I think I went up after Mrs. Sheehan left to see if there was anything the matter with Mrs. Whiteside. It was after I got home, a little late."

Mrs. A. Osmon.

Mrs. A. Die Osmon, wife of Constable Charles Osmon, called, said she was usually at her home in the day time, though she might go out at night. Her eldest child was a girl of 18, the youngest 19 months. She said she was not in the habit of visiting Mrs. Whiteside, though the latter came down to her place. The last time was the day the men were fixing the water on the road, some two or three or four weeks before the cold snap. She remembered that it was a couple of weeks before she had seen the child at the Whiteside home, which was the 9th. But the date could easily be found by consulting the waterworks records.

On Dec. 10, Mrs. Osmon said, she saw Mrs. Whiteside feeding the dogs at noon. That was the last time she had seen her alive. She did not see Gorman take her the dog on the 12th, she said.

Roy, aged 11, and Beatrice, aged 10, had been going up to the house day after day but could not get in. It was before school closed. Mrs. Osmon could not say how often they tried, every day or every other day, but that it was mostly coming from school.

Mrs. Whiteside had told the children at one time that she would do her own errands in future, and she had had several fallings out with them at different times. However, she knew the children had got their share of the apples out of the barrel Mrs. Whiteside had bought for them.

Mrs. Osmon said she had steadied the platform for her husband to look into the window when he had inspected the Whiteside home. On one occasion their daughter had been with them, on another the son.
