SECRETARY OF ARCTIC CLUB TO MEET PEARY

H. S. Bridgeman Passed Through the City Last Night—Mrs. Peary Coming Also.

On his way to Sydney, where he will welcome Commander Robert E. Peary on his return from the Arctic region, Herbert L. Bridgeman, secretary of the Peary Arctic Club, of New York, passed through the city last evening. He declared that the achievement of the intrepid American was a marvellous one, but did not judge much credit in Dr. Cook's story. Peary would have sufficient scientific data to prove his claim.

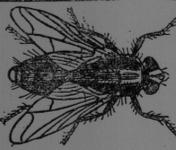

Mr. Bridgeman has engaged a suite of rooms at the Sydney Hotel for the use of Mrs. Peary and children. The explorers' wife will come through St. John this evening to meet her husband at Sydney.

During his brief stay in the city Mr. Bridgeman had a chat with local newspaper men. He declared that he could take steps to place Peary's steamer, Roosevelt, in the great naval parade in connection with the Hudson celebration during the latter part of this month. As a matter of history, the

Roosevelt will be a leading feature of the great parade.

Much of the success of Commander Peary's expedition has been due to the skill and ability of Capt. Robert Bartlett of the Roosevelt and Mr. Bridgeman announces that Capt. Bartlett is about to adopt as his own the stately flag under which he has sailed and which he has helped to unfurl at the North Pole. Capt. Bartlett is a native of Newfoundland.

Mr. Bridgeman is entirely familiar with northern waters and stated that it may be Saturday before Captain Peary and his ship reach Sydney.

One Packet of WILSON'S FLY PADS Has actually killed a Bushel of Flies SOLD BY ALL GROCERS

CALL OF THE COLLEGES BEING ANSWERED WELL, AND ATTENDANCES ARE RECORDS

When lectures are resumed at the University of New Brunswick on Monday morning, Oct. 4th, the college will have within her gates a freshman class of something more than usual size. Dr. C. G. Jones, chancellor of the University, speaking to the Sun yesterday, estimated the number of incoming students at forty-five. These, he thought, would be about equally divided into those taking the engineering and the Arts courses. Engineering would draw the larger number of the young men, but the number of lady students in the Arts classes would about preserve the numerical balance.

Which classes were not to commence until Oct. 4th, the college is scheduled to open on Sept. 30th. These first days will, however, be devoted to the taking of matriculation examinations by the new students and of supplementary examinations from those of last year's students who were not altogether successful. There will not be many of these, however, for most of the new students come in on the Normal School matriculation examinations written in July.

Appointment has just been made of an instructor in French and German to fill the place of Prof. Geoghain, who is absent from his chair upon a year's leave of absence. The new man is Axel J. Upsall, an A.M. of Harvard University. Mr. Upsall has spent two years in France and Germany since his graduation, acquiring a well-rounded knowledge of the languages he will teach, and has also had two years of experience in teaching in the United States. He comes to the U. N. B. highly recommended both by his instructors at Harvard and in Europe and by the president of the academy in which he has been instructed.

When the students return they will face one other new instructor in the person of Frank E. Day, who assumes the chair of English Language and Literature. Mr. Day is now in Yarmouth, N. S. He will reach Fredericton on the 16th of September. After graduating from Mount Allison University in 1903, Mr. Day taught for two years at Acadia Villa School before returning for a post graduate course in 1905. He then became the appointee of Mount Allison's first Rhodes scholarship, while at Oxford he specialized in English and did not complete his course there until the present year, having received permission to spend an intervening year in Germany.

While at Oxford Prof. Day was prominent in athletic as well as in academic pursuits. He rowed with the four-oared crew of his college, and represented Oxford in the heavy-weight rowing at Henley, where the meat was fought. He defeated his man.

A well-appointed new lecture room has been fitted up in the college building for the classes in English. In the basement a modern lavatory has been placed during the summer vacation.

