CERTIFICATE OF IMPROVEMENT Vellie N. Mineral Claim, situate in the Nelson Mining Division of West Koote-nay district. Where located: About four miles north of Erie, N.E. of the Ariing-

ton mine. TAKE NOTICE that I, J. D. Anderson, TAKE NOTICE that I, J. D. Anderson, P.L.S., of Trail, B.C., agent for Andrew Sostad, Free Miner's Certificate No. E&J, intend, 60 days from the date hereof to apply to the Mining Recorder for a Certi-ficate of Improvements, for the purpose of obtaining a Crown Grant of the above claim And further take notice that action un

ler section 37, must be commenced before the issuance of such Certificate of Improve-

and placed upon shelves in the open air to dry. Kaolin improves by exposure to the atmosphere. If piled and allowed to freeze and thaw in winter, it is found to be tougher for it in the spring. From the crude clay there is obtained 40 to 50 per cent of kaolin; whilst the quarts and sand obtained from washing it, is pul-verized and sold to the potters who use it together with felspar as a glaze. The best English China clays assay from 46 to 50 per cent sillcs; 32 to 38 we per cent alumina; nil to 2 per cent iron oxide; and about one or two per cent of the alkalies, whilst the best Amer-icon China clays carry considerably more and alkalies are very similar.

marked "Geo. A. Hunt N.E. corner," situ-ated on the west side of J. T. Burgess' imber claim on Russell creek, thence south 60 chains; thence west 20 chains; thence north 160 chains; thence east 60 chains to place of commencement. Dated this 17th day of November, 1905. 11-24 GEO. A. HUNT, Kitchener. to the great assistance it. Fire clays are the metallurgical works. Fire clays are required to stand very high temperaures, therefore a clay with objectionable mpurities will be found useless for this urpose. A fireclay should not contain purpose. A arecay should not contain more than five per cent iron oxide, nor more than three per cent of magnesia, lime, soda and potash combined. One of the most renowned fire clays contains 97 per cent silica, 1.39 per cent silica, less than half of one per cent iron oxide and little or no time and the alkeling. less than half of one per cent iron oxide and little or no lime and the alkalies. Fireclays are usually found in the neigh-borhood of coal measures, where they often form beds upon which the coal lays; and are frequently mined together with the coal. They are the purest of clays known, often consisting virtually of silica. It is not an uncommon occur-ence that this class of clay is found in solid formation in a condition so hard ence that this class of clay is found in solid formation in a condition so hard that it requires dynamite to blast it. In these cases it is necessary to expose the "rock" to the action of the air, when after some few weeks it can be easily broken with a sledge hammer, and treated in the ordinary way. Fire clay is almost infusible before the blowpipe, owing to absence of fluring substances. The value of this class of clay, however, does not depend entirely upon the ab-sence of fluring substances, but rather upon how much of the slica exists in a free state and how much is united with the alumina. The most important point to be considered in fire clays is that, if the fluring agents (iron oxide, magnesia, lime and the alkalies) exceed 6 per cent, Ime and the alkalies) erceed 6 per cent, it cannot be called or classed as a re-fractory clay, therefore it cannot be a sood fire clay. There are several meth-ods for obtaining the fusibility of clays, but as these branch off into advanced chemistry thay are bayond the severa of chemistry they are beyond the scope of

Rio Tente, Queen Victoria Fraction and Orinoco Fractional Mineral Claims, situate in the Nelson Mining Division of West Kootenay District. Where lo-cated :On Queen Victoria mountain, near Beasley Siding. TAKE NOTICE that I. Frank C. Green, acting as agent for Michael Egan, Free Miner's certificate ... GSiS, intend, sixty days from the date hereof, to apply to the Mining Recorder for Certificates of Im-provement, for the purpose of obtaining Crown Grants of the above claims.

wall rocks, but it would seem that No. 1 is somewhat connected with it, prob-ably a break off from it, with parts of it weathered out. The quarts in Nos. 2 and 3 is entirely different. No. 2 may be due to a gash vein as it seems to disappear with depth. It may, however, be found again by further exploring; in fact there is every chance of the four No. 2 stringers doming together with fact there is every chance of the four No. 2 stringers coming together with depth. Should, however, all disappear you can safely put it down as a "gash" only. Your Nos. 2 and 3 samples will be kept 14 days to see if you require them assayed. In case you do the fee will be \$3.00. K., Arrowhead, B.C.-Your sample is a

plece of very fine grained steel galena, with a small quantity of zinc blende at-tached. It is by no means a rare mineral. Have it assayed for silver and

MOST SUCCESSFUL FUNCTION HELD LAST NIGHT.

WILLIAM IRVINE WINS NOVEL. COMPETITION.

The 44th anniversary of the founding: of the order of the Knights of Pythias: was fitly celebrated by the local lodge-last evening by one of the most success-ful At Homes ever held here. There was an unusually large attend-

winners were announced: Ladies-First prize, Mrs. S. A. Wye, a

cut glass perfu Gentlemen-First prize, W. O. Stern, gold pen with sterling silver holder and

case. The other winners were Miss Mo-

The other winners were Miss Mc-Laughlin and Ernest Myers. Then followed the annaunced most novel competition offered this season. The matter had been kept secret and naturally a great deal of curiosity was aroused. The ladies were provided with ballot papers and requested to vote for the most popular man present. Great interest was taken in the proceedings and finally the successful candidate's name was announced amidst intense ar-citement, the grand chancellor of Brit-ish Columbia, William Irvine. Mr. Irvine was almost overcome at the un-looked for honor but promptly returned his thanks and appreciation in a neat looked for honor but promptly returned his thanks and appreciation in a neat little speech. In order to prevent a pos-sible riot, the names of the many un-successful candidates were suppressed by the committee in charge of the vot-ing. The prize presented to Mr. Irvine-was a very handsome K. of P. jewel. Then the floor was cleared and after a most tempting supper had been fone-ample justice to, dancing, to the strains, of Irwin's full orchests, was indulged in until an early hour this morning.

