

LOCAL LEGISLATURE.

Open Season for Moose September 15 to December 31.

Will Appoint One of the Revisors in Every Parish and Substitute Sheriff for County Court Judge.

FREDERICTON, N. B., April 28.—Mr. Porter introduced a bill incorporating the New Brunswick Pulp and Paper Co., Ltd.; Mr. Hazen, a bill to discontinue the use of parchment in all matters; Hon. Mr. Dunn, amending the law passed in December, 1898, respecting business licenses by the city of St. John.

On motion of Hon. Mr. Tweedie, seconded by Hon. Mr. Farris, it was resolved that copies of the resolution passed respecting the Canada Eastern railway be engrossed and forwarded to Sir Wilfrid Laurier, the secretary of state and Hon. Mr. Blair.

Hon. Mr. Tweedie committed the bill to grant aid towards the holding of provincial and county exhibitions throughout the province, which was agreed to as were the appropriation bills, and Dr. Pugsley's bill further amending the act respecting practice and proceedings in the supreme court in equity.

Mr. McKeown committed the bill to declare and explain the meaning of the covenant for renewal in leases for renewable terms. Progress was reported with leave to sit again.

Mr. Robertson committed the bill to confirm a conveyance from the city of St. John to the Canadian Pacific Railway Co., and for other purposes. Progress reported with leave to sit again.

Mr. Robertson committed the bill to amend the act incorporating the Women's Christian Temperance Union of St. John, which was agreed to with amendments.

Mr. Fish committed the bill to amend section 7 of chapter 10, Consolidated Statutes, so far as it applies to the fire district of the town of Newcastle. Agreed to.

Mr. Lawson committed the bill in addition to act 53rd, Victoria, chapter 73, incorporating the town of Grand Falls.—The bill was agreed to with amendments.

Hon. Mr. White introduced a bill amending chapter 108 of rates and taxes; also a bill in further amendment of the act authorizing the acceptance of policies of guarantee companies as security for the faithful conduct of public officers; also a bill in amendment of chapter 17, 51st Victoria, registration of births, deaths and marriages.

RECESS.

After recess, Mr. Wells introduced a bill amending chapter 115, Consolidated Statutes, of sewers and marsh lands.

Mr. McKeown re-committed the bill to declare and explain the meaning of the covenant for renewal in leases for renewable terms, which was agreed to with amendments.

Hon. Mr. Tweedie introduced a bill in amendment of the New Brunswick Elections Act of 1893 and certain acts in amendment thereof.

Hon. Mr. Dunn committed the bill respecting the protection of game. The bill proposed making the open season for moose and caribou end December 31st.

Mr. Lawson objected and wanted the close season to end November 30, December, he said, was the month for the lumbermen and not hunters. The bique sportsmen had represented to him the desirability of the changes he proposed.

Mr. Todd agreed with Mr. Lawson, especially with regard to deer.

Hon. Mr. Tweedie said December is a good month for hunting. The idea of lumbermen shooting great quantities of moose was a delusion. He thought it a bad policy to change the law every year. Sportsmen had already made their arrangements, guides have been employed for the present year, and it would not be fair to take off a month of the open season without any notice to these men. His experience is that it is not well to change the law in accordance with every suggestion that may be made, as these suggestions generally came from persons who may have fads, and do not take into consideration the whole trend of the law.

Mr. Todd always felt a great deal of pride in our game resources. They would be a veritable gold mine in the future if properly protected. Maine last year had taken \$2,000,000 from big game sportsmen. In that state the close season is from October 1st to November 15th, and he believed the time was coming when three months would be the limit in this province.

Hon. Mr. Dunn said no doubt a large number of moose were shot by lumbermen in December.

Mr. Porter agreed with Mr. Lawson that the bique sportsmen favored striking December from the open season.

Hon. Mr. Tweedie said his experience was that more moose are killed up the St. John river out of season than in, and very little attention was paid to the law, especially in Madawaska.

Hon. Mr. Dunn said he proposed making the beginning of the open season Sept. 15th and the end of December 31st, so that there would be two weeks less hunting than hitherto.

Mr. Fish discounted the idea that lumbermen cared to exist on moose meat. He favored two months, or two and a half months, as sufficient length of time for the open season.

Mr. Carvell said there seemed to be a disposition to discuss the question from the American sportsman standpoint, rather than from that of our own people. It would be a great mistake to strike December from the open season, especially for hunting deer. That was the time in Carleton when the people did their hunting.

Mr. Venot wanted December an open month. He denied that lumbermen took advantage of December to fill their barrels with moose meat.

The section passed, making the open season from September 15th to December 31st.

A number of sections being passed, progress was reported, with leave to sit again.

Hon. Mr. White committed the bill to amend chapter 17, 51st Victoria; the bill in amendment of the Public Health Act, 1898, and the bill to change the terms of the Sunbury court, all of which were agreed to.

Hon. Mr. White re-committed the bill amending the law incorporating the town of Millville which was agreed to with amendments, and the house then adjourned.