This year's graduating class at the U. N. B. will be one of the largest. The institution since commencement year, a number eight in advance of last year's, and the number is expected to reach forty before the close of the camp.

ACADIA SEMINARY.

Acadia Seminary opened Wednesday, Sept. 8th, with a larger attendance than in any previous year. Over one hundred pupils are expected, and by the middle of the month the building will be taxed to its utmost capacity. Every room will be occupied. Young ladies come from New York, Maine, Massachusetts, Quebec, Saskatchewan, and from all parts of the province, a large sprinkling coming from New Brunswick, nine of which are from St. John and vicinity. These are the Misses Marion Estabrooks, Gertrude Phillips, Cookin, Mabel E. H. Frothingham, Hamm, Harding, Hutchinson and Vanvar.

The teachers in the collegiate department are the same as last year. Miss Wells is vice-president, with Miss Jackson, Miss Bishop, Mrs. Grant, Miss Andrews, Miss Richardson, Miss Goodspeed.

Mr. Ringwald will again be the musical director. Miss Foulson, who is the instructor in violin, has returned, after spending the summer in Christiania, Norway.

Miss Mabel Davis is to be the new teacher in Latin, taking Miss Benson's place. Miss Daisy Arnold is taking Miss Ring's place as assistant in voice. Miss Hamilton will have charge of the physical culture. The graduate nurse for the coming year will be Miss Sprout, a skilled telegrapher.

Owing to the untiring efforts of Dr. DeWolfe this promise to be the most prosperous year in the history of Acadia Seminary.

HORTON COLLEGE ACADEMY.

Horton Collegiate Academy at Wolfville opens with good attendance, the prospect being bright in the history of the institution. Nearly all last year's middle class are back. A large number of the students are from New Brunswick, Fredericton alone furnishing five.

Many improvements have been made in the Academy Home, which is greatly enlarged, doubling the accommodations. The classrooms are enlarged and re-seated.

The faculty is the same as last year, and is succeeded by W. H. Moise, a man with wide experience and good record in the Nova Scotia schools.

KEPT ALIVE BY EATING THEIR COMPANIONS

A Horrible Tale of Suffering From the China Sea—Men Were Lost in Small Boat

VANCOUVER, B. C., Sept. 8.—The Empress of Japan brings a tale of horrible suffering from the China Sea. A Chinese junk picked up a dugout with three men in the last stages of exhaustion and two bodies half eaten. The men, who were taken into Shanghai were found to speak a language which no one could understand. They were evidently natives of some Pacific Island and must have drifted for hundreds of miles. Their recovery is doubtful.

TWENTY-ONE CASES OF TYPHOID NOW

Twenty-one cases of typhoid fever have been reported to the Board of Health and the inspectors are making their rounds to find if any more persons have contracted the disease, while the number is quite large, the situation is not considered alarming. The present season is very dry and germs are floating about. Extra precautions will be taken by the Board of Health to prevent the spread of the disease. In houses where the fever is prevalent a careful examination will be made of the plumbing in hopes of finding the cause of the typhoid. In homes where there are two or more cases the inspectors have been ordered to rigidly analyze the milk.

There were proofs made yesterday of the tuberculosis literature which will be circulated about the city. Drs. Pratt and Daniel, the committee in charge of the benefits hope to have them ready for distribution in a short space of time.

FRESHENING STALE ROLLS

Instead of dipping stale rolls in water as is the usual practice before putting them in the oven to re-heat, try putting them in a steamer for ten minutes to soften, then put them in a minute to just long enough to dry off.

SEPTEMBER SAPPHIRES!

The Stone for September is the Sapphire—that rich, deep, cornflower-blue gem that combines so effectively with the Diamond. Birth-month Rings containing Sapphires and Diamonds are particularly in demand this month. We mention a few:

No. 3119 Fine "Hoop" Ring, containing two Sapphires alternating with two Diamonds. A ring of splendid value, setting 18 karat gold \$24.00.

