B. H. BULL & SON, BRAMPTON, ONT.

### ARE YOU IN WANT OF A CHOICE BULL TO HEAD YOUR HERD?

We are offering choice bull calves sired by Fountain's Boyle, who won first prize at Toronto, London and Ottawa, who also headed first-prize herd at Toronto and Ottawa. Also offering some choice heifers.

D. DUNCAN, DON, ONT.

DUNCAN STATION, C. N. O.

Teacher was telling her class little stories in natural history, and she asked if anyone could tell her what a groundhog was. "I've went a little hand, waving frantically."

"Well, Carl, you may tell us what a groundhog is."

"Please, ma'am, it's sausage."

### GOSSIP.

During the past few weeks, Dr. D. McEachran, of Ormstown, P. Q., who has been at his ranch near Pincher Creek, Alta., found a good demand for his Clydesdales. Since July, he sold nine females at fair prices, some bringing as high as \$350. Most of these went to the Claresholm district. Dr. McEachran says the farmers of that locality want big, strong horses, and are willing to pay big prices.

### RANCHERS CO-OPERATE TO EXTERMINATE WOLVES.

The wolf, the ruthless enemy of the ranching industry, has, during the past season, levied his usual heavy toll on the ranchers' stock that roam the hills of Southern Alberta. Recently, a meeting was held at Medicine Hat, where gathered many prominent ranchmen. As a result of the meeting, the system of financing wolf bounties was placed on a more satisfactory basis than has hitherto prevailed. The Provincial Government pays a bounty of \$15 per head for grown wolves killed, and \$5 for pups; but recently the loss has been so heavy that the ranchers have co-operated to supplement this bounty. The problem was thoroughly discussed, and it was decided that each of the ranchers entering into the offensive and defensive alliance against the ruthless freebooters of the plains, shall contribute towards a central fund an amount equivalent to five cents per head on the stock owned or handled by him. The bounty has been placed at \$50 for full-grown wolves, and \$20 for cubs. There has been scarcely a rancher in Southern Alberta that has not suffered considerable loss, and in many cases the depredations of wolves have been such as to seriously deplete the herds. However, in the near future, it may be that as the result of the new crusade, wolves will become scarce in Western Canada.

### F. S. CONDITIONS OF SHEEP IMPORTATION.

Announcement has been previously made through these columns of the fact that the United States thirty-day quarantine on Canadian sheep for breeding purposes has been abrogated. It may be advisable to publish herewith the literal text of the amending order. Regulation 41, of the Regulations of the Secretary of Agriculture for the inspection and quarantine of horses, cattle, sheep and other ruminants and swine imported into the United States, B. A. L. Order 142, is hereby amended to read as follows:

Regulation 41. All sheep imported into the United States from Canada for breeding, grazing or feeding, must be inspected at the port of entry by an inspector of the Bureau of Animal Industry. They must also have been inspected by a veterinarian in the employ of, and receiving a salary from, the Canadian Government, and be accompanied by a certificate signed by him, stating that he has inspected the sheep, and found them free from disease, and that no contagious disease affecting sheep has existed in the district in which the animals have been kept for six months preceding the date of importation; stating also that they have been twice carefully dipped under his personal supervision, or under the personal supervision of another veterinarian in the employ of, and receiving a salary from, the Canadian Government, in one of the dips approved by the Secretary of Agriculture, as described in Regulation 33 of B. A. L. Order 113. The owner or importer shall present an affidavit that said certificate refers to the sheep in question. It is provided further, That any such sheep which are unaccompanied by the aforesaid certificate showing that they had been twice dipped, as herein prescribed, shall be subjected to a quarantine of thirty days.

This amendment shall become and be effective on and after October 20, 1909. —James Wilson, Secretary of Agriculture.