FREDERICTON, April 28.—Hon. Mr. Tweedie committed the bill in amendment of the New Brunswick Elections Act of 1893 and certain acts in amendment thereof.

Mr. Hazen asked if the provincial secretary proposed to explain the bill. Hon. Mr. Tweedie said the bill did not require very much explanation.

The principal amendment is that the governor in council is given the power to appoint the third revisor in each county. At present the two councilors are revisors themselves, and appoint the third revisor. It might be urged that no great necessity existed for the change. The attention of the government had been called to the fact that in many counties the revision of the lists was very unsatisfactory. The third revisor would be outside of local influence altogether, and there would be greater likelihood that all parties entitled to a vote would be placed on the list. The municipalities of course were not interested in the revision in any way, and a good deal of card-playing had arisen with regard to the revision of the lists. In many places the duty was performed in a most perfunctory way. There was also an amendment in regard to applications for getting names on the list had been left off. The act of 50th Victoria provided for an appeal to the county court judge. Under this bill the application is made directly to the sheriff. Some members of the house had suggested that additional polling places should be provided for, but he thought, unless pressing necessity was shown for the change, this matter had better stand over till next session for careful consideration.

Mr. Hazen said he wished to place himself on record as entirely opposed to this bill. Hitherto the revising has been done by the two councilors, and the third is appointed by the county court judge. This bill by the appointment of the third revisor in the hands of the lieutenant governor. No good reason had been shown for the change. No information had been received to the effect that the revising was not properly done. No complaints had been made. Names no doubt were occasionally omitted, but this would occur under the most perfect system that could be devised. He thought the county council were much better judges as to who were suitable men to appoint as revisors than the governor in council possibly could be. No county council had asked for the change. The government were taking away a right the county council had always had, without giving any good reason for the change. He did not think the revisors under the present system had discharged their duty from a party standpoint. The bill was open to the suspicion that it was being promoted in the party interest. There was no use in tinkering with the laws for the mere sake of change. With regard to the fourth section, which provided for appeals, he did not think the power should be left exclusively in the hands of the sheriff, who was dependent upon the government for his office. The law at present giving the power to the judge of the county court was a very much safer law. He entirely agreed with section 5, that provided that where real estate was assessed in the name of two or more persons each of such persons must show that he owns 1/100 in his own right.

Hon. Mr. Tweedie said the house did not generally wait for a public demand for legislation before introducing a bill. Almost the first bill the hon. member introduced in the session was to amend the elections act, though there was no demand for the change, and the house decided that it was not called for. It would be a poor government that would wait for a hue and cry before it took the responsibility of introducing necessary legislation. Mr. Tweedie pointed out that the dominion elections would hereafter be held upon lists prepared by the local authorities, and that was all the more reason why the lists should be carefully prepared. The government did not ask to control the revisors, but only to appoint one revisor as a part guarantee that the lists would be more carefully revised than if left entirely in the hands of irresponsible parties. The government had a right to see that everybody entitled to vote should have his name on the list.

Mr. Hazen said the fact that the dominion elections would be held on the local lists was no argument whatever in favor of the bill. The present dominion government had changed their franchise in favor of the existing local system, which they evidently thought suitable for the purpose. Why should the house say that the system should be changed? It was no part of the duty of this house to have the lists revised for the purposes of the dominion elections. He challenged any one to point out where any crying evil existed under the present system. No good cause had been shown for the legislation.

Progress was reported with leave to sit again.

Mr. Purdy committed the bill to place the entire control of appointment of members of the police for the city of St. John in the common council. The bill was agreed to with amendments.

Hon. Mr. Dunn re-committed a bill respecting the protection of game. Many of the sections of the bill created considerable discussion, and were stood over.

At 6 o'clock progress upon the bill was reported with leave to sit again.

Mr. McKeown introduced a bill to amend the act uniting the cities of Portland and St. John, and to amend the charter of St. John city and the law relating to civic government.

Hon. Mr. Tweedie, in the absence

of the surveyor general, introduced a bill to consolidate and amend the law relating to the settlement of crown lands.

Mr. Mott committed the bill "an act further relating to the town of Campbellton."

Mr. Pugsley strongly opposed section 14, claiming that it interfered with the existing rights of the arbitrators. Mr. Mott contended that before the town of Campbellton was called upon pay the costs of the arbitrators, the same should be taxed by a judge of the supreme court.

Mr. Hazen said it was the unanimous opinion of the municipalities committee that the section should be struck out. He strongly opposed placing the arbitrators in a different position to that which they occupied when they acted under the act of 1897.

After further debate the section was voted down and the bill was agreed to with amendments.

Hon. Mr. White committed the bill in amendment of chap. 100, Consolidated Statutes, rates and taxes, which was agreed to with amendments.

Hon. Mr. White committed an act authorizing the acceptance of policies of guarantee companies as security for the faithful conduct of public officers, which was agreed to.

Hon. Mr. White re-committed the bill respecting the fisheries of New Brunswick, which was agreed to with amendments.

