PRESBYTERIAN

MAJORITY FOR CHURCH UNION

General Assembly Receives Report from 70 Presbyteries -More Young Men Needed for Ministry-Many Vacant

Ottawa, June 8 .- Several important matrs were broached at the second sederun of the Presbyterian General Assembly today. These included a resolution by Principal Forrest of Halifax approving of the treaty of arbitration proposed between the

treaty of arbitration proposed between the United States and Great Britain.

Church union also came up on the report from the seventy Presbyteries, which showed a total vote of 793 members of Presbytery for and 476 against the church union proposed with the Methodist and Congregationalists.

The clerk reported that sixty-seven out of seventy Presbyteries had sent in answers to the remit on church union. Of these forty-nine were for approval on the basis suggested, twelve disapproved, two a tie vote and four approved of the principle but qualified their report as to the basis.

In future the traveling expenses of the commissioners to general assembly will be provided for. The question was remitted to Presbyteries by the last assembly and returns show a large majority in favor of

it.

There was some discussion over minister evangelists being on the roll of Presbytery. The assembly decided that to be on the roll of Presbytery a minister evangelist must have a two-year appointment. A resolution from the Saskatchewan synod that it be on the roll for one year appointments was voted down by the assembly. Rev. Dr. Somerville in his report on statistics emphasized the importance of correct returns and the following recommendations were made:

rect returns and the following recommendations were made:

(1) That Presbyteries be enjoined to give special attention to securing complete and accurate returns from every congregation and mission station.

(2) That the committee on statistics of each Presbytery be composed of the clerk, the conveners of augmentation, home missions, French evangelization, Sabbath schools, and such other members as may be deemed necessary, and that this committee see that there are no discrepancies in the different statistical reports, present-

in the different statistical reports, presented to the general assembl.

(3) That special attention be given to the formation of the roll of Presbytery, that it contain only the names duly authorized by the church and that it contain a full list of the congregations and mission stations as at March 31.

(4) That when changes are made in the names of the congregations, or mission stations or in the groups forming the pastoral charge, or mission field, the Presvytery clerk shall immediately notify the treasurers of the church and thus enable them to correctly report contributions to the schemes.

them to correctly report contributions to the schemes.

(5) That Presbyteries be enjoined to fully consider and deal with the matter of statistics and finance as set forth in report to the assembly at the first ordinary meeting after the minutes of the assembly, have been printed, and distributed, or as soon thereafter as possible, with a view to ascertain the increase or decrease in the several congregations, what congregations, if any, failed to report or have not contributed to all the schemes of the church. There was considerable discussion over the immigration report and Rev. Dr. Love of Quebe instanced two ships he met last weel on one there were 1,400 or 1,500, of which fout 1,250 were Presbyterians. He argued that there was something wrong with the system as statistics showed that many of them had not come into the church. Rev. Dr. Somerville was of the opinion that too much emphasis was being laid on the financial side in proportion to the amount of energy used on the spiritual side.

The dearth of young men studying for the Presbyterian ministry and the needs and opportunities of the west were the burden of the discussion arising out of the reports from the various colleges.

In presenting the report of the Halifax college, Rev. Dr. John McMillan said the colleges were the backbone of the church, as without them, it would be impossible to get home and foreign missionaries or ministers for the regular churches. In the Maritime Presbyteries alone, there are now 35 yacancies, showing how inadequate is the number of men who have entered the ministry.

as without them, it would be impossible to get home and foreign missionaries or ministers for the regular churches. In the Maritime Presbyteries alone, there are now 35 yacancies, showing how inadequate is the number of men who have entered the ministry.
