

CUBANS DISBELIEVE

The Story That Spain Intends to Sell the Island to Great Britain.

Maximo Gomez is Magnanimous to a Spanish Patriot—A Correspondent's Experience.

Mexico City, Jan. 23.—Leading Cubans here do not credit the rumor that Spain intends to sell the island to England. They say Spain will hold on to the bitter end, but they have hopes of success and predict that with the arrival of the hot weather and yellow fever next month the Spanish troops will be decimated.

Several prominent Mexican dailies of this country propose to follow the example of the *Universale* and take the Associated Press, and the service superior in promptness and fullness to the old service. The Mexican Herald, which introduced the Associated Press, has made many brilliant scoops on Cuban and Venezuelan news, and the result is that Mexican editors find their subscribers demanding modern and up-to-date service.

Havana, Jan. 23.—An incident of Maximo Gomez' countermarch through Havana province is reported to-day. Day before yesterday he was encamped with 3,000 men at the plantation of Amalia. While there he was visited by the administrator of Port Aguilera and told him that he came to destroy the place with dynamite, in view of its disobedience of his orders against grinding sugar cane. But he added that if the garrison would retire from the plantation he would agree not to do this. This was agreed to, and the garrison retired, but only as far as San Jose. Port Aguilera is a fine estate, and Gomez has given a written order not to destroy it, out of respect to the administrator and owner, the aged Spanish patriot, Manuel Calve.

Gomez has travelled toward and arrived at Cienfuegos, fifteen miles south of Havana, and near the line of Pinar del Rio province. The movements of Gomez westward again are believed to be due to a call from Antonio Maceo for help to relieve him from a critical situation in Pinar del Rio.

The administrator of Port Aguilera has arrived at Havana, having been provided by Gomez with a passport which carried him through the insurgent lines and insured him against molestation. He reports that on his way he found the insurgent leader, Col. Uda, with 500 men between San Francisco Paula and Cotto, six miles from Havana.

Pittsburg, Jan. 23.—Sylvester Scovel, staff correspondent of the Pittsburg Dispatch, who was recently ordered from Havana for having visited the camps of the patriot army, has caused an uproar in Havana. Scovel has made an escape from Havana, having eluded the Spanish guards who were deputed to carry out the edict of deportation, and is believed to be once more with the army of Gen. Maximo Gomez. This afternoon the Dispatch received a telegram from Secretary Olney at Washington City, announcing the receipt of a message from Consul General Williams, stating that Scovel had escaped and was supposed to have returned to the insurgent lines.

Chicago, Jan. 24.—A dispatch from Havana says:

Despite official denials, the report has spread here that Maceo has captured the city of Pinar del Rio. A warship left Havana at a late hour, carrying a battalion of reinforcements and several light field pieces. Reports of the big rebel defeat around Pinar del Rio have been given out from military headquarters in order to counteract unofficial news and to encourage the Spanish residents. In the town of Sabanillo on Monday, while a party of saboteurs were looting stores and terrorizing citizens, a company of regular Cuban troops dashed into the place and calling upon the mayor and citizens to co-operate with him, captured the marauders and lynched them on the outskirts of the place. From the shambles comes the news that a majority of the able-bodied men of the outlying town of La Guinilla, led by the mayor, have risen against the government, openly declaring for the revolution. Troops have been sent from Cardenas to attack them. Five Spanish forts around the town of Macaigua, province of Matanzas, have been captured during the week by La Cret's Cuban forces.

DURRANT'S EXCEPTIONS.

A Further Stay of Proceedings is Granted Till February 11th.

San Francisco, Jan. 24.—Attorneys J. H. Dickinson and Deuprey have filed with Judge Murphy a bill of exception in support of the motion for a new trial for Durrant and the court granted a further stay of proceedings until February 11th.

The bill consists of 793 folios of typewritten matter and charges Judge Murphy with having committed just 232 errors of law during the progress of the celebrated case. The first of these refers to the refusal of the court to grant a change of venue. Next in order comes the manner of selecting a jury, with particular stress on the various challenges for cause made by the defense and overruled by the court.

