BY TRAIN TO MECCA

Travellers in the far East now go by train from Damascus to Mecca. A de-scription of certain features of the line

scription of certain features of the line by a recent traveler is of interest: "The ralls used in the construction are all steel, and come from the Un-ited States. From Damascus to Daras wooden ties were laid, which are al-ready' being replaced by fron ones. From Dazas south only fron ties, which also come from the United States, are used. "Some of the flat-cars and the freight-cars come from Belgium, while

"Some of the flat-cars and the freight-cars come from Belgium, while the passenger-cars are from Germany. The first-class cars are of the common comportment style, corridor running clear through on one side of the ear into which open the small compartments which accommodate eight persons each. They are finely upholstered, and cost 23,000 francs (34,600) each. Until now there have been no second. ed, and cost 23,000 francs (\$\frac{84}{0},000\) each. Until now there have been no second-class cars. The third-class cars are fitted up with stout wooden benches in rows, with an alse runing through the centre. They are not upholstered and have no curtains, but have glass windows and shutters. They cost 19,-000 francs (\$\frac{3}{3},800\) each.

"This road has been built by the Turkish government, assisted to a small extent by the contributions of devoted Mohammedans. Melsner Pasha, a German, has control of the con-

devoted Monammedans. Melsner Pa-sha, a German. has control of the con-struction of the road, and is assisted by other European engineers. The greater part of the manual labor has been done by the regular Turkish sol-diers without extra pay.

diers without extra pay.

"The Damascus station of the railway is situated at the extreme southern end of that part of the city called the Maiden. In viewing Damascus from the heights to the northwest the city resembles a saucepan or a spoon with a round bowl, the main part being round, and the quarter called the Maidan corresponding to the handle. The latter is practically a single long street. The station consists of several buildings, some of which are ware and baggage houses. Large repair shops are being erected. The present station building is a small affair, but it is probable that a suitable structure will bable that a suitable structure scon be built."

A 50 Cent Box of my Rheumatism Remedy Free.

My Remedy has actually cured men and women seventy and eighty years of age—some were so decrepit that they could not even dress themselves. To introduce this great remedy I intend to give fifty thousand 50 cent boxes away, and every suffering reader of this paper is courieously invited to write for one. No money is asked for this 50 cent box, neither now nor later, and if afterwards more is wanted I will furnish it to sufferers at a low cost. I found this remedy by a fortunate chance while an invalid from rheumatism, and since it oured me, it has been a blessing to thousands of other persons. Don't be sceptical, remember the first 50 cent box is absolutely free. This is an internal remedy which goes after the cause of the trouble, and when the cause of rheumatism is removed, have no fear of deformities. Rheumatism in time will affect the heart, so do not triffe with this merclless affliction. Address, enclosing this adv., JOHN A. SMITH, 43 Laing Bidg., Windsor, Ont.
