DYKEMAN'S An Extraordinary Sale of Silk Velvets

We have five hundred yards of **LISTER'S SILK VELVET**, worth one dollar a yard, which we are going to place on sale at **59 CENTS A YARD**. They are a lot that we bought from a concern who was going out of business and are the actual one dollar quality. You save forty-one cents a yard on every yard that you buy. It is the usual width of silk velvet.

The colors are navy blue, brown, myrtle, moss, cardinal, garnet, purple, pink and black.

BELIEVE ST. JOHN MAN IS VICTIM OF FOUL PLAY

Body of Joseph Phelps Found in Androscoggin River and Relatives Say He Was Murdered By Gang

(Special to Times) as the authorities can learn, was never again seen alive. Both Mrs. Phelps and David Williams, his employer, believe his death was not due to accident or to natural causes, but that he was attacked and robbed by some gang of the lower part of this city and his body thrown into the river. Phelps was born in St. John, N. B. Besides his wife eight children survive.

THE TRANSCONTINENTAL

Engineer Foss Officially Notified of Train Service To Begin Nov. 20—A Great Railroad

C. O. Foss, engineer in charge of the New Brunswick division of the National Transcontinental Railway, was officially notified today that trains will be operated over the New Brunswick division from Moncton to Edmundston, beginning November 20, and running three times a week, giving accommodation for both passengers and freight. The new railway is now in first-class condition all the way through to Edmundston, and the proposed operation will greatly facilitate the conveyance of freight into and out from the lumbering territory. The operation of the road will be carried out under the direction of the National Transcontinental Commission. In point of construction the new line is without an equal in the country. It opens up a great tract of country hitherto without transportation facilities. When the people of this province have travelled over the Transcontinental they will see that those who built it did their work exceedingly well.

PROMISE OF GREATER COAL DEVELOPMENT IN QUEENS COUNTY

New Equipment For Working the Mines—Fifty New Steel Coal Cars

The rapid progress of the coal industry in Queens county is becoming one of the prominent features of the development of the province. Not so many years ago the suggestion that the coal deposits in this section were of much value was hardly taken seriously, although mining on a small scale had been carried on for years. Today, with the recognition of the value of the coal by scientific experts and the practical endorsement of the coal by railways and other large consumers, the coal industry has assumed a prominent place, although its exploitation is still in its infancy. Excellent progress is being made, however, and it is estimated that the work being done this year is developing the fields and equipping the mines will cost at least \$2,000,000.

The Rothwell Coal Company is adding materially to its equipment this year. The company already has one shaft equipped in modern manner with steam hoisting and operating gear, steel rails and steel cars in the mine. A new shaft has been opened this year and is being equipped in the same up-to-date style. When this is ready for complete operation, which will be by the middle of the winter, the company will be able to turn out 2,000 tons of coal a month. Owing to the pressure of orders, it is probable the opening of another shaft will be commenced in the spring. A new coal warehouse and cottages for the miners have also been erected by the company this year.

The Rothwell Company is now experimenting with a style of drill which is new to this province, and if it proves as successful as expected both shafts will be equipped with these drills and a compressed air system installed to operate them. The great amount of development work being carried on by the company, headed by Sir Thomas Tate, in connection with their new railway from Moncton to Edmundston, which will enable them to ship the coal direct over the C. P. R. line, has already been described in these columns. The latest addition to their equipment is fifty steel coal cars, which were brought out by the steamer Algonia on her last trip. Other developments of a most important nature are promised for the Queens county district, an announcement regarding which may be expected at an early date.

LOCAL NEWS

FOOT INJURED. While at work in the I. C. R. yard this morning Norman Downey was painfully injured by a heavy piece of rail dropping upon one of his feet. Dr. James Christie attended him, and later Mr. Downey was taken to his home in Stanley street.

SMOKER TONIGHT. In their rooms in Union street this evening the members of the Irish Literary and Benevolent Society will conduct what promises to be a very pleasant smoking concert. Invitations have been extended to the presidents and officers of the other Catholic societies and it is expected that the affair will be well attended. The committee in charge has arranged an enjoyable programme.

LOST A TRIP. The steamer Champlain resumed her usual run this morning, after missing a trip yesterday due to an accident to her propeller. This piece of her apparatus worked loose at Glenwood on Saturday and instead of staying up river she returned on Saturday night going through the Hilgard's blocks for repairs. Before getting into the blocks she was struck by the boom of a schooner and her railing damaged.

DELEGATES HOME. Local delegates to the annual meeting of the Canadian Baptist Foreign Mission Board in Toronto last week have returned home. Rev. Dr. W. E. McIntyre and Rev. Dr. D. Hutchinson came home this morning while Rev. F. S. Porter, Rev. M. F. McInnes, and W. Spurgeon and Frederickson returned earlier in the week. Mrs. Hutchinson will return tomorrow. The representatives from here say that the convention was a distinct success, was well attended and that many matters of interest and importance in mission circles were dealt with. Mr. Spurgeon and Doctor Hutchinson were appointed on the executive, the former being made first vice-president for this province.