Mr. Robinson presented the petition of Andrew G. Steeves and William H. Magee and 187 others in reference to a bridge over the Petitcodiac River at or near Gilbert Chapman's.

Mr. Speaker said the petition involved the expenditure of money and therefore could not be received.

Mr. Shaw committed the bill relating to civic government in the city of St. John, which was agreed to with amendments.

Mr. Shaw committed the bill to regulate the fees to be allowed to arbitrators, appraisers or valuers in a party to the proceedings. Hon. Mr. Emmerson explained that it had been thought advisable that the government should introduce a bill of this character, which would apply to the whole province, and that the government proposed to introduce such a bill at the next session of the legislature. Progress was reported.

Hon. Mr. Emmerson introduced a bill "An act to provide for the appointment of a commission relating to assessments in the city of St. John."

Mr. Carvell re-committed the bill to authorize the town of Woodstock to take a vote of the ratepayers of said town on the question of taking stock in a pulp mill or other industry to an amount not exceeding \$50,000, which was agreed to with amendments.

Hon. Mr. Emmerson committed the bill authorizing the municipality of Albert to take a vote of the ratepayers of said town, which was agreed to with amendments, and an amended bill.

Hon. Mr. White committed the bill to amend chapter 39th, 59th Victoria, an act relating to pedlars.—Agreed to.

Mr. Robertson committed a bill to confirm a conveyance from the city of St. John to the C. P. R. and for other purposes.—Bill agreed to with amendments.

Adjourned.

A man with his life. What is more dishonorable than unnecessary. Thousands of men make failures of life and die premature deaths, leaving wives and children unprotected, because of their reckless neglect of health. No man can do good work or be successful in business who suffers from biliousness, digestive and nervous disorders such as sick headache, general dizziness, drowsiness, cold chills, flushings of heat, shortness of breath, loss of appetite, fullness and swelling after meals, wind and pain in the stomach, constipation, blotches on the skin, loss of sleep, disturbed sleep, frightful dreams and nervous and trembling sensations. These are but the forerunners of some dread disease like deadly consumption, or fatal nervous prostration. Dr. Pierce's Golden Medical Discovery is the best medicine for such working men and women. It cures all cases of weak stomach, impaired digestion and disordered liver. It gives tone and energy to the system, makes rich, red, pure blood and builds firm, healthy flesh. It builds new, healthy, muscular tissue in every vital organ. It cures all cases of indigestion, drowsiness, biliousness, and impairs the muscular system, and invigorates and vitalizes the whole system. It induces drooping and refreshing sleep, dissipates mental power, elasticity and courage. It arouses the physical energies of the whole system, and restores the system to its normal strength and stimulates the overworked organs. They never give. One "Pelle" is a gentle laxative, two a mild cathartic.

INGENIOUS MARINE BRAKE.

An ingenious marine brake has been invented by a Croatian engineer, Cavetkovitch, whereby it is claimed that such catastrophes as the loss of H. M. S. Victoria or the Stella could easily have been averted.

The brake is of steel and it is fitted to the stern sides of the vessel. Its movement is like that of the vane of a wheel. When raised it gathers itself on the sides and directly above the stern post of the vessel. The bolt fastening the ends of the brake to the sides of the vessel is raised by a set screw. It is kept in position by a steel head arrangement and let go by a line attached to a pin just as an anchor is freed. The brake drops down as a visor closes, and the water racing into the cavity "holds up" the vessel. If when steaming say 10 knots, within a distance of 20 feet, it can be used as a sea-anchor in case of disaster. In the event of the vessel, steaming in very foggy weather near a dangerous rocky coast line, with its whereabouts uncertain, a pole with a false "outwater" attached is run out from the bows, and on the lower edge of the pole a mechanical arrangement simultaneously releases the brake at the stern, thus stopping the ship.

Children Cry for CASTORIA.

A NEGRO BISHOP

Free His Mind about the Georgia Atrocities.

NEW YORK, April 28.—The New Jersey annual conference of the African Methodist Episcopal church was opened in Jersey City today, Bishop Alexander Walters, D. D., presiding.

Bishop Walters in his address bitterly denounced the Georgia "lynchings." He said: "The evil and horrible world has been shocked by the unprecedented butchery and burning of Samuel Hose. The fiendishness of the crime beggars description. It is generally believed by the 'ar mind' that if Hose did kill Crawford it was to avenge the killing of five colored men by a mob said to have been led by Crawford at Palmetto, March 18."

"The real cause of our trouble is race hatred. In all cases it is not because we are black, for some negroes who are hated have blonde hair and blue eyes, and they are so far that they can hardly be distinguished from the pure whites, yet this class of negro is a sufferer in common with the blackest; all that is needed for them to be discriminated against is for it to be known that they have a drop of negro blood in their veins. I have come to the conclusion that nothing but manly resistance on the part of African Americans themselves will stop these atrocities. President McKinley and the federal government have shown themselves impotent to convict the murderers of federal officials. The governors of certain states in the south have acknowledged their inability to protect their colored citizens."

"In the name of Almighty God, what are we to do but fight and die?"
