CANADIAN PARLIAMENT VOTES \$100,000 FOR KINGSTON RELIEF

Both Parties Cordially Approve the Splendid Gift—Mayor of St. John Appeals for Contributions.

OTTAWA, Jan. 18.—Before the orders of the day were taken up, Hon. Mr. Fielding asked permission to make a statement with regard to the disaster in Jamaica. Owing to the breaking of the cable it had been found very difficult to get any official information and the government were dependent almost entirely on newspaper reports. There was, however, no doubt that the disaster had been a very great one, bringing with it a large loss of life and great destruction of property. Without waiting further, therefore, for more official information, the government thought it would be with of parliament and of the people of Canada to express their sympathy with their West Indian brothers by making a substantial grant. As to the amount of that grant the government were not at the moment prepared to say, but they would take steps to ask parliament to assent to an immediate grant of \$50,000, and if the disaster was found to have been of a greater character, then they would ask parliament to assent to the voting of another \$50,000, making \$100,000 in all.

The government had been informed that a steamer was about to sail for Jamaica from Halifax and the officers, Pickford & Black, had generously offered to convey free of transportation charges any provisions that might be sent to Jamaica. The collector of customs at Halifax, who fortunately was acquainted with West Indian requirements, having been engaged in the West Indian trade himself, had offered to purchase at once whatever provisions are available suitable for West Indian needs, and avail himself of the offer of the steamer ship owners. GOLD HEADED CANE FOR BANDMASTER JONES

Presentation Accompanied by an Address Made at Smoker Given by 62nd Regiment Last Night.

The members of the 62nd Band were the hosts at a very enjoyable smoker concert in their rooms in the Sutherland building, last night. The officers of the regiment and a large number of other friends of the band were present. Among the guests were Stanley Lawton, formerly of Sousa's Band, and Lieut. Wallace, late of the Black Watch.

A feature of the evening was the presentation of a handsome gold-headed cane to Bandmaster Jones by the band, descriptive selection, band leader, Mr. Molison; song, Fred McKean; clog dance, Jos. O'Brien; recitation, J. S. Lord; speech, Ald. McEldrick; quartette, Messrs. Holder, Brown and Bonnell; banjo selection, G. Davidson; selection, "A Soldier's Life," by the band; piano solo, Mr. Holmes.

BOURBON HEIRS WIN.

MADRID, Jan. 18.—Judgment has been delivered in the testamentary case of Queen Marie Christine of Spain, who died in Havre in 1878 and left considerable estates in France. Litigation has been pending for the past twenty-eight years and a certain portion of the estate was claimed by members of the princely family of Drago against King Alfonso XIII, and other members of the Bourbon family. The claims of the Drago heirs have been dismissed by the court and the Bourbon heirs win their case all along the line.

WOLF HUNT NOT POSTPONED.

(C. P. R. Press.)
MONTREAL, Jan. 18.—The wolf hunt for Ontario is not postponed as erroneously published in Toronto papers, but will leave Deserats on February 8th, as advertised.

MODUS VIVENDI CRITICISED

More Protection Demanded For Canadian Fishermen.

Debate in Parliament Reveals Strong Sentiment in Favor of Maintaining Canadian Rights.

OTTAWA, Jan. 18.—The debate on the modus vivendi with regard to the fisheries, opened yesterday by A. K. McLean of Lunenburg, continued today. Speaking last night Mr. McLean gave the history of American fishing claims from 1783 to the present time. The treaty of 1783 was also reviewed by him. He expressed surprise that the United States had rejected this but partly political and caused this. Repeatedly the Americans had repudiated Canada's advances with regard to this matter and had also stated that they had no need of the modus vivendi. Such being the case the modus vivendi should be withdrawn. Canadians could live without the American fish market, and the time had gone by for the Canadian government to supplicate for reciprocity. Newfoundland had rigorously enforced the treaty of 1818 and deserved Canada's sympathy for so doing. The fishery question should be settled, but not at a sacrifice of Canadian interests.

This afternoon Mr. Sloan (Comox) took up the question of dealing with the matter from the point of view of the fishing industry of Canada on the Pacific coast. He pointed out the development which had taken place in the West in the fishing industry, but owing to the existing agreement with the United States the proportion of that trade was going to the United States instead of assisting, as it should, in building up cities in British Columbia. The industry was in the hands of American companies nearly altogether, and the United States, which had had the benefit of the trade, was even drawing the supply of bait from the inner waters of the shores of British Columbia, a question which requires serious consideration on the part of the government. Fish caught in Canadian waters in American bottoms entered the United States free of duty, whereas Canadian exporters were compelled to pay a duty which was equivalent to the value of \$20 a ton in favor of the U. S. fishermen.

To show the importance of the industry in B. C. he reminded the house that in 1905 B. C. replaced Nova Scotia in the holding of first place in regard to value of fishery products. The value of the province's fisheries products being one-third of those of the whole Dominion, while in the United States, the United States were taking steps to develop their industry in Canadian waters and he urged the government to take steps to protect Canadian trade. U. S. boats might at present use Canadian harbors as a base and the information received as to the situation there.

NEW DOMINION WILL DO WORK AT ST. JOHN

She Will Dredge the Navy Island Bar and the Ferry Approaches—Other City Hall Matters.

Wm. J. McCordoch, government superintendent of dredges and dredging, has given permission that the dredge Dominion should be put to work in a few days at the work at Navy Island and the ferry approaches. The work necessary will probably take about ten days. This satisfactory result is the result chiefly of Mayor Sears' negotiations with Ottawa with Hon. Mr. Hyman and later with Hon. Mr. Fisher, acting minister of public works. The mayor said yesterday that he understood that the dredge would be without cost to the city. Engineer Peters has drawn a plan of the work required, but as the consulting engineer was detained in the house yesterday with a slight cold the plan has not yet been submitted to the government engineers.

THE PREVALENCE OF VALUABLE PIECES

BOMBAY, Jan. 18.—Further news which has reached here with regard to Dr. Stein's exploration of Khotan shows that the excavations at the ruined temple on the Hangaya Tuli resulted in the discovery of many interesting small terra cotta reliefs which once decorated the temple walls. The style of these sculptures is plainly derived from models of the Greco-Buddhist type of art and agrees clearly with that of the Rovala Tupa, reliefs dating approximately from the 5th and 6th century. A. D. A special noteworthy feature of the sculptural remains which have been recovered is the prevalence of richly gilt pieces. This strikingly confirms the hypothetical explanation given by Dr. Stein of the origin of leaf-gold, namely that it was by washing from the culture strata of the old Khotan capital at Yarkand.

YOUTH DESERTS THE HOLY GHOSTS

The Milk and Mush Diet Did Not Agree With Him—Does Not Complain Of Cruelty

PORTLAND, Me., Jan. 18.—Charles Lent, 14 years of age, son of Edward Lent, who with his family, consisting of a wife, three sons and two daughters, have been living at the Holy Ghost and St. Joseph's for the past month, deserted Shiloh early today and walked from Lisbon Falls to Brunswick, a distance of eight miles. He had just 65 cents in his pocket and spent the most of that on the electric from Lisbon Falls to Brunswick. Young Lent is on the way to the home of his married sister, who lives in Sanford, Conn. The boy talks of the treatment received at Shiloh but does not complain very much of cruelty, but says that the inmates are fed on mush and milk three meals a day and one day in the week they are allowed beans and peas.
