

SPORT NEWS GLEANED FROM WORLD'S CENTRES

U. S. TO GO IN FOR FULL PROGRAMME

Changes Viewpoint on the Olympic Games—Outlook for 1924.

Europe should see the full strength of the United States in all fields of sport in the 1924 Olympic Games at Paris, says the New York Times. This speaks well, for it proves that the United States is not above changing its own viewpoint. Time was when America was inclined to view the Olympic Games as purely track and field tests, in which this country has ruled supreme in all the modern Olympics, and did not give attention to the other sports on the Olympic programme, with the possible exception of swimming and a few others.

Some of the other nations, however, have maintained that the Olympic Games should be a world congress of sport in which the nations should meet in sporting events more or less common to all—an opinion shared generally by Europeans. In the Olympic Games of 1908 at London, England even went so far as to announce that all sports would count in the point score, listing track and field as merely one event. The United States refused to accept this, holding to the view that track and field alone constitute Olympic honors, with the result that two sets of scores were kept.

The year 1924, however, should find the United States accepting the Olympics in their broadest sense. At the enthusiastic meeting of the Executive Committee of the American Olympic Committee held last week at the Hotel Astor, probably the most important fact brought out was that America will have practically a 100 per cent. representation on the Olympic programme. Every sport, beginning with the hockey and ice skating events in January and running right through the list of rugby, soccer, polo, trap shooting, fencing, wrestling, rowing, gymnastics, weight lifting, equestrian sports, cycling and yachting will find the American colors entered.

Track and field, of course, again will be regarded as the major event on the long programme and draw the greatest interest. But America's participation in all the remainder of the programme will do much toward making the games of 1924 the greatest in point of all-around international competition.

since the first Olympic revival at Athens in 1896. In some of the sports listed we may not be successful. America, always supreme in track and field, should again carry off the honors here. But the chief consideration is that this country intends to put the entire world on its mettle in every field of sport that is common to all, and France, anxious to make the games next year a big success, could desire for no better co-operation from America.

If the aims of the American Olympic Committee are to succeed, adequate financing must be done. It will take a considerable sum for America to send its army of competitors abroad next year. Colonel Robert M. Thompson, Chairman of the American Olympic Committee, has estimated that it will cost \$800,000. That may not be an enormous amount when one thinks of the gate receipts of a world's championship boxing contest, but it is large enough when it must be raised chiefly by subscription. The fact, however, that the American Olympic Committee has planned to launch so great an offensive in the world of sport next year should inspire the public and the matter of funds should not offer an obstacle.

FIGHT FILM PICTURE LAW TO BE TESTED

New York, Oct. 31.—A showing of Dempsey-Firpo fight pictures in the Strand Theatre, Hoboken, on Saturday night, resulted in the arrest and release on \$1,000 bail of Richard H. Schwartz, part owner of the Columbia Amusement Park in North Bergen. The films were shown before an audience consisting of two theatre employees, Captain Dennis Sullivan, a federal agent and Mr. Schwartz. When the last reel was run the agent arrested Mr. Schwartz.

The showing was made to test the legality of exhibiting the films across the State line. Arthur M. Agnew, counsel for Mr. Schwartz, contends that as the films were developed and assembled in New Jersey they do not come within the meaning of the Interstate Commerce Act.

United States Commissioner Edward R. Stanton held Mr. Schwartz on the ground that the showing violated the Interstate Commerce Act.

Arm Broken, Player Kicks Winning Goal

Dun of Marquette, Injured in First Period, Beats Boston College.

Boston, Oct. 31.—"Red" Dun, captain and quarterback of the Marquette University football team, had his arm broken in the first period of Saturday's game with Boston College, played the game through, and was responsible for the winning point when he kicked the goal after Lechtfruss' touchdown in the final period. Each team had made a touchdown and Marquette won by the margin of that goal, 7 to 6. Marquette held Boston College on the defensive three-quarters of the game. Darling crossed the Marquette line in the third period from the 8-yard line. Dunbar failed to kick the goal. Marquette scored when Kennedy recovered a fumble on the home team's 50-yard line, pushing Lechtfruss over the second scrimmage.

CHANCE IS "TICKLED" TO DEATH TO MANAGE CHICAGO WHITE SOX

Los Angeles, Oct. 31.—Frank Chance has confirmed rumors from Chicago that he had closed a deal by transcontinental telephone last night to manage the Chicago White Sox next season. Chance added that he was "tickled to death" to return to Chicago. "It's just like going home," he said. He will leave for the East in a few days to look into a "few deals" which he has in mind to put the Sox up in the front row next year. Chance declared that he would not stand in the way of any opportunity that Eddie Collins might have to become a manager, providing a good man could be obtained to succeed him.
