional excellence."

The great contralto from the Netherlands, Miss Tilly Koenen, who comes to Massey Hall on Friday evening of next week, is creating everywhere in America much the same marked impression as that made by Dr. Hans Wallner last season. Her contralto is considered unique because it is absolutely clear in tone from the lowest to the highest note.

Public Amusements. Grand Opera. The educational advantages of grand opera are so well known and familiar to teachers of music that to make any great reference to this would be quite superfluous. The simple announcement that Toronto is to be favored with a series of the best known grand operas by the greatest composers the world has ever known, is sufficient to insure grand patronage for the National Grand Opera Company during their week's engagement at the Royal Alexandra Theatre next week. Toronto as is well known, has suffered in the past from not appreciating great music.

So great has been the demand for seats for the matinee performance of "Mrs. Wines of the Cabbage Patch," "The Domestic Drama" at the Grand this week, that the management has been obliged to put on an extra afternoon performance on Friday.

Fannie Ward's Debuture

Owing to the fact that Miss Fannie Ward is booked to give the opening performance of "Van Alton's Wife" at the Illinois theatre in Chicago, on Sunday evening, it has been found necessary to close the Toronto engagement with the matinee on Saturday in order to give time for the transportation of the company to the new place. The Princess theatre therefore will be dark on Saturday night.