The police are taken to task for handling the case in a slipshod manner with the sole object in view of convicting but not punishing the newspapers for contempt. Last of all it was contended that the verdict was not justified by the evidence.

All cases of weak or lame back, backache, rheumatism, will find relief by wearing one of Carter's Smart Wedge and Belladonna Backache Plasters. Price 25 cents. Try them.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became a Girl, she clung to Castoria.
When she had Children, she gave them Castoria.

COLOR CUTS NO FIGURE NOW.

But It Did With the Chicago Women's Club Till Yesterday.

Chicago, Jan. 24.—After fighting over a woman's complexion for fourteen months the Chicago women's club has eliminated the color line and elected Mrs. Fannie Barrier Williams, a well known colored woman, to full membership at an executive session of the club. The greatest effort was made to suppress the official information on a subject which had become of popular interest on account of the prolonged opposition to the candidate's admission. Preceding the meeting there was a lively session of the membership committee, which had the name of Mrs. Williams under advisement for the second time. Four members of the committee were prompted by racial prejudice to vote against a favorable report on her application. Another negative vote would have successfully blackballed the candidate. Dr. Sara Hackett Stevenson and Mrs. Catherine Waugh McCullough championed the cause of the colored woman, and the majority of the committee reflected their sentiments. The committee's report prevailed when presented to the meeting. While the majority of the club have welcomed the intellectual colored lecturer to their sisterhood, a few members have threatened to resign unless Mrs. Williams does. When the cause of the contention heard their threats positively announced her intention to remain in the club, regardless of the action of the minority, whom she designated as "prejudiced, mean and hopeless."

AN IMPORTANT CASE.

A VICTORIA COUNTY (ONT.) PEDLER BEFORE THE COURTS.

Detected in Selling a Pink Colored Pill, Which He Represented to be Dr. Williams' Pink Pills—The Court Grants a Perpetual Injunction Restraining Him From Offering an Imitation of This Great Medicine—Some Facts the Public Will Do Well to Bear in Mind.

"In the high court of justice yesterday morning, before Mr. Justice Meredith, the case of Fulford vs. McGahey was heard. It consisted of a motion for an injunction to restrain Fred McGahey from selling a pill which he claimed to be Dr. Williams' Pink Pills for Pale People. Mr. Douglas E. Armour appeared for the plaintiffs and stated that the defendant had been peddling goods about Victoria county, claiming them to be Dr. Williams' genuine Pink Pills. It was impossible, however, on the face of it, that they could be genuine, as he sold them greatly below what they cost at wholesale price. The defendant had given consent. Mr. Armour said that the motion should be changed to one for judgment against him. No defence was offered, and his lordship gave an order for judgment restraining McGahey from continuing to vend the article as Dr. Williams' Pink Pills for Pale People." The above paragraph taken from the legal columns of the Toronto Globe of the 15th instant, contains a warning which every person in Canada in need of a medicine will do well to heed, and shows the care and pains the Dr. Williams' Medicine Company takes to protect the public from imposition, and to preserve the reputation of their celebrated Pink Pills.

It is only a medicine that possesses more than usual merit that is worth imitation. Ordinary medicines are not subject to that kind of treatment, as there is not sufficient demand for such medicine worth while.

Dr. Williams' Pink Pills for Pale People have achieved a reputation for their merit unparalleled in the history of medical science. In every part of the Dominion the greatest medical cures wrought by the use of this great medicine have given it a name and a fame which has made the sale of Pink Pills simply wonderful.

It is because of this great merit, and the consequent enormous demand for the medicine, that it is being imitated by unscrupulous persons in various parts of the country. The imitation is cheap, usually worthless, and is only pushed more money by its sale than he can by the sale of the genuine Pink Pills. Hence the pains he takes to sell the imitation.

