

No. 1.—McLAUGHLIN GEAR, CORNING BODY.

We are the inventors of and patentees of the only genuine and proper McLaughlin Gear. Other similar gears are imitations of ours. (See Page 91.)

Axles— $1\frac{5}{16}$ inch, double collar steel.

Wheels—A standard, Sarven patent, Parker front,

Painting—Body and seat, black; gear, carmine, green, or black, nicely striped.

Trimnings—Hand buffed leather, high spring back, spring cushion, carpet, floor cloth, apron with pocket, plated brass combined dash rail and rein holder, plated brass seat handles and hub bands, patent noiseless rubber and brass washers and whiffletree plates. SEE PAGE 48.
