If You Are Suffering the Tortures of Indigestion and Have to Wait Until Someone Runs to the Drug Store for a Box of Stuart's Dyspepsia Tablets

Free Trial Package
The instant relief afforded poor overburdened stomachs by the use of a Stuart's Dyspepsia Tablet should be a reason for constantly keeping a box on hand—at home and at the office as well.The Stomach Welcomes Quick Relief
A Stuart's Tablet not only aids digestion but it actually does the digesting for you. In other words it furnishes exactly the same elements for the digestion of food as the natural juices of the stomach. The stomach, therefore, is not called upon to do any of the work, except to churn the juices furnished by the tablet and then push the digested food along the digestive system where it will be still further digested and the strength taken up by the blood to be carried to the muscles and nerves of the body.

So, taking a Stuart's Dyspepsia tablet after a meal you give the stomach the rest it needs in which to mend itself and grow well again. And you absolutely prevent the scouring of any food, the formation of any poisonous acids, belching, foul breath or constipation.

Stuart's Dyspepsia Tablets have done more for humanity and have caused more rejoicing than any other one remedy that can be named.
Every drugstore everywhere sells and personally recommends Stuart's Dyspepsia Tablets. The price is 50 cents per box. If you first wish to try them a sample package will be sent you free if you write to F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

777 Cures Right Off.

Say good-bye to your corns very first time you use TZ. You will never know you have a corn, bunion or callous, or sweaty, tired, swollen, aching feet any more. It's Just Wonderful the way the pain vanishes. Rub the corn-killer with your finger if you wish—no more pain after TZ than if there had never been a bluish on your feet. Doesn't that sound good to you? Doesn't it? Then read this:

"The corns on either of my toes were as large as the tablets you make to cure them. Today there is no sign of a corn on either foot and no soreness. It's an up-to-date Godsend—Sam. A. Hoover, Progress, N. C."

Just use TZ. It's not like anything else for the purpose you ever heard of. It's the only foot remedy ever made which acts on the principle of drawing out all the poisonous exudations which cause sore feet. Powders and other remedies plug up the pores. TZ cleans them out and keeps them clean. It works right off. You will feel better the first time you use it. Use it a week and you can forget you ever had sore feet. There is nothing on earth that can compare with TZ. It is made only by Walter Lather Dodge & Co., Windsor, Ont., and is for sale at all druggists, 25c per box.

MRS. ANDREW JACK
SERIOUSLY HURT IN
RUNAWAY ACCIDENT

Mrs. Andrew Jack received serious injuries last evening when she was run over by a runaway horse at the corner of Mill and Pond streets. The horse, which was attached to Dr. J. V. Anglin's carriage, driven by his coachman, took fright at the foot of Garden street and bolted along Pond street. Mrs. Jack was crossing the street with her daughter, and in the warning cry was not able to get out of the way. After knocking her down the horse collided with a street car and was knocked over. The driver, Mrs. Anglin and two other ladies, who were in the carriage escaped without injury, although one of them was thrown from the carriage. Mrs. Jack was carried into the office of the Grand Union Hotel by Policemen McNamee and Doctor Broderick was summoned. First aid methods were meanwhile applied by H. E. West of England, who was in the hotel, and on the arrival of the doctor, Mrs. Jack was taken to the hospital by Doctors Murray, MacLaren and T. D. Walker. An examination showed that she had sustained a broken collar bone, and other injuries around the chest and head. The distressing occurrence has caused deep regret throughout the city.

"WHAT THEY THINK"

The Edmonton Portland Cement Company, Limited

WHAT THEY THINK—Opinions of Prominent Citizens of Edmonton concerning Edmonton Portland Cement Company, Limited.

HIS HONOR G. H. V. BULYEA, Lieutenant-Governor of the Province of Alberta. Edmonton, Alta., Sept. 30, 1911. Allan Haynes, Ltd., Edmonton, Alta., Gentlemen:

You ask me to express my opinion on the shares of the Edmonton Portland Cement Company, as an investment, and in reply would say that I have taken the trouble to make a very close, personal inspection of the property and have verified the claims of the original locators of the marl beds both as to the extent of the deposits and the quality of the marl and the adjacent clay, and have satisfied myself that in both respects their claims are within the limits. The scientific tests show that a first-class cement can be made from the ingredients available.

As the West is in the initial stage of its development, there is an unlimited market for cement within a radius of 500 miles on the East and as the C. P. and C. N. R. both run through the property on which the plant is to be located, the company will have unrivalled facilities to lay down its finished product at every station on the line of the Grand Trunk Pacific to Prince Rupert and on the C. N. R. to Vancouver. The only other question that is essential is proper management and the fact that some of the shrewdest business men of Edmonton have agreed to set as directors, and have largely interested themselves in the enterprise, should assure intending investors on that point. If I had more money to invest I would take a larger holding of the stock myself. remain, Yours faithfully, GEO. H. V. BULYEA.