The Dr. Williams' Medicine Company annually spends thousands of dollars in endeavoring to impress upon the public that the genuine Pink Pills can only be purchased in one form—namely, in packages enclosed in a wrapper or label, which bears the full trade mark, "Dr. Williams' Pink Pills for Pale People." No one can buy them in any other form, not even if they offered many times their weight in gold for them. And yet in the face of these continuous warnings there are people confiding enough to permit some unscrupulous dealer to convince them that he can supply them with the genuine Pink Pills in loose form by the dozen or hundred, or ounce, or in some other kind of a box. Any one who pretends to be able to do this is telling an untruth. Bear this in mind and refuse all pills that do not bear the full trade mark, no matter what they are colored pink, and no matter what the dealer says.

Please bear in mind also that the formula from which Dr. Williams' Pink Pills is compounded is a secret known only to the company, and any one who claims he can supply you with some other pill "just as good," is guilty of misrepresentation, for he does not know the ingredients of the genuine Pink Pills, and is only trying to sell you some other pill because he makes more money on his sale.

The Dr. Williams' Medicine Company is determined to spare no expense in protecting, both the public and themselves, against these unscrupulous imitators, and will always be thankful to receive information concerning any one who offers to sell an imitation Pink Pill purporting to be Dr. Williams' Pink Pills, or "the same as" the genuine Pink Pills. Such cases will be investigated by the company's detective and the name of the person giving the information will not be made public, while any expense entailed in sending up the information will be promptly refunded. Ask for Dr. Williams' Pink Pills for Pale People and take nothing else. They cure when all other medicines fail.

HE SHOT THE WRONG MAN.

An Angry Farmer by Mistake Shoots His Friend in Court.

Waukegan, Ill., Jan. 24.—Daniel Gore shot and killed John Dillon in Justice Shotwell's court. Gore had intended to kill his enemy, Joseph Backer, but as he fired the shot Dillon jumped between them and received the fatal bullet in his left breast. All three were farmers living near Half Day Gore and Backer owned land adjoining and had long had trouble about the fences. Gore had several times threatened to shoot Backer. Sunday Backer and Dillon met Gore and had another quarrel in regard to the land and fence and again Gore threatened to shoot Backer. On Monday Backer decided to have Gore arrested for threatening to kill him. Gore came along with a shotgun and revolver and called for Backer to come out of the store where he was, but Backer went out of the rear way and avoided the angry farmer. He drove to Waukegan and swore out a warrant for Gore's arrest for threatening his life. Constable Rice arrested Gore and brought him to jail, neglected to search him. It seems that Gore had a revolver in his pocket, and when brought into court for a hearing he pointed his revolver and fired at Backer, killing Dillon. Gore was at once disarmed and taken back to jail, saying he regretted having killed the wrong man. A coroner's inquest was held at once and Gore was held to the grand jury. Dillon was a bachelor aged 50. The occurrence was so unusual that it first caused much excitement here and at first there was talk of lynching. The authorities are blamed for their carelessness in letting him go unsearched.

COULD DO AS WELL AT HOME.

Thousands of Hungry Families in America Need Food.

New York, Jan. 24.—Miss Clara Barton and her staff, members of the National Red Cross Society, sailed to-day on the steamship New York. Those who accompanied her were Dr. J. B. Hubbard, field agent; Miss Lucy Graves, stenographer and typewriter; Ernest Mason, interpreter and linguist; and George H. Pullman, secretary to Miss Barton. In a brief discussion of her plans, Miss Barton said:

"We expect to reach Constantinople within three weeks. This will allow for delay and transfer in London, Paris and Geneva. I have no definite plans as yet, but shall mature plans when I reach the field of operation. I was asked to do this work because I am the only one who can do it."

When asked a few specific questions, Miss Barton said in reply: "I do not know the amount of the Armenian relief fund. We are going to feed the hungry and that is as far as we have laid our plans at present. I shall upon arrival at Constantinople endeavor to enlist the sympathy of the United States minister at that place. I do not yet know whether I shall make an effort to have an audience with the sublime Porte itself, and I have only newspaper knowledge that the sublime Porte has been sending a minister to Washington, announced its opposition to the distribution of this relief."

