PREFACE.

THE Manager of Might's Directory Co. having had occasion to visit several of the principal towns in the Eastern Townships, in the Province of Quebec, in the Month of June last, was agreeably surprised to find a better country and more flourishing towns than he had anticipated. On observing that there had not been a Directory of that section issued for nearly four years, and the firm having a few trained men that it would be difficult to keep employed, without having a little more than our regular work on hand, we decided to issue a Directory of that beautiful section of the country, which contains twelve counties and to which we have added a few of the cities and towns outside, and a list of our business patrons in the City of Montreal.

Directory Publishing being our business exclusively, and having a trained staff, although we know there will be errors, yet we trust, on the whole, the work will be found ahead of any previous issue. The Counties are arranged alphabetically, and the townships in each County in alphabetical order. Following, in the same order, will be found the Villages, Towns and Cities, to which is added, alphabetically arranged, a complete Classified Business Directory. You will notice we give the number of Lot and Concession, as well as Post Office address, and whether owner or tenant.
