NEW YORK—During last three months Pressed Steel Car Co has received practically no new orders, as matters stand the company is barely earning its dividend, fortunately, however, the company is well fortified finever, the company is well fortified fin-ancially because of the exceptionally prosperous years it had in 1907 and 1906. The management is of the opinion that there will be no market improvement in general business condi-tions until the prices of finished steel products are reduced at least ten dol-

lars a ton.

UPTOWN—Some prominent railroad

officials say that although the outlook for the railroads has been improved considerably by the recent suc-cessful offering of new securities, they regard present prices for the stocks in which there has been the greatest activity for some weeks as too high. Other observers who are disposed to be optimistic say that railroad officials are unduly pessimistic. Some conservative bankers, however, agree with the pessimistic railroad men. The shrewdest speculative observers, however think that Union Pacific and Southern Pacific and several other faorite is-sues will continue active and will adfinancing shall have been accomplish-

SUMMARY.

Federal Mining and Smelting Company for year ended Dec. 31, 1907. Total tons extracted decrease \$133,357; gross value decrease \$1,590,293; net decrease \$1,096,506. Falling off in profits was caused both by heavy decline in price of lead and consequent curtailment of sociations of Mechanics was formally provided in the orange Hall last night a lodge of the International Associations of Mechanics was formally provided in the Orange Hall last night a lodge of the International Associations of Mechanics was formally provided in the Orange Hall last night a lodge of the International Associations of Mechanics was formally provided in the Orange Hall last night a lodge of the International Associations of Mechanics was formally provided in the Orange Hall last night a lodge of Mechanics was formally provided in the Orange Hall last night a lodge of Mechanics was formally provided in the Orange Hall last night a lodge of Mechanics was formally provided in the Orange Hall last night a lodge of Mechanics was formally provided in the Orange Hall last night a lodge of Mechanics was formally provided in the Orange Hall last night a lodge of Mechanics was formally provided in the Orange Hall last night a lodge of Mechanics was formally provided in the Orange Hall last night a lodge of Mechanics was formally provided in the Orange Hall last night a lodge of Mechanics was formally provided in the Orange Hall last night a lodge of Mechanics was formally provided in the Orange Hall last night a lodge of Mechanics was formally provided in the Orange Hall last night a lodge of Mechanics was formally provided in the Orange Hall last night a lodge of Mechanics was formally provided in the Orange Hall last night a lodge of Mechanics was formally provided in the Orange Hall last night a lodge of Mechanics was formally provided in the Orange Hall last night and the Orange Hall last

Arbitration treaty between the United States and Japan signed.

Ex-dividend today U S Steel pfd 1%; Pressed Steel Car pfd 1% per cent.

LONDON—Americans were quiet and steady with good tone but light volume of business. General market was finactive and steady. Only weak spot was in diamond market where Debers made new low point. Money was easy in London and would be still easier with the uncertain position in Germany satisfactorily provided for. Weakness in diamond shares also indicates that there is still some liquidation for Paris account.

ROOSEVELT MAKES HOUSE

In the manufacture of linoleum no unprotected lights are allowed in the mixing department. This is on account of the great danger of exploding the cork dust floating in the air. An additional danger in linoleum making is that the mixture of cement and cork dust has the unpleasant property of spontaneously igniting if left in a warm place. It is therefore custom-ary to mix a sackful at a time in order to reduce the risks of an explosion.

NEW YORK, May 5—President Roosevelt is seemingly on the verge for the property of the property of the property of spontaneously igniting if left in a warm place. It is therefore custom-ary to mix a sackful at a time in order to reduce the risks of an explosion.

tion for Paris account.

New York—Sub-treasury lost \$441,000 to the banks yesterday, and since Friday it has lost \$1,527,000 to the banks. Sub-treasury delbt at clearing house \$2,645,354.

April, decrease, \$226,097; month, decrease, \$713,832. From July 1, decrease, \$1,886,752.

ceipt of 10 cents in silver or stamps.

LOCATED IN NOSE

Nasal Cells With Remarkable

As an indication that house leaders have become frightened over the political outlook, caused by their obstinate refusal to enact the president's recommendations at this session, Mr. Payne, of New York, republican leader of the floor, introduced two days ago, without ostentation, a bill providing for the regulation of the issuance of injunctions, and yesterday he introduced a resolution providing for the house committee on ways and means to undertake the preliminaries of revising the tariff during the summer. A child labor bill for the District of Columbia has already been promised by the leaders, a campaign fund publicity bill will be passed before adjournment, and a bill providing goviernment liability to government emjournment, and a bill providing government liability to government employes for injuries received may be introduced by some leader any day, with a limit of its applicability to employes engaged in the mechanical trades. In addition, ropes are being laid for an early enactment of currency legislation. The only important recommendation sent to congress by the president this session which, it is now believed, will not pass the house at least, is his propoed amendment to the Sherman Anti-Trut law. In the opinion of the house this question is too big and too important to be considered before ad-

DEAD BABY'S BODY WAS BURNED AT GLACE BAY

GLACE BAY, May 6.—The body of the infant on which a post-mortem was held yesterday was later burnt in a furnace at town hall. A number of people in town are very indignant over what is claimed to be a heartless acion on the part of the physicians attending, one of whom was the health officer. It is said the town council will

Company went on strike this morn-ing in sympathy with the mule-spin-ners who went out on Monday. It is anticipated that 4,000 other operatives in this company, and 3,000 of the Montreal Cotton Company at Valleyfield will strike in a day or two.

The stone masons union has decided The stone masons union has declared to refuse in open shops, and as the bricklayers are all out this means a complete tie-up in the building trade in Montreal. The bricklayers this morning decided to fine ten dollars any member who interfered with any non-union workman employed present jobs, or who in any way broke the law."

COLUMBUS, Ohio, May 6.—Troop B., the mounted troop frem Columbus of the Ohio National Guard left today on a special train over the Norfolk and Western road for Portsmouth, where they will be transferred to Ripley and will then go to the tobacco district in Brown County, where the

MEMPHIS, Tenn., May 6—Three persons dead, several others injured, considerable property loss, and a demoralization of traffic resulted from the storm of wind and rain which swept over the Southern portion of Arkansas, Western Tennessee and Mississippi yesterday. The wind razed a number of small buildings and tangled telegraph and telephone wires, while the rain caused numerous washouts along the railroads, delaying traffic and causing other damage.

The greatest damage and the loss of life occurred in Arkansas. At Marche, the Polish settlement was badly damaged, and three persons were killed, another sustained probably fatal injuries and several were less seriously where the processes are all the property to abandom the Colden principle of letting trade alone, to the Liberal party to abandom the Colden principle of letting trade alone, to the Liberal party to abandom the Colden principle of letting trade alone, apply in own handwriting, stating school grade, Bex 251, City.