Spencer Trask, who is an officer of the New York branch of the society, said: "It is the fault of the press that antagonism to the Red Cross Society has been kindled by the public and by the Turkish government. We have been in the Turkish government has interfered with the Red Cross Society by name it has no reason to be opposed to the humane desire of the society and it would not be if it was not that the press had antagonized it."

ONTARIO'S LOW BIRTHRATE.

A Serious State of Affairs.—The Hyams Case About Closed.

Toronto, Jan. 23.—The vital statistics by the provincial registrar for submission at the coming session of the legislature show that Ontario's birth rate is rapidly falling off, indeed in no other country, even France, has the number of birth per thousand decreased so rapidly. Within recent years, as in this case, the number of births exceeded the deaths by a large amount, the decrease in births from the number of deaths in previous years being 843. In the case of the cities the decrease is still more marked, the number of children born in Ontario to-day in proportion to the population being about one-half of what it was thirty years ago.

Fire yesterday gutted the premises of P. McIntosh & Son, flour and feed merchants, Front street, and destroyed the stock. The damage done is estimated at \$25,000, with \$10,000 insurance. The fire also spread near door to the premises of Park Blackwell, pork packer, doing damage to the extent of \$10,000, fully insured.

In the police court yesterday Dallas Hyams appeared again on the charge of conspiracy to murder Mrs. Harry Hyams. B. F. Johnson, counsel for the prisoner, asked for a remand until Friday, which magistrate Dennis consented to. It is understood that in the meantime Mr. Johnson will consult with the crown authorities and endeavor to effect some arrangement. It being understood that the crown is hopeless of convicting on either the conspiracy or murder charges. Both the Hyams have now been in jail about a year.

The difficulty which has so long existed in connection with the management of the central prison has been at last settled by the transfer of Warden Massie to the reformatory of East and West York, the position previously held by Dr. J. T. Gilmour, ex-M.P.P. Gilmour becomes warden.

None But Ayer's at the World's Fair. Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed to exhibit at the World's Fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the World's Fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits.

The best value for your money at Shore's Hardware.

A MAINLAND CUSTOMS SEIZURE.

An important seizure for smuggling was made at Abbotsford yesterday morning by Mr. H. K. Dunn, officer in charge of the customs post at Huxtington.

Smuggling has been carried on for some time past, and Mr. Dunn was on the alert to capture some of the boundary runners. Acting on information received, Mr. Dunn and his assistant, Fraser York, left Huxtington before daybreak yesterday morning, leading from the boundary to Abbotsford station. Shortly afterwards a wagon came along, and it proved to be the vehicle the officers had got wind of. Riding on the seat was a farmer named Joseph Barron, of Clearbrook, Wash., and Edward Vashon, of Abbotsford, B. C., and in the box was about a ton of dressed hogs, valued at \$125. When near the spot where the officers lay in ambush, the wagon stopped, and Vashon descended and walked ahead to the station. As soon as he was out of sight the officers jumped out of cover, seized the hogs, and placed Barron under arrest. Officer York then went down to the station and captured Vashon, who made an effort to escape, but failed.

The value of the seizure is about \$300. Barron is very unfortunately situated in the matter, as he is a bankrupt, and the latter engaged him to transport it across the line to Abbotsford station, from where it was to be shipped to Vancouver. Barron has not been paid a dollar on the pork, and consequently loses pork, horses, wagon and harness.

Mr. Dunn brought the men to the city last evening, and they were taken before Capt. Pittendrigh this morning, in the district court, on the charge of smuggling, for which the penalty is severe. On application of Mr. Henderson, for the defense, the hearing was adjourned until later in the day.—Columbian.

LAWYER'S LICENSE LIMITED.

Does Not Extend to Insulting a Brother or Practitioner's Typewriter.