ST. JOHN GIVES YOUNG SOCIETY FAVORITE TO THE FAR WEST CITY

Miss Edith D. Fairweather Bride of J. S. H. Wurtel; Will Live in Vancouver

A wedding of much interest in St. John society circles was celebrated in Trinity Church this afternoon at four o'clock, when Miss Edith Douglas Fairweather, daughter of Mr. and Mrs. E. H. Fairweather of Sewell street, became the bride of J. S. Hunter Wurtel, an electrical engineer of Vancouver, B. C. The ceremony was performed by Rev. R. A. Armstrong, rector of Trinity, assisted by Rev. Louis C. Wurtel of Montreal. The bride was handsomely gowned in a white satin costume trimmed with diamonds and wore a bridal veil and a Juliette cap. She carried a white prayer book. The bride was given away by her father, and was attended by Miss Emily Teed, as bridesmaid. The groom was gowned in a yellow satin tuxedo with Limerick lace with a white hat trimmed with white ostrich plumes. Little Miss Daphne Fairweather carried a basket of flowers, and was followed by her brother, Dean A. H. Wurtel, of Rochester, N. J. The ushers were William Church and Dr. J. Fairweather.

Mrs. E. H. Fairweather, mother of the bride, wore black marquisette over silk, with a purple hat. Mrs. Wurtel, mother of the groom, was gowned in dark blue silk trimmed with Limerick lace, with hat to match.

J. S. Ford, the church organist, presided at the organ and played several selections, and Miss Louise Knight sang "O Perfect Love." The church was handsomely decorated with rowan berries, cedars and ferns.

After the wedding the relatives and immediate friends of both the bride and groom drove to the home of the bride's parents in Sewell street, where a wedding repast was partaken of. The house was nicely decorated with plants and flowers. Mr. and Mrs. Wurtel will leave on the Montreal express for their new home in Vancouver, but will visit all the large cities en route. The bride's going away dress is a brown tailor made broad-cloth suit with brown velvet hat trimmed with brown ostrich plumes.

The groom's present to the bride was a handsome necklace of sapphires and pearls, to the bridesmaid a gold bracelet, to the flower girl a watch bracelet and to the ushers gold stick pins. Among the out-of-town guests present at the wedding was Mrs. Arthur Moore of St. John's, Quebec, a sister of the groom. The bride is very popular in society circles in St. John, and received many handsome presents from her friends here and elsewhere. The best wishes of a host of friends in St. John will go with her to her new home in Vancouver.

BOY HIT BY AUTO

Delivery Truck of W. H. Thorne & Co. Strikes Ten Year Old Shannon Lad

The timely action of the chauffeur of the heavy delivery truck owned by W. H. Thorne & Co., saved a ten year old boy named Shannon from serious injury this morning in Market Square. The boy was struck by the car and thrown to the ground. He had been standing in the street car track as the car was coming down Dock street towards the square, and when the driver, George Gloritt, sounded the auto horn as a signal of warning the boy started to get out of the way. Apparently he became confused for, instead of running from the danger he ran towards it, making for the sidewalk. The driver of the car did not see the boy so close until it was too late. He applied the brakes and managed to slow the motor truck practically to a stop but could not avoid striking the little fellow and knocking him down.

Young Shannon was not badly hurt, but received a painful cut upon one ear, and was shaken up severely. He was taken to the office of Doctor Christie in Germain street and his injuries dressed, and was later taken to his home in Portland street.

WILL GIVE SUPPER. A meeting of the Ladies' Auxiliary of the Seaman's Institute was held yesterday afternoon and arrangements were made for holding a supper and concert for the sailors of the first winterport steamer to arrive. This will be one of the Empire boats, due about the 22nd.

Men of St. John Who Are About to Breast the Winter Will Want Good Clothing For it

In our men's clothing department you will find right now the right clothing for this winter. So sure are we of the satisfaction it will give that we say to the man who buys a suit or an overcoat: "This must be satisfactory to you, or we shall expect it back."

We can say this of every suit and overcoat in our new winter stock, and be confident to the last notch that there will be satisfaction.

For the new winter overcoats are very fine—and different from any other stock.

No old garments among them, and the tailoring so good, you can be sure that the collar and lapels and the whole "set" of the coat will stay exactly as it is when we try it on.

And yet, we sell these clothes at less than you'll pay for others that are inferior in every way! This is because, as manufacturers, selling to you direct we save you the middle-man's profit, which all others must pay, and, therefore, must get it back from you.

MEN'S SUITS, \$8.00 to \$30.00
MEN'S OVERCOATS, 6.50 to 40.00
