This is a remedy so, universally known to surpass any other for the cure of fluorat and lung complaints, that is useless here to publish the eithence of its virtues. Its unrivalled excellence for roughs and colds, and its truly worselrful cures of palmonary disease, have made it known throughout the civilized nations of the earth who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the vitues that it did have when making the cures which have won so strongly upon the confidence of mankind.