Phillips Square, Montreal.

WEDDINGS

RESLER-BARBITT.

Cards have been received here announcing the wedding of Newport, Oregon, of Edwin De Vere Resler and Mrs. Mary Bowden-Barbitt. Mrs. Barbitt is the daughter of William Bowden, 74 Sydney street, and she will be remembered here for her musical ability. She has been a resident for some time of the West. Her home will be at Corvallis, Oregon, where Prof. Resler is located as a member of the staff of the state agricultural college.

CRAWFORD-TILLEY.

A quiet wedding was solemnized at Jacksonville on Wednesday afternoon when Miss Anna Tilley, eldest daughter of Mr. and Mrs. Chapman Tilley was united in marriage to Charles Crawford, a prosperous farmer of Debec. Rev. E. Turner was the officiating clergyman. The house was prettily decorated with sweet peas and potted plants for the occasion. The bride was becomingly attired in a dress of white muslin de soie. After the ceremony luncheon was served and the happy couple left on the evening train for their future home in Debec. Miss Tilley was tendered a linen shower on Monday evening by her many young friends with whom she was very popular.

PALMER-HEACON.

A pretty wedding was solemnized at 6:30 yesterday morning at the home of Alex. McDermott, corner of Main and Adelaide streets, when Rev. Neil MacLachlan united in marriage Daniel Palmer, of Scotchtown, Queens County, and Jennie Heacon, daughter of Mr. and Mrs. Arthur Bowen, of Gagetown. The young couple were united in wedlock and only a few intimate friends were present at the ceremony. The bride was dressed in a suit of grey, and wore a hat of straw. After the knot was tied, a wedding breakfast was served and Mr. and Mrs. Palmer left on the steamer May Queen for Douglasdale, where they will spend a short vacation before taking up their residence in Scotchtown.

FOUND A WAY

To Be Clear of the Coffee Troubles.

"Husband and myself both had the coffee habit and finally my stomach and kidneys got in such a bad condition that he was compelled to give up a good position that he had held for years. He was too sick to work. His skin was yellow, and I hardly think there was an organ in his body that was not affected.

"I told him I felt sure his sickness was due to coffee and after some discussion he decided to give it up.

"It was a struggle, because of the powerful habit. One day he heard about Postum and concluded to try it and then it was easy to leave off coffee.

"His fearful headaches grew so frequent, his complexion began to clear, kidneys grew better until at last he was a new man altogether, as a result of leaving off coffee and taking up Postum. Then I began to drink it too.

"Although I was never as bad off as my husband, I was always very nervous and never at any time very strongly weighed 95 lbs. before I began to use Postum. Now I weigh 115 lbs. and can do as much work as anyone my size I think.

"Many do not use Postum because they have not taken the trouble to make it right. I have successfully fooled a great many persons who have drunk it at my table. They would remark, 'You must buy a high grade of coffee.' One young man who clerked in a grocery store was very enthusiastic about my 'coffee.' When I told him what it was, he said, 'Why I've sold Postum for four years but I had no idea it was like this. Think I'd drink Postum hereafter!'

MICHAEL J. KELLY INSTANTLY KILLED BY FALLING INTO THE HOLD OF STEAMER ORTHIA

Shortly before midnight last evening, Michael J. Kelly, of 72 Broad street, while alighting coal from hatch No. 4 of the steamer Orthia of the Donaldson Line was hurled from the staging and thrown down the hatch, a distance of about forty feet, meeting instantaneous death. Mr. Kelly was one of the night crew. The Orthia was lying at the Pelling wharf. About 11:05 o'clock a load of six heavy bags of coal, which is the usual amount used on the Orthia, was being hoisted on the left hand side of the staging, with his back towards the steamer. The hoisting winch and the one pulling aft were both operating, and the sling reached Kelly and then Sharkey, the latter being working on the right of the staging, taking the loads from the sling, as was Kelly. They proceeded to untie the load and lower it to the truck. Kelly still kept his back turned to the steamer. While Kelly was holding the sling back to the hatch, he slipped and revolved backward, falling into the hold. Kelly was in an awkward position, and rolling remained for him to do but cling to the sling. Sharkey being on the other side was able to let go. The sling swung to the hatch with terrific force and struck against the side, throwing the unfortunate man down the tunnel. He struck on his head, with a heavy bag of coal on top of him. He gasped and died. John Murphy, who was working down the hold, picked him up, and was horrified to find that he was extinct. He and James Leclair then put the body in the sling and hoisted it up and carried it to the office.

