Charlottetown-Walter R. Brecken. It is estimated that the cut on the headwaters this year will be 110,000 .-000, and on the Tobique about 30,000, 000. Of the former amount W. H. Murray will cut about 20,000,000, Kilburn & McIntosh, Gilman Bros., and Burden, Cunliffe and others being his operators. The principal operators on the Tobique are Donald Fraser & Sons, F. H. Hale and R. A. Estey. Fraser and Hale will cut about 10,-000,000 each, while Estey will get out in the vicinity of 4,000,000 and Baird and Beveridge will cut smaller amounts. In addition to 110,000,000 mentioned the Aroostook Lumber Co., composed of Bangor capitalists. will cut about 25,000,000 on the headwaters, which they will manufacture at Machias and ship to Bangor and Boston by rail. J. R. McConnell is operating on the Aroostook for his company, his contract calling for between five and seven hundred millions this winter.

John A. Morrison will be the only man to cut cedar on the headwaters this winter, other manufacturers having enough to run them through. Altogether the lumber cut this year will be about the same as last.

The corporation drive is coming very slowly down. The Boom Co. as well as the lumbermen are beginning to complain that the four millions of the tail end of the drive is not now in the booms. The company has rafted about 135,000,000 already this season.

Fredericton, N. B., Oct. 2.—At the

request of J. N. Sutherland, general freight agent of the Canadian Pacific, President Lemont of the board of trade summoned a meeting of the merchants and manufacturers to discuss the question of freight rates this aftermoon. The meeting had a large at tendance and the question was pretty thoroughly discussed. Among the things needing relief by the railway were better freight rates from the west, delay in the delivery of goods ordered from St. John and the subjecting of passenger tickets for the west to the fare between Fredericton and Fredericton Junction over and above the price charged for tickets from St. John to the same point, when the distance is over twenty miles less. After considerable discussion the following resoluton, moved by Sheriff Sterling and seconded by A. H. F. Randolph, unanimously adopted: The business men of Fredericton in general meeting assembeled, have learned with satisfaction from the president of the poard of trade and from other sources that there is a disposition on the part of the C. P. R. to deal more liberally with Frederiction in the future than in the past, and request the president and secretary of the board of trade with a committee to assure the C. P. R. management that we appreciate the disposition shown and to urge such reduction and adjustment on the rates for passenger and freight traffic, as will place Fredericton relatively in as good a position as other places, both on inward and outward passenger and freight business.

The following are the committee Messrs. Randolph, McMurray, Edge-combe, McKay, Clark, Whelpley, Chestnut and Neill.

This committee were also requested to communicate with the Star line company and endeavor to obtain a promise of better service next year. This season the boats arrived too late and leave too early to admit of any business being done with river customers without stopping over a day. Quite a number of officers and noncommissioned officers of the militia are arriving for a short course of instruction at the military school. About forty are expected this term. A new corps of Canadian millitia

which has been authorized by the minister of militia, was organized last night to be known as the Fredericton rifle corps. E. H. Allen is captain; R. S. Baker, first lieutenant; R. F. Randolph, second lieutenant. The corps will have forty-five men. Thirty-five are already enrolled. Miss Sophia D. Robertson, who

undergoing university matriculation, is from the Rothesay school for girls, Netherwood, Rothesay.

Compound.

The following letter from Mr. Wm. Davidson, of No. 2 Oliver street, Quebec, P. Q., is so very plain and lucid that it requires no explanatory remarks. His object is to draw the attentilon of the sick and afflicted to that fountain and source of life from which he received supplies of new

health. He says: "It is with sneere pleasure and gratiltude I refer to your Paine's Celery Compound, and the wondrous blessings that I received from its use.

"To tell the truth, before using it I had little confidence in it, but conchuded if it did me no good it could not make me any worse than I was. "I had suffered for years from indigestion, lver complaint and kidney disease, and began with Paine's Celery Compound in order to give it a thorough testing. After a fair use of the Compound I am as well as ever I was, and all my troubles have disappeared, and I am enjoying good health.

"Your medicine is a wonderful one; it is far superor to all others, as it truly gives life, and puts the entire system in a healthy condition. As a purifier of the blood I find it has no equal, and I heartily recommend its use to all sufferers." Can stronger proof than the above be required to convince any sick and diseased man or woman that Paine's

cine in the world? Surely, dear reader, you will admit that it is worthy of a trial. You are seeking for new health, and therefore need the very best. Be sure you ask for and use only "Paine's," the only genuine celery preparation in the

The Bane of Many Lives.

It's the cause of nine-tenths of the head-aches, stomach disorders, fits of "blues," despondency, etc., which curse the I'ves of thousands. Doses of cheap purgative pMs, while they may give temporary relief, only increase the trouble, as their use has to be continued. Mack's Rheumatic (Liver and Khdney PMs not only give relief, but they also cure. They so tone up the bowel wall and stimulate the secretions, that in a short time the use of medicine is unnecessary. Price fifty cents a box at all druggists.
