MAKING CARVELL THE ISSUE

"Beat Carvell's men," is the slogan the Standard gives to the government party in Carleton county. That is to say, Mr. B. Frank Smith should not be elected on his merits; but "Carvell's men" must be defeated. The opposition candidates have not yet been nominated, but whoever they are the Standard describes them as "Carvell's men" and calls for their defeat on that ground alone.

A government which had faith in itself and nothing to be ashamed of in its record would not make an appeal of this sort. It would present its record and its policy and stand or fall by these class. But the present government wants to get away from a discussion of the reports of its own royal commissions and of the grave charges which it refused to investigate, and so it seeks to make a personal fight against Mr. Carvell the feature of its campaign.

The people of Carleton county are not likely to be caught with this guile. They will have before them on the one side Mr. B. Frank Smith and his colleague, who will represent a discredited government, and on the other two men who will represent a popular demand for reform in the public affairs of this province. It should not be at all difficult for them to make a choice.

"As one reviews the long list of found-ationless stories that have disturbed the Dominion ever since the war began and taken and wonders what has come over the country in the long list of thing in endless repetition. The pitty is that may decent men are misled and taken may decent men are misled and take

for them to make a choice.

### PUNISH THE BRIBERS

The opposition in Carleton county has challenged the government party to carry on the election without the use of money or liquor or undue influence of any sort, leaving it to the people to hear both sides and judge between them. The Standard, apparently replying for its friends, says:

"Despite the blatant and empty challenges of the opposition organizer the government workers will probably be called upon to fight all sorts of dirty canvasses and nefarious processes."

This is not the spirit in which a government confident in the righteousness the canada's militia affairs, especially in the transportation of troops. Big camps almoney spent would be better employed in improving the existing camps in the military divisions of Canada. In the interest of recruiting, the civilian population should have an opportunity of seeing the troop train in and out, and the relations of the soldiers should be properly looked after in this connection. This is not the spirit in which a government confident in the righteousness of its cause would discuss a proposal to cut out bribery and undue influence. The government party should cordially welcome the proposition made, and its executive promptly agree to the appointment of a joint committee of the leading men on both sides to see to it that the agreement was carried out. If that is not done it will not be the fault of the opposition, and the people will know where to place the responsibility. In any case, however, the opposition stands pledged to conduct a clean campaign on its own account, and that stands pledged to conduct a clean campaign on its own account, and that pledge will be redeemed. It would be infinitely better to be defeated than to win by unlawful and unworthy means. Any man of any party found guilty of improper methods of securing votes should be punished to the full extent of the law. In no other way, can such practice. should be punished to the full extent of the law. In no other way can such practices be prevented, because in the past there has been such leniency as to be get contempt for the law and those who should enforce its provisions.

### THE FARMERS' MEETING.

The great meetin of farmers and their wives at the Experimental Farm inquiry by the Federal authorities under their wives at the Experimental Farm near Fredericton this week should be made, as has been suggested, an annual event, and if the Farmers' and Dairymen's Association can secure the additional thousand members which the president fixes as the goal to be aimed at, the farming industry will be much the gainer thereby. ### Asbestos Sad Irons!

A Hot Iron

A Cool Handle Cool Ironing

Chief among the exclusive features of the Asbestos Sad Iron is the fact that the handle is always cold. This is due to the Asbestos lined hood, which you clap over the heated base, thus preventing the radiating of heat to your hand. The only escape for the heat is where it is needed—the ironing surface.