San Francisco, Jan. 24.—F. B. Glidden, an attorney, was horsewhipped yesterday in his offices in the Meyer building by pretty Juanita Ryan, a stenographer in the employ of Attorney H. C. Firebaugh. In addition to the horse-whipping, Glidden had a short passage at arms with C. W. Vashon, a fellow attorney, who accompanied Miss Ryan to see fair play. Across Glidden's right cheek an ugly blue mark shows where the vengeance of the young woman expressed itself most forcibly. An overturned bookcase, the falling of which brought the other occupants of the building to the scene in time to see the close of the encounter, indicates where Glidden and Hacke came together in the struggle for fair play. The entire affair did not occupy more than about three minutes, but it was extremely exciting while it lasted. Miss Ryan, who claims that Glidden has written through the day's letters, put in her appearance in the building a few minutes before noon, the whip or rather whiplash, carefully concealed in the folds of her dress. She was accompanied by Mr. Hacke, who occupies an office adjoining that where she is employed, and who has volunteered the occasion. Up to the offices of Glidden they tripped. Swish went the whip in the right hand of Miss Ryan, followed by a cry of pain from Glidden. He jumped back into his office involuntarily and Hacke and Miss Ryan rushed in after him. Again the whip descended, and Glidden, who has been crying out at which point her escort took a hand, and all three went heavily against the big bookcase, which toppled over, shaking the entire floor with the contact. The next moment Miss Ryan and her companion came flying out of the office and made a dash for the door, while the occupants of the building, who thought an earthquake had broken loose, rushed into Glidden's office in time to see the rapidly rising wet on his face. The sufferer was not very communicative, and left his office as fast as his legs could carry him. Miss Ryan was more excited with her encounter than Glidden, and with victory when seen a few minutes after the affair had concluded.

"I was driven to what I did," she said. "Mr. Glidden has persecuted me. He annoyed me very much. Once he came forward and seized me in his arms when a young lady of his name was in the office and I stabbed him in the arm with a hat pin."

HE WANTS HER WINNINGS.

And Because She Won't Share Up, He Sues for a Divorce.

San Francisco, Jan. 24.—Superior Judge Slack has before him a case involving an interesting point. It is the suit of Maudie Cavanaugh vs. Elizabeth Cavanaugh. The parties are respectively husband and wife, but are not living together. Cavanaugh is suing for a decree that certain real estate claimed by his wife is community property. They were married in the city about a quarter of a century ago and their relations were pleasant enough until four years back. It appears that Mrs. Cavanaugh has been for many years speculating in lottery tickets. Never a month that she did not spend a dollar or more on some lottery. She got a great reputation among her friends as having no luck at all; but four years ago there came a change. One day a vendor tried to sell her a ticket. She did not have a dollar for it, but she was very accommodating and sold it to her on credit. The ticket thus purchased drew a prize of \$15,000. Mrs. Cavanaugh invested most of her winning in real estate on Day street and had the deeds put in her own name. The rest of her coin she divided with as she pleased. Her husband strenuously objected to this ignoring of his great business capacity and they had many quarrels about the matter. The wife insisted upon a "hands off" policy, while the husband declared it an outrage that his lottery returns were withheld from his willing grasp. He sought to compromise at last by offering to content himself with one-half of her fortune, but he was denied the compromise on that or any similar ground, and then the head of the house began his suit to establish that the lottery winnings were community and there-

FORE NOT SUBJECT TO BE CONTROLLED BY HIS BETTER HALF.

Japanese Army Defeated on Several Occasions by the Insurgents.

School Teachers, Railway and Telegraph Workmen Murdered by the Rebels.

Intentions of the Japanese Government in Regard to the New Navy.

Papers brought over by the Hankow show that another and more serious uprising has occurred on the island of Formosa against Japanese rule. The Japanese authorities were apparently caught napping, and before they could put themselves together had experienced several reverses. A number of ports were overwhelmed by the insurgents. A small detachment near Gilan, at a place called Kase-kei, was attacked by a thousand rebels and had to retreat. A strong force sailed to its assistance from Gilan, but the whole Japanese command was driven back and had to send for help. Taipei was threatened by several thousand men on January 3rd; Tamshi was assaulted, but unsuccessfully, and the insurgents moving to the north of Taipei proceeded to ravage the country. Including Japanese school teachers, railway and telegraph workmen and soldiers the loss of life was not far short of 150.

