

"Buy it NOW"

EVER since the war began the tendency of people has been to postpone buying until after the war.

The result is that work has fallen off and the number of unemployed has been increased.

Many have been putting off life insurance until after the war, many who can well afford to buy it now.

It is never a true economy to postpone life insurance; every year it is dearer and life is less certain.

Above every other necessity or luxury of life come the claims of life insurance. Buy it now!

And make it a Mutual Life Policy, because in a Mutual Company there are no proprietors nor stockholders to receive special dividends. The policyholders are credited with the whole surplus.

A Safe Deposit Vault

In which you place your silage for carrying stock through winters and droughts, at big profits—that's what the Natco Everlasting Silo is. It's safe because it can't decay, can't blow over, and can't burn.

Build a Natco. It preserves ensilage perfectly in all parts and once up, always up. Its hollow vitrified clay tile are impervious to air, moisture and frost, and its reinforcement of steel bands laid in the mortar gives strength to resist all wind and silage pressures. The

Natco Everlasting Silo
"The Silo That Lasts for Generations"
never needs painting or adjusting, and the first cost is the only cost. Quickly erected, convenient and attractive—the most valuable addition to your farm buildings. Write for list Natco owners in your province and Catalog 4

Is your cream can being ROBBED?

Is your separator the thief?

SUPPOSE you found that some one was stealing even a little of your cream every day. You wouldn't rest easy until you had put a stop to it.

If you are using an old or inferior cream separator, the chances are ten to one that each time you use it you lose some cream. Your cream can be being robbed just as surely as if some one were stealing cream from it.

Some people go on using their old separator even if they know that it is not working right. They fail to realize that if the separator doesn't run right it can't possibly skim clean. They overlook the fact that a De Laval will soon pay for itself just from what it saves over an inferior or half worn-out machine.

If your present cream separator is not skimming as close as two one hundredths of one per cent it will easily pay you to

trade in your old separator
on account of a new

DE LAVAL

68,000 users did so last year
34,873 in the U. S. and Canada

You can never get your money back by continuing to use a worn-out or inferior cream separator. The longer you keep it, the greater your loss.

The quickest and best way to satisfy yourself as to the comparative merits of the De Laval and your old machine is to ask the local De Laval agent to bring a machine right out to your place.

He will be glad to let you have a free trial alongside your present machine; and, if you decide to purchase, will make you an exchange allowance on your old machine, whether it be an old De Laval or some other make.

If you don't know the De Laval agent, write to the nearest De Laval office below, giving make, number and size of your present machine and full information will be sent you.
