MUTUAL AGREEMENT ON LABOR PROBLEM

Canada and United States Will Co-operate in Effective Distribution

Washington, Feb. 12.—Complete co-operation between the United States and Canada in the effective distribution of labor for war purposes was inaugurated today. The department of labor announced that, by mutual agreement Canada will not import labor from this country without the consent of the United States, and American employers will not import Canadian labor without the consent of Canada.

Co-ordination of efforts of the two governments to solve particularly the farm labor problem is expected to meet the insistent demands of England, Italy and France for more wheat and other foodstuffs. Agreement between the two governments was reached at a conference between W. W. Cory, deputy minister of interior of Canada, and Anthony Cam-neth, commissioner-general of immigration of the United States, held at the department of labor here recently.

The administration of the co-operative movement between Canada and the United States has been placed in the hands of the standing committee of conference on labor matters of the two governments, and the committee has been enlarged by the appointment of John B. Denmore, director of the United States employment service of the department of labor, and Senator G. D. Robertson of Canada.

Canada's labor requirements will be reported to the United States employment service, which through its various offices will fill the demands across the border with any surplus of unemployed that may be available here at the time. It was made clear that the agreement was reciprocal and that any surplus labor in Canada would be available for

the United States farmers. The same arrangement was in effect last year, when this country furnished harvesters for the wheat fields of Alberta and Saskatchewan, while eastern Canada sent men to dig Maine potatoes and loggers to cut timbers for American ships.

Differences in time of harvesting are expected to permit the use of the same laborers in both countries without handicaps to either. In previous seasons, harvest crews which began work early in the summer, with the ripening of grain in Oklahoma, continued their way north as the season progressed and finally completed their work late in autumn in Canada.

Plans for mobilizing agricultural workers for American farms is proceeding under the direction of a special section of the employment service, which has every expectation that men will be available to help this spring in putting in the seed which will contribute to the Allies' victories over Germany. All American demands will be filled before any workers are permitted to go into Canada.

BIG PLANS FOR FLAX

Belfast, Ireland, Feb. 12.—The British government soon will launch a £10,000,000 scheme for increasing the cultivation of flax in Ireland, owing to the importance of flax for the manufacture of airplane wings. Estimates by experts show that the quantity of flax usually grown in Ireland would not be sufficient in the coming year for this and other demands. Farmers who own land suitable for the purpose will be offered subsidies, and the government probably will secure in ad-

dition large areas of land in the midlands and south of Ireland. There is likely to be a scarcity of seed, and experiments are to be made with the use of Canadian seed.

PACIFISTS CLASSIFIED

London, Feb. 12.—Speaking on Germany's war aims and dangers of a premature peace, Lord Denning described the people who are out for peace at any price and certain others as in class "Z," separating them as follows:

The Z 1's are those who are ignorant of the situation and do not know what they are talking about.
The Z 2's are utter rotters, men who want the war to end because they cannot get margarine or because their beer is thin.
The Z 3's are the enemy agents in the pay of Germany, trying to lower the morale of the soldiers and the people.

HOW TO GET RELIEF FROM CATARRH

If you have catarrh, catarrhal deafness, or head noises go to your druggist and get 1 oz. of Parmit (double strength), take this home add to it hot water and just a little sugar as directed in each package. Take 1 tablespoonful 4 times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to make, tastes pleasant and costs little. Every one who has catarrh should give this treatment a trial. You will probably find it is just what you need.