The inhabitants in the vicinity of Chosok rose in rebellion on the afternoon of December 30th and attacked the garrisons of Eitei, Gilan and Sowo, and cut off communication between them. The insurgents cut the telegraph wires between Kelung and Taipei on the night of December 31st. Railway traffic was stopped.

The insurgents declared that they would capture Taipei, but the Japanese secured reinforcements and succeeded in repelling them. The strength of the insurgents had not been ascertained, but it could not be less than 10,000. The casualties on the Japanese side reported up to January 5th were two officers and twenty-five rank and file killed, and thirteen of rank and file wounded.

The latest reports from the seat of trouble say the insurgents were assembling at several places between Shiping and Taipei, while 5000 or 6000 insurgents are assembled in the vicinity of Byoritan. The insurgents in the neighborhood of Taipei act in a violent manner when the number of soldiers is limited, but when a force is sent out against them, they offer but little resistance, and escape to the mountains or disperse far and wide. On the Japanese retreating, they again show themselves, their object in this way being to harass the Japanese. The south of the island, south of the island, south of Changhina is quiet.

An account of the stubborn resistance made by the insurgents, reinforcements under Major-General Oshima have been sent to Formosa.

The present uprising of the insurgents was instigated, according to report, by Chinese officers at Fukien, the funds having been furnished by them and a person called Lin In I, a wealthy merchant of Formosa.

The Emperor of Japan has privately decided to send Major-General Fukushima to St. Petersburg to represent the imperial house at the ceremony of coronation of the Czar. The Prince is to leave Tokyo for Paris about the middle of next month. He will remain there for a short time before proceeding to Russia, and will return to Japan about November next after a tour through Europe. Mr. Tokogawa Torimoto, son and heir of Marquis Tokogawa Yoshitsugu, will accompany the prince to Russia. On his return trip Mr. Tokogawa will spend some five months in London and subsequently travel in America for several months before returning to Japan. It is also stated that Marquis Ito intends to resign his office and go to St. Petersburg as special ambassador.

It is not exactly easy to understand what is to be the exact amount of increase in the Japanese navy, but it does not appear that it is to be as large as had been expected. It is now stated that only two more ironclads and four more cruisers are to be constructed, which are to cost \$47,155,576, but it would seem that this sum is to be spread over seven years. The actual amount to be spent on shipbuilding during the present year is, according to the estimates, only \$12,749,467, a large part of which will be wanted for the part payments for the Fujii and Yashima, which will presumably be nearly or quite completed within the present financial year. The present Japanese fleet, built and building, including some 16,000 tons captured from the Chinese, amounts to about 112,000, and if to these we add 50,000 tons for the two battleships and four first class cruisers, the fleet would, even when these latter are completed, be about 25 per cent. under what is considered to be its proper strength. Still the navy department will certainly commence more than the six ships specified within the next seven years, and it may be intended to pay for these out of the normal estimates of the department.

Hall's Hair Renewer enjoys the confidence and patronage of people all over the civilized world, who use it to restore and keep the hair a natural color.

AN EXCITING EXCURSION.

Accident to a Raymond-Whitecomb Tourist Party—A Porter Killed.

New York, Jan. 25.—Word was received here this morning that the Raymond-Whitecomb special California excursion train, which left here at three a. m. yesterday, was wrecked last night at Crooked Run, Va., on the Norfolk & Western railway. None of the passengers are injured, but the head porter of the train was instantly killed. The train was bound for Mexico and California.

conditions

In some conditions the gain from the use of Scott's Emulsion of cod-liver oil is rapid. For this reason we put up a 50c. size, which is enough for an ordinary cough or cold or useful as a trial for babies and children.

In other conditions gain must be slow, sometimes almost imperceptible, health can't be built up in a day. For this Scott's Emulsion must be taken as nourishment, food rather than medicine, food prepared for tired and weak digestions.

Scott & Bownes, Chemists, 50c. and \$1.00
