The Grand Trunk Railway System

Its Rail and Water Lines together will total 15,134 miles.
 In 1907 it carried 20,305,275 tons of Freight
 and 13,854,883 Passengers.

Many people fail to appreciate the commanding position that the Grand Trunk Railway System occupies among the great Railway Systems of the North American Continent. It is the Pioneer Railway of Canada and one of the earliest built and operated on this side of the Atlantic.

From a financial standpoint the Grand Trunk Railway System is the largest organization in Canada, and one of the greatest in the British Empire—the total capitalization of the Grand Trunk and its subsidiary lines being \$353,268,487. Including the Grand Trunk Pacific Railway the total capital at June 30th, 1908, was the enormous sum of \$447,898,932 for the entire Grand Trunk and Grand Trunk Pacific System of Railways.

The present total mileage of the Grand Trunk, including its subsidiary lines, is 5,300 miles, with a double track mileage of 1,035, which makes it not only the longest double track railway in Canada, but the longest continuous double track railway under one management in the world.

Vichy Celestins

There is only one Genuine "VICHY" Water. It comes from the *Celestins Spring*, which is so highly prized for its curative properties in Kidney and Bladder Complaints, that the water is bottled under French Government Supervision, and sealed with a Special Label to prevent substitution.

OPPORTUNITIES

The vigorous development of the Canadian Northern Railway, —now the second largest railway system in Canada—has thrown open immense new fields of activity to the business man and agriculturist. New enterprises have been made practicable in the six leading provinces, Ontario, Quebec, Nova Scotia, Manitoba, Alberta and Saskatchewan. Hundreds of new towns have been established—all prosperous and progressive communities—where opportunities wait for the enterprising. The story of this new birth of Canada as a first class commercial power in the world generally, and especially in North America, is well set forth in the interesting publication—

DO YOU HEAR WELL?

The ELECTROPHONE—A new, scientific and practical invention for those who are deaf or partially deaf—may now be **Tested in Your Own Home.** Deaf or partially deaf people may now make a month's trial of the Electrophone on payment of a small deposit. This is unusually important news for the deaf, for by this plan the final selection of the one completely satisfactory hearing aid is made easy and inexpensive for everyone.

This new invention renders unnecessary such clumsy, unsightly and frequently harmful devices, as trumpets, horns, tubes, ear-drums, fans, etc. It is a tiny electric telephone that fits on the ear, and which, the instant it is applied magnifies the sound waves in such a manner as to cause an astonishing increase in the clearness of all sounds. It overcomes the buzzing and roaring ear noises, and also so constantly and electrically exercises the vital parts of the ear that usually the natural unaided hearing itself is gradually restored.

WHAT ONE OF OUR PATRONS SAYS:
 Toronto, October 23rd, 1908.
 The Brand Electro Ozone, Ltd., Toronto, Ont.
 Dear Sirs: I am very happy to inform you that the Electrophone which I purchased from you five months ago has been of such service to me, that since then I may say I have been living in a new world. I have been afflicted with catarrhal deafness for over 20 years, and for the last two years I could not hear even the sound of a piano, but directly I put the Electrophone to my ear I can both hear and enjoy conversation, music, etc. I find also an improvement in my natural hearing during the short time I have used it. It is truly a God-send to me, and I can highly recommend the Electrophone to all who are suffering from that greatest of all afflictions—deafness.
 Please make use of my name in connection with the instrument at any time. I am, yours faithfully,
 31 Euclid Ave., Toronto. **MRS. M. LAURIE.**