MISHAP AT COAL CREEK

# (Special to The Daily News) Fernic, Feb. 19-5. Rakoski, a Russian miner, employed in the Coal Creek mines, had his hand badly injured while at work. had uss nand badly injured while at work, this morning. He was fixing a prop, where a fail of rock caught his hand and nearly severed the thumb, which will have to be amputated.

POLICE OFFICER SUICIDES Dawson, Feb. 19 - Constable Williams Richards of the R.N.W.M.P., committed years in the force.

About Taking Over Plant

Says Ma hi ery is Not Perfect-Que Left to a Special Committee

• A special meeting of the city cou was held last evening on the call of worship the mayor, to discuss the de ability of taking over the municipal p

worship the mayor, to uncease the us-ability of taking over the municipal p er and light plant at Bonnington Fs from the machinery contractors, Allis-Chalmers-Bullock, Ltd. Ald. Rose was the only absentee a there were present H. R. Kirkpatri travelling representative of the A.O. Co., J. O. Gillice, the logal agent, H. Bullis, the company's hydrablic engine now in charge of the plant, W. P. Di son, the city's electrical engineer, o engineer McCulloch, and W. A. Macd ald, city solicitor. If transpired t there was a difference of opinion as the present run of the plant, the c authorities maintaining that the pl was incomplete and that the trial days' test could not commence until plant was fully completed and runn satisfactorily to the city's engineer The representatives of the machin contractors pleaded that while the r chinery was not complete in all detail contractors pleaded that while the r chinery was not complete in all details was practically so, that the details wa ing were minor ones, and that pend their completion the city should pay final payment on February 26, the o tractors giving bonds to complete the tails. With the exception of the g ernor, which has not worked at all, i what Mr Dickson termed "some sm

ernor, which has not worked at all, a what Mr. Dickson termed "some sm minor details," the plant has run sai factorily for 22 days. After a prolonged discussion the co-cil decided to refer the matter to special committee which will meet 1 morning at 10.30. There was an informal discussion fore the mayor called the council order, just a sort of preliminary spar-to ascertain where the contending p ties really stood. When the coun formally came to order the city ci-read the notice cauling the meeting a his worship called upon the Allis-Ch mers-Builock representatives to addr the council representatives to ad

mers-Bullook representatives to addr the council. Mr. Gillice-"I have asked for t meeting because I am leaving the e ploy of the company and wish to kn the attitude of the council as to the I payment to be made on Febraury 26." To the mayor-"We consider the days' test will be up on the 26th insta t think the machinery has run satisf days test will be up on the 26th insta I think the machinery has run satisf torily so far, with the exception of governor. We expect to get the gov nor in order before the contract is co pleted. I think the governor ran up the canacity of the generator for a th

pleted. I think the governor ran up the capacity of the generator for a tin As to rurther details about the govern I must refer yon to Mr. Bullis who w with the expert during the test." Mr. Bullis explained that some chan would be necessary with the govern Some new rings would have to be r in. The contractors could run the pla for 30 and even 60 days in the shape is now in, but sconer or later the gov mor would have to be changed. A she shut down would be necessary to chan the governor. I think in any case t men should be on shift together. uld not care to run the plant al

To Ald. Hume, Mr. Gillice said plant was up to specification with s slight was up to specification with so be readily rectified. The chief except was the working of the piston. The mayor said he learned from h Pfau, the company s expert, that above certain point the governor would n work automatically.

work automatically. Mr. Dickson said he understood governor had not run continuously all. Mr. Pfau had not been able to the governor to work. It was a nec sary part of the plant, regulating hand, as suggested, would not wo k at

as a permanent arrangement. To Alds. Irving and Annable, 1 Dickson said he had known of some Dickson said he had known of some i tempts made by Mr. Pfau to regulate t governor, but they did not steady t governor, as anticipated they would Ald aucMorris asked for the specific tions regarding the governor, and A Selous read the clause in the contra governing the taking over of the m chinery from the contractors. In reply to the mayor Mr. Gillice so he thought the city should make t final payment on the 26th, notwithstan ing the fact that some furber chang would have to be made. Mr. Kirkpatrick said the detail wan ing was a minor matter and payme should not be withheld on account of The plant was performing its duty, g ing light and power. They were not as ing payment for the governor, payme

ing nament for the governor, payme for that item could stand until the go ernor was adjusted. The \$13,000 shot be paid on the 26th as the city had \$50

on hand in escrow. To Ald, Hume Mr. Kirppatrick said had heard a rumor in the morning th the council would not accept the press 30 days' test. He had asked for meeting to ascertain what was the i

Tr.

situation. In reply to Ald. Selous, Mr. Dicks aid he could not report finally until had made a full investigation. It mis be necessary to shut down the plant make the final investigation. There we some minor matters that must be tended to, but generally the plant we running satisfactorily, outside of t question of the governor and the min matters referred to.

Matters referred to. Ald. Selous thought the whole mat was irregular. The time for the test w
