THE BEST OF MATERIALS USED IN CONSTRUCTION
Every Tooth Steeled and Hardened Every Piece warranted
against Breaking, 30 days.

EVERY HARROW WARRANTED TO WORK SATIS-
FACTORY, OR NO SALE.

COLLARD'S PATENT IRON HARROW

Has been constructed with great care, on scientific principles, and after repeated experiments. The sections being narrow renders it flexible; readily adjusts itself to the uneven surface of the ground; frees itself from roots, sods and all foreign substances; hugs the ground closely, tearing up every part of it. The hinges are so constructed that they hold the sections in line, and still allow sufficient play. It is light to handle, easy draft, and requires no repairing. Farmers are invited to try one of those Harrows far a day, and if they do not suit,—lay it aside. Address—

R. P. COLTON, Gananoque.

34,528 POLICIES,

Having, during the year 1870, issued the immense number of 12,319 Policies.

Intending insurers will note—

2nd—That being purely mutual, all the assets and profits belong solely to the members, and accumulate for their sole benefit, and are not paid away in the shape of dividends to shareholders as in the case of proprietary companies.

3rd—That nothing more hazardous than farm property and isolated dwelling houses are insured by this Company, and that it has no branch for the insurance of more dangerous property, nor has it any connection with any other company what-ever.

4th—That all honest losses are settled and paid for without any unnecessary delay.

5th—The rates of this Company are as low as those of any well established Company, and lower than those of a great many.