Mrs. A. P. Emery, Thos. Lunney and D. E. Berryman were hastily summoned, but medical aid was useless. Emery examined the body and stated that death was probably due to a concussion of the brain and to a fracture of the skull.

Messrs. C. G. Langlois and Sheridan were on the wharf at the time of the accident. James Moore was the foreman. In all likelihood an inquiry into the accident will be held.

The unfortunate man's wife was informed of the accident, and on learning of the sad news was prostrated with grief. Mr. Kelly leaves, besides his wife, one adopted daughter. He was between fifty and sixty years of age. His fellow workmen spoke very highly of him, and stated that he was a general favorite.

After the accident, he workmen knocked off work for the night.

LIBERALS PLAN BIG CONVENTION

ONTARIO, Ont., Sept. 8.—The holding of a great Liberal convention for the purpose of laying down the platform was unanimously decided upon at the annual meeting of the General Reform Association of Ontario in Temple Building.

The date of the convention was fixed for June, 1910. It was a truly representative of Ontario Liberals, which attended. H. H. Dewar, K. C., president of the association occupied the chair. In his opening address the president briefly reviewed the work of the past year.

The appointment of two new Cabinet Ministers, Hon. Chas. Murphy, as Secretary of State, and Hon. W. L. Mackenzie King, as Minister of Labor, had been ungraciously approved.

Mr. of Vancouver, B. C. were united in marriage this afternoon at 3:30 o'clock at the residence of the bride's parents, the Rev. H. G. Kennedy of the United Baptist Church officiating. The bride looked charming in a dress of white china silk crepe with train and embroidered with cymathemum. She carried a shower bouquet and had as bridesmaids Miss Lou Wilson of Toronto and her sister, Miss Aurilia Boyer. The groom was supported by Clarence Sprague. Among the many handsome presents the bride received was a cut glass carafe, one dozen tumblers and a plateau from her young friends. The guests included only a few of the immediate relatives and friends of the family. The happy couple left on the evening express for their future home in Vancouver. En route they will visit Toronto and Niagara and will go to the lake route from Owen Sound to Fort William.

The Liberal press and people.

Hon. A. G. Mackay briefly supported the President's suggestion for the convention.

H. H. Dewar made it clear that the advisory committee would not in any way assume to frame the platform, but merely to carry out the detail work of arrangement of meetings of associations and collect all possible information relative to wishes of various bodies to be represented.

Hon. Chas. T. Murphy, K. C., secretary of state, expressed regret that the Conservative press published day after day columns of misrepresentation and even falsehoods. One particular case of this kind was Hodgins' falsehoods of the Tory press. On these matters continued day after day, and the Liberal press had but little to say on the subject, although material for refuting misrepresentation of Tory press was very easily obtainable. Even when charges collapsed the Liberal press were almost silent on the case. He then proceeded to point out the error which he claimed the Globe had committed in attacking his department for leasing Dominion Hacking Association charter. He explained that in his opinion the department had no option but to issue that charter. He urged that Liberal papers should at any rate inquire from departments regarding any matter about which it was desired to criticize. He complained that much good news of value to the country and to the party was overlooked. The papers at Ottawa did not collect that news and did not seem to realize that when parliament was not in session there were many important news items to be had which were not looked after by press representatives.

Continuing Mr. Murphy strongly criticized the Globe's attitude on various questions of public interest.