T. H. WHITEHEAD, M. D., Medical Health Officer of Edmonton, Edmonton, Alta., Sept. 1st, 1911. Messrs. Allan Haynes, Ltd., 401 Moser-Ryder Block, Edmonton.

Dear Sirs: With regard to the Edmonton Portland Cement Company, Limited, I take pleasure in stating that with the large amount of raw material, undoubtedly of excellent quality, available on the Company's property, which is situated so advantageously as regards railway facilities, the manufacture of cement by this company should pay large dividends to the shareholders.

Yours Truly, T. H. WHITEHEAD.

The foregoing letters need only serve to illustrate the opinion of the men of Edmonton concerning the Edmonton Portland Cement Company, Limited. There is but one opinion in Edmonton concerning this great enterprise, and that is that every fact of it is a guarantee of the success of the undertaking. Every business man in Edmonton knows:

1. That the Edmonton Portland Cement Company owns the very best materials sufficient for the manufacture of 12,000,000 barrels of Portland Cement.
2. That the great plant is being built by the most capable men that can be found in the United States or Canada, and that the Company has been organized according to soundest business principles and in a way to absolutely insure the success of the enterprise.
3. That the market price of Portland Cement in the Edmonton district is \$3.45 today, and that on the basis of a price of

BOARD OF DIRECTORS: Lieutenant-Governor G. H. V. Bulyea, Chairman. W. S. Heffernan, Broker. J. H. Gariepy, Capitalist. W. H. Clark, Manufacturer. S. Larue, Capitalist. M. McCauley, Warden.

MATTHEW MCCAULEY, Warden, Alberta Penitentiary, Edmonton, Alta., Aug. 31st, 1911. Allan Haynes, Limited.

Dear Sirs: I have much pleasure in answering your letter asking my reason for investing \$15,000 in the Edmonton Portland Cement Company.

From a personal inspection of the property, I found a practically unlimited supply of both. I had samples of the same tested and found the resulting cement excellent, with the great coal fields at hand and two main line railways running through the property, together with the increasing demand for cement through all the West. I have every confidence in the great success of the company, and have no hesitation in recommending it to investors. I remain, Yours Truly, M. MCCAULEY.

A. C. FRASER, Manager, Merchants Bank, Edmonton, Alta., Aug. 30th, 1911. Allan Haynes, Ltd., Edmonton, Alta., Dear Sirs:

With reference to your inquiry as to my opinion of the value of the Edmonton Portland Cement Company stock, which you are offering for sale, I think the best evidence of my good opinion of the project is the fact that I have purchased some of the stock expecting to get a reasonable return on my money. My observations and information led me to think that a very thorough examination has been made of the property and that it has great possibilities. The market in the West for the product is splendid at the moment, and is growing. Yours Truly, A. C. FRASER.

\$3.05 per barrel, the Edmonton Portland Cement Company will be able to manufacture Cement at a profit of \$2.00 per barrel, or \$600,000 on the year's output. This is why the business men of Edmonton have purchased and paid for shares to the amount of more than \$400,000.

This is what Edmonton Shares means to the man of small capital:

An investment of \$1100 will purchase 10 shares. As soon as the plant is in operation these shares will pay a dividend of AT LEAST 25 per cent on the year's output. The shares will be worth within the year at least \$1,500.

These shares are now offered at \$110. In a very few days the price will be advanced to \$120. The subscriber may pay the amount of his subscription to any branch of any chartered bank in Canada, or the subscriber may remit the amount of his subscription to

BRAY HEAD THE LAST
OF SEASON IN MONTREAL

The "Bray Head," the last boat to reach Montreal this season, arrived in the harbor yesterday morning. The vessel bore many evidences of the awful hurricane through which it had passed. From waterline to the top of its funnel iron rust and salt stains covered everything. When the ship reached the river it was greeted with ice and a heavy rain, cutting it away with axes. The decks were flooded by the big seas that swept her from stem to stern. The coverings were torn away from the lifeboats and everything was not securely fastened, carried away. One sailor will remember the voyage for the rest of his days. He attempted to cross the deck with a wheelbarrow, but was hurled him against a ladder. He was badly cut but not dangerously injured.

Bart M. Duffy, former amateur skating champion here, accompanied by his wife, arrived in the city yesterday from New York.

The Bachelor Masons of Campbellton last evening held the first ball which has been conducted since the fire and they entertained 300 guests in their new \$10,000 hall.

Until a friend advised me to try Doan's Kidney Pills. I did so, and to-day I don't know what it is, but my back is all gone. I can recommend them to any person suffering with lame back and that terrible tired feeling."
